WAR AND BUSINESS AT BOARD OF TRADE

Both Subjects Discussed by Distinguished Speakers at Meeting in Colonial Hall—Addresses Applauded by About 300 Members

The first in a series of winter meetings for the members of the Lowell board of trade was held last night in Colonial hall, Palmer street, and about 300 men were in attendance. The speakers of the evening were Edwin D. Mead of Boston, director-in-chief, of the World Peace Foundation, and Roger W. Babson of Boston, expert business statistician. The two men proved to be very interesting speakers, while their lectures were very instructive.

The assembly gathered at the hall at 6.30 o'clock at which time a buffet luncheon was served. At 7.45 o'clock the guests repaired to the lecture hall, where for over two hours they were highly entertained by the notable

speakers. Previous to the addresses an orchestra furnished a very enjoyable concert. The meeting was so successful that it was planned to hold a similar one on Dec. 3.

President Marden opened the meeting with appropriate remarks, speaking in high terms of the two speakers who had taken places on the stage. He informed the members of the board they were at liberty to ask whatever question they saw fit to the speakers and he told them not to be backward if there was anything they wanted to know.

GERMAN CRUISER BLOWN UP BY MINE

Paris Hears That Gen. Von Kluck of German Right Wing Died at Namur—Berlin Says Blocking of North Sea is Blow to Neutral Shipping—Naval News Looms Large in London

LONDON, Nov. 5.—Naval news looms large in London today. The British public is seeking further details for the action last Sunday off the coast of Chile but no continued efforts are being made to minimize this disaster. Great anxiety is felt concerning the fate of Rear Admiral Sir Christopher Craddock, which probably will not be known until it has definitely determined what has become of his flagship, the cruiser Good Hope.

The British public, however, is not left without some crumbs of comfort, as Berlin officially admits the loss of the cruiser York, blown up by a mine near Jade, one of the outlying defenses of Wilhelmshaven, while in shipping circles in London it is declared that the career of the German cruiser Koenigsberg in the Indian ocean has been ended.

ANNOUNCED THAT STATE OF WAR EXISTS BETWEEN ENGLAND AND TURKEY

LONDON, Nov. 5.—It was officially announced in London today that a state of war exists between Great Britain and Turkey.

The proclamation to this effect, which subsequently was gazetted, reads as follows:

"Owing to hostile acts committed by Turkish forces under German officers a state of war exists between Great Britain and Turkey from today and all proclamations and orders in council issued with reference to the state of war between Great Britain and Germany shall apply to the state of war between Great Britain and Turkey."

A privy council was held in Buckingham palace this morning to discuss this question. At its conclusion, King George signed the documents proclaiming the state of war and the announcement was made.

REPORTED THAT GEN. VON KLUCK DIED IN HOSPITAL AT NAMUR

PARIS, Nov. 5.—The correspondent of the Excelsior says he has from a source which he cannot designate, news of the death of General Von Kluck ten days ago in a hospital at Namur, where he was treated for a wound in the head. The news of the alleged death, the correspondent says, has been carefully concealed in Belgium and Germany.

Gen. Von Kluck, who led the dash of the German right wing which got to within a few miles of Paris in the first month of the fighting, has been reported, within the last few days, in official communications as directing his army in the fighting on the River Aisne. When the scene of severe fighting shifted to Belgium and the German right wing was extended into that territory, Gen. Von Kluck, following his skillful retreat from the vicinity of Paris, remained in the position he had taken on the Aisne. The fighting there recently has been overshadowed by the operations in Belgium and Gen. Von Kluck and his army, according to reports, have been given a much-needed rest.

BLOCKING OF NORTH SEA BLOW TO SHIPPING OF NEUTRAL POWERS

BERLIN, Nov. 5.—(By wireless)—Information was given out to the press in Berlin today from official quarters as follows:

"The director of the Swedish Shipping association declares that the English blocking of the North sea by mines is a blow to shipping of neutral powers, especially Scandinavia."

"The Politiken, the organ of the Danish government, says its action on the part of Great Britain, is a heavy blow to British shipping."

TOKIO, Nov. 5.—It is officially announced that the bombardment of

TSING TAU CONTINUES. THE GERMANS ON THE NIGHT OF NOV. 3 MADE A COUNTER ATTACK WHICH FOR A TIME HINDERED OPERATIONS.

The attacking forces, according to the statement, are now gradually closing in. Shells are falling in the streets of the town and the power-house has been destroyed.

On Nov. 4, the Japanese right column captured some small forts and an officer and 20 soldiers.

POST 185, G. A. R.

The regular meeting of Ladd & Whitney post was held last evening. Commander Caverly in the chair. General orders from the national and department headquarters were read. Under the new business, the quarter-master, W. A. Arnold, presented the post, for Capt. James E. Thompson, with a group picture of the "Four First Martyrs of the Civil War," Col. Ellsworth, Addison O. Whitney, Luther C. Ladd, Sumner H. Needham, Capt. Thompson was a Civil war veteran in Cos. G and D, 16th Mass. Vols.

A vote of thanks was extended to him, and when the post has to surrender its charter this picture, with others, will go to Memorial hall.

The post accepted an invitation to attend Post 120, G. A. R. inspection, Wednesday evening, Nov. 11.

FRIDAY'S SUN FEATURES

The Old Timer Will Have an Interesting Review of Happenings of a Quarter Century Ago; Other Features

The Old Timer will recall the local celebration of the Catholic centenary in which many well known people appeared, and will relate how Commissioner Morse received a bump in Bridge street 25 years ago, together with other interesting reminiscences of quarter of a century ago.

It is a safe bet that many Lowell ladies are at the present time in a state of uncertainty concerning their preference with regard to the style of a winter hat. Marjorie was in the same predicament, didn't know what style she wanted and went to Marie for advice. Whereupon the French Maid made some suggestions. These will be published in The Sun tomorrow and may help the readers just as they helped Marjorie.

The Chamolse Treatment is the newest and most effective local treatment for the complexion. Women who are troubled with skin troubles, etc., should give her skin the chamolse treatment. It is fully explained in "The Rabbit's Foot" in tomorrow's Sun.

In Friday's Sun there will be printed an interesting suburban article with a discussion of various important suburban topics.

"The Lands Family" is the story of a clock and the dreadful experience it had. Read this story to the kiddies at "sleepytime."

Fred C. Church held the insurance on the building and contents of Michael Ansora, 25100 Suffolk street, damaged by fire last night.

If you want help at home or in your business, try The Sun "Want" column.

CLAIMS OF ST. RY. MEN WILL BE ARBITRATED

Decision Reached in Controversy Between Bay State Company and Its Employees Whose Working Agreement Has Expired

The Bay State street railway wage dispute will be settled by arbitration. This decision was arrived at last night and the local carmen as well as all the employees of the Bay State system were notified of the plan today. The company has selected H. E. Reynolds, assistant general manager of the Bay State system, to represent the road at the arbitration hearings and the carmen have picked Lawyer James H. Valley of Watertown to look after their interests. The third arbitrator will be chosen by Messrs. Reynolds and Valley.

Every division of the Bay State road is keenly interested in this move as the wage agreements all over the system have expired. There are over 4000 carmen connected with the road, which runs through three states, Massachusetts, New Hampshire and Rhode Island.

The carmen have held a series of meetings at which wages and working conditions were discussed and recently a proposition was submitted by the road officials. This, however, was not acceptable to the men and they voted unanimously to reject it. After this action the road officers and counsel for the employees conferred and it was decided to settle the dispute by an arbitration board composed of three members.

That the questions at issue are to be decided by arbitration is a matter on which all concerned are to be congratulated. It is for their interest as well as that of the public.

SIX BURNED TO DEATH

Fire Swept Through Four Story Lodging House in New York City This Morning

NEW YORK, Nov. 5.—Six men were burned to death, some of them in their sleep, in a fire which swept through a four-story lodging house at 352 Eighth avenue this morning. Fifty men were sleeping in the structure when the fire was discovered. Firemen made many thrilling rescues.

Most of the men who were saved the firemen carried to the street down a fire escape and extension ladders.

The night watchman saw smoke on the ground floor and ran to the top floor shouting the alarm. Before he reached the head of the stairs flames were shooting out the second story windows. In a few seconds a dozen or more men stood up on the fire escape in imminent danger of being burned to death.

Inside the building a score of sleepers were overcome in bed. The bodies of the six men who perished were found on the bedspring—the mattresses had been burned—frantically charred and beyond recognition. There is no doubt that they died in bed, unconscious of their danger and there is little doubt that others would have gone the same way but for the quick work of the firemen.

More than a dozen of those rescued were unconscious.

Fifteen men on the top floor, nervous and panicky, were quieted by firemen and crawled, perilously along a narrow ledge to a window of a building adjoining.

Within 30 minutes the fire was out.

CREW PAID OFF

Winter Sailings of White Star Liner Olympic Cancelled

BELFAST, Ireland, Nov. 5.—The winter sailings of the White Star liner Olympic have been cancelled and today the members of her crew were paid off.

B. & N. ORDERED TO PAY \$68,154

ROSTON, Nov. 5.—Verdicts aggregating \$68,154 were returned yesterday in the superior court here against the Roston & Maine railroad by order of court.

The suits are based on the note issues of that road which could not be met when they fell due, and as a result some of the holders who did not agree to an extension brought suit.

Otto Beit received the largest amount, \$52,044.67, with the Merrimack National bank next with a verdict of \$10,253.34, and Charles W. Arnold \$5126.67.

COPPER KING IS DEAD

F. Augustus Heinze Taken Suddenly Ill at Saratoga After Voting—Stormy Career

SARATOGA, N. Y., Nov. 5.—F. Augustus Heinze, owner of immense copper interests in the west, died suddenly here last night.

Mr. Heinze, whose legal residence was Saratoga, came here yesterday from New York to vote. He became ill suddenly yesterday afternoon at the home of his counsel, Judge Nash Rockwood. His condition grew steadily worse and he expired early last evening.

Ill Since June
Mr. Heinze, who was 42 years old, had been ill since last June with cirrhosis of the liver. He came here against the advice of his physicians.

Mr. Heinze had made his home in Saratoga for the last six months and his son, F. Augustus H. Heinze, Jr., 23 years old, was the only relative he had here. His wife died about a year ago. A sister of Mr. Heinze, Mrs. William F. Flettman, and two brothers, Arthur P. and Otto Heinze of New York, are on their way here. No funeral arrangements will be made until they arrive.

During the half a year that he lived here Mr. Heinze seldom spent more than a few days at a time here, living

in New York and returning to Saratoga frequently to consult his attorney.

REMARKABLE CAREER

Heinze Involved in Litigation From Beginning of Career Almost Till Time of His Death

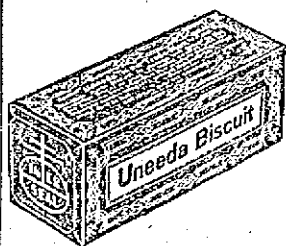

F. Augustus Heinze, one-time copper king and the most picturesque figure in the mining field for years, was born in Brooklyn, N. Y., Dec. 5, 1859. After completing his early education he entered the Columbia College School of Mines from which he was graduated just before reaching his 20th birthday.

In the fall of 1880, after leaving college, he entered the employ of the Boston & Montana Mining company at Butte, Mont., for a salary of \$150 a month as a mining engineer.

A little later he was back in New York holding down a chair as a sub-editor on the staff of the Engineering and Mining Journal. The call of the mines was irresistible. Accompanied by Stanley Gifford—ever since his close associate—he went back to Butte. The young men each had \$5,000, borrowed money.

With this capital, Heinze and Gifford began leasing on the Hamsdel Parrot. Out of profits, they started a lease on

"SICK MAN OF EUROPE"

THE SULTAN OF TURKEY, AGED 58 YEARS, FACES CRISIS OF EMPIRE—REGARDED AS MAN OF PEACE

SULTAN MOHAMMED V.

The sultan of Turkey, always referred to as the "Sick Man of Europe," is likely to become critically ill or else meet with a fine recovery as the result of throwing in his lot with the Kaiser in the present war. Mohammed V. has been sultan for five years. He is called a good natured, pious old man of sixty-eight, obedient to the will of the Young Turks and of the Austro-German influence. After half a lifetime of palace imprisonment he was set free from his bondage and placed in power, while his brother, the erstwhile sultan, was relegated to political oblivion. The present ruler of the Ottoman empire has always been regarded as a man of peace and contentment.

ed, he financed himself for the big fight.

Would Not Be Licked

Only one thing was certain through all that bitter war—Heinze would not be licked. When the miners of the district rose en masse against him, and in support of Amalgamated, Heinze met them face to face, and after talking to them for 30 minutes from the steps of the Butte courthouse, won them over to his side. When the "Underground Warfare"—physical fighting in lower workings, fighting with steel, dynamite and water—began between the miners employed by the opposing interests, Heinze was in shaft, drift and crosscut directing his men until the situation became so weighted with menace to human life that an agreement for amicable mining became a necessity.

Heinze played a higher card, took the lead and quickly exhausted his opponent's hand. When process-servers attempted to serve him with legal documents while he stood by the grave open to receive his mother's body, Heinze's hand went to his gun-pocket, and he told that process-server that the movement of a finger would cost him his life.

Loans Were Called

When the night was at the hottest, the Amalgamated crowd got control of two New York city banks to which Heinze was heavily indebted. His loans were called. He agreed to reduce them at the rate of \$10,000 daily. A quarter of a million had been paid off in this manner when Heinze concluded that he must either sell out or pay off these loans and drop negotiations for good and all. He called on a friend to lend him \$250,000. The friend promised. Heinze went to St. H. Rogers' office—that was when Amalgamated was offering \$5,000,000 and Heinze was asking \$8,500,000.

"I'm going back west," said Mr. Heinze to the Standard Oil magnate, "we can't come to an agreement."

"When are you leaving," asked Rogers.

"It is now Friday; I'm leaving Monday evening," replied Heinze.

"That being the case," began Rogers, by way of calling what he thought was a bluff, "drop in and see me next Tuesday afternoon at 3 o'clock."

That was Sept. 6, 1901.

Went Back to Mines

Disturbed as was the situation, the friend came through the next day with that quarter of a million; the loans were paid, and Heinze went back to the mines, leaving Amalgamated to accumulate that \$2,000,000 penalty for delay.

A little later Heinze went to Europe for a protracted visit. Then was the time, during his absence, when Amalgamated would surely get him. It didn't. Heinze's lieutenants were able to carry on affairs successfully, so well had they been trained; and it was this—the proof of the strength of the organization the man had called into being—which finally brought Amalgamated to its knees in settlement.

The last Heinze fight—his battle to clear himself of criminal charges brought in the federal courts—resulted in a clean victory as did his fight against Amalgamated.

In 1905 Heinze came to New York willing to wager his last dollar, but within a few years his fortune dwindled and he was constantly embroiled in affairs that brought him into court again and again.

He established his brothers, Arthur and Otto, in the stock exchange firm of Otto C. Heinze & Co. He bought control of the Mercantile National bank from Edwin Gould and became its president.

Working through this bank and the stock exchange firm, he and his friends established a chain of banks. Things were breaking big in the financial world and Heinze and his name was heard wherever bankers and brokers got together. Then came the panicky days of 1907 and when every banker was huddling his resources Heinze started to corner United Copper.

Beginning of End

That was the beginning of the end. Great quantities of stock were dumped into the market and were bought by Heinze commissioned to buy by Otto C. Heinze & Co. Debts came piling up and

The Bon Marche

THE PRICE?

ABSOLUTELY RIGHT

on Oct. 15, 1907, the stock organization

suspended Heinze and his brother. The

State Savings bank of Butte, Mont., a

Heinze institution, suspended pay-

ments. The clearing house committee

compelled Heinze to resign from the

Mercantile National bank presidency

and began an investigation of its af-

fairs.

The result was that Heinze and his

friends, Chas. W. Morse, O. F. Thomas

and E. R. Thomas, got out of the banks

which had been organized at Heinze's

suggestion. Heinze struggled to main-

tain himself, but he was in too deep

and had to quit. He lost money as

readily as he had made it. Then he was

indicted and arrested for overcertify-

ing checks in settling his brother

Otto's affairs. The trial went along

and while Heinze was freed he was

also comparatively moneyless. He then

went back to Butte.

Lost Suit for Million

During the last few years he has

been in the public eye chiefly as a

litigant in actions growing out of his

Wall street career. His most recent

appearance was as defendant in a suit

brought by Edwin Gould to recover on

promissory notes with which Heinze

bought his way into the Mercantile

National bank. The judgment for more

than a million dollars went against

Heinze.

During a previous action he had

been reported dying and was unable to

appear in court. He had hemorrhages

of the stomach and cirrhosis of the

liver. At the Gould trial his voice

was weak and husky. He gave the out-

ward appearance of health, but his

friends declared that he was very ill.

In 1910 Heinze married Bernice

Golden Henderson, an actress. Within

two years Mrs. Heinze was given an

interlocutory decree of divorce against

her husband.

She was taken ill early last year,

and when told she was going to die,

she told the doctors she wanted to see

her husband. Just before her death in

her husband's arms, she said to him,

"Oh, Fritz, I want that divorce set

aside. I want it all wiped out for our

boy's sake."

Her lawyer after her death began

preparations to have the divorce set

aside.

business, try The Sun "Want" column.

THE RABBIT'S FOOT

BY GWEN SEARS

ADVICE TO THE DEBUTANTE

The modern young girl of these days is a very strenuous person. Little debaucheries in society are perhaps victims of late hours, indigestible foods and insufficient warm clothing in the chill night air, more than the average girl. But girls in any state of life should not fail to regard their health. Too often it happens that the debutante is not wise in this respect. Late hours, refreshments at all hours, a great amount of nervous excitement, all do their work and some fine day our young lady awakes with a horrid start to the knowledge that her good complexion has vanished, and she is left with a skin dotted with blackheads, punctured here and there with small pimples, a generally sallow or pale appearance, lines around and under the eyes.

What an outcry is there, my countrymen! And straightaway heroic

measures are resorted to, to atone for past thoughtlessness and neglect.

The fact of the matter is such a loss need not have occurred. A little

intelligence, a little forethought and that incomparable freshness which

cannot be bought in any box, coming from Paris or any other place, could

have been retained and the girl pos-

sessed of such wisdom would have

stood out among her less fortunate

friends as the newly opened flower

does among those about ready to fall

from the stalk. Who would not

achieve such a result, if it is within

one's power to do so?

Simple enough are the rules where-

by this can be done. Last sleep—this

is the traitor which so often de-

presses vitality and the next thing

a cold is caught with all of its ac-

companied discomforts.

BEACON FALLS
TOP NOTCH RUBBERS

WHERE DO YOUR RUBBERS WEAR OUT FIRST?

The ladies who wear high heel shoes know from past experience that it is the heel.

Then why don't you buy a pair of Top Notch Rubbers with the patented, doubly-reinforced "Clincher Cushion" heel—the only real balanced rubbers sold in town. They won't break or split through at the heel before the rest of the rubber is worn. The heel is strengthened and reinforced to resist constant wear and tear.

Now is the time to buy these longer-wearing rubbers. You will find them just as stylish as they are serviceable.

the Glengarry, found high-grade and in a year bought the mine for \$55,000. Then they took up the Rarus afterward included in the sale by United Copper to the Cole-Ryan syndicate.

The Rarus was bought for \$100,000; it paid Heinze half a million yearly for years.

All this was in Mr. Heinze's "kid" years. He was only 22 years old when, in 1882, he organized the Montana Ore Purchasing company, and formed an alliance with the Lewisohns for the marketing of ores of the Butte district independently of the local smelters.

From the beginning Heinze was involved in litigation. It was claimed that ore bodies discovered in the Rarus, one of his mines, ran into the property of other concerns. Suits were brought against him by the Boston & Montana and the Butte & Boston companies. Heinze had friends in office and in the courts and it was charged that legislation favorable to him was passed and upheld much according to his wishes. Anyway, he won these suits and others that steadily added to his fortune.

The late Marcus Daly had been chief owner of Heinze and rival companies and the stage was set for a copper war when Daly died, and when the Amalgamated Copper company organized in April, 1899, with a capital of \$75,000,000, the stage was set for a great copper war.

Heinze soon was involved in litigation against Daly, the late Henry H. Rogers and other men representing Standard Oil interests as officials of Amalgamated.

Went to Canada

In 1892, while his first litigation was in progress, Mr. Heinze's attention was called to the LeRoy mine, in British Columbia, west of the Columbia river, and at a town now called Rossland, 25 miles by stage from the nearest railroad and in the midst of a forest. When Mr. Heinze got there, all he found was a shaft about 500 feet deep, and a small house and three or four shacks.

Heinze immediately decided the mine would be a wonderful producer, and advanced \$50,000 to get control of the mine. He thereupon made a contract to smelt 100,000 tons of ore for the company, built a smelter at a cost of over \$200,000, and started the construction of a 44-mile railroad. In 12 months the community around the mine had grown into one of 30,000 people, and within two years the town of Rossland developed from the few shacks around the shaft into a town of 10,000 inhabitants.

Incidentally, to this venture, Mr. Heinze undertook the construction of a 350-mile railroad, got an agreement for a government subsidy amounting to \$15,000,000, and took an option on the Crow's Nest Pass coal fields, which recently passed to the ownership of the James J. Hill interest. Mr. Heinze was in British Columbia engaged in these ventures when, 1896, the Butte Copper war broke out.

There was treachery in his Butte camp, which had been strenuously busy from 1892 to 1896. Heinze literally jumped from British Columbia to Montreal, made a lightning-like deal by which, in return for all his British Columbia possessions except one-half interest in 500,000 acres of timber land granted as subsidy for the 50 miles of railroad already construct-

ON TWO MURDER CASES MUNICIPAL COUNCIL MET

Grand Jury in Session at Court House Today Considers Tyngsboro and Ayer Murders

Various Street Matters Disposed of—Several Old Bills Bob up—The Labor Registration Bureau

The grand jury which held its opening session of the fall term in Cambridge last Monday came to Lowell this morning to hear evidence in two murder cases and other cases sent to them by the lower courts.

The session was a rather lengthy one and it included a number of cases. The first case to be brought before the jury was that of the alleged murderer, at Ayer Junction. The witnesses who presented the evidence were as follows: Chief of Police Healy of Ayer, Chief of Police Dewling of Groton, Chief of Police Montell of Pepperell, State Officer Silas Smith, State Detective Flynn, Dr. Buckley, medical examiner at Ayer and a number of foreigners, Placido Calabro of Boston serving as interpreter.

The evidence in the case of Juvon Moudlan of this city, who is charged with the murder of Ziffo Allis, was presented by Constable Norbert L. Provencier of Tyngsboro, who arrested the boy, Chief of Police Redmond Welch, who received the dying statement of the murdered man and a number of foreigners.

The other cases to be brought to the attention of the grand jury were as follows: Mohammed Jameel, assault and battery; Joseph O. St. Arnaud and William Jalbert, two counts of breaking and entering; Hippolyte Buslewich, two counts, one of burning an insured property and another of burning a building.

QUARANTINE OF CATTLE
ALBANY, N. Y., Nov. 4.—A quarantine on cattle as a result of reports of the existence of foot and mouth disease was declared in Seneca and Erie counties today by Commissioner Huse of the state department of agriculture.

CHIMNEY FIRE
Hose responded to a telephone alarm at 9 o'clock this morning for a chimney fire in a house on Manufacturer street owned by Dennis Collins. No damage.

Another Old Bill
Old bills, capitalized or otherwise, will not down at city hall. Another old timer was pushed across the boards today after resting in the archives since 1912. The amount of the bill is \$250 and it is owed to William H. Fuller for labor and material. The matter was referred to the city solicitor.

Streets and Sidewalks
The commissioner of streets and sidewalks reported favorably on a petition for a sidewalk of concrete and gravel on the south side of Victoria st. and an order providing for it was adopted. The council also voted to discontinue the northwesterly end of Tilden street as an accepted street.

The Commissioner of Streets and Sidewalks
The commissioner of streets and sidewalks recommended gas lights in certain streets but the mayor opposed the proposition on the ground that the commissioner of streets did not have the money to install the lights. The matter was tabled.

Because of the state election yesterday the municipal council postponed its regular Tuesday afternoon meeting until today. Mayor Murphy called to order shortly after 11 o'clock and declared the hearing open on the petition of the City Hall garage for garage and gasoline licenses. John H. Beaulieu appeared as a remonstrant. He said he was opposed to the petition because it exposed his property in the vicinity of the garage, to danger by fire and because of the close proximity of the garage, he said, the insurance company had raised his insurance about \$35 a year. The matter was referred to Commissioner Carmichael and the chief of the fire department.

Other petitioners for garage and gasoline licenses whose petitions were referred included Luther W. Faulkner, Adolphe Lamontagne, Warren S. Woodward, Dr. R. J. McCluskey, Marie L. S. Baron, Roy F. Lovejoy and Albert J. Brooks.

A Funny Little Mixup
The Lowell Electric Light corporation petitioned for a pole location in Saunders avenue, opposite Pembroke street. A Mr. Morton appeared for the petitioner and stated that the company wanted the location in order to serve one William H. Penn with light. When Mr. Morton had finished up jumped the said Mr. Penn. He said the company had not consulted him at all relative to the pole location and that he had not contracted for light from the company. He was opposed, in fact, to the location asked for and just for that the petitioner was given leave to withdraw.

Another Old Bill
Old bills, capitalized or otherwise, will not down at city hall. Another old timer was pushed across the boards today after resting in the archives since 1912. The amount of the bill is \$250 and it is owed to William H. Fuller for labor and material. The matter was referred to the city solicitor.

Streets and Sidewalks
The commissioner of streets and sidewalks reported favorably on a petition for a sidewalk of concrete and gravel on the south side of Victoria st. and an order providing for it was adopted. The council also voted to discontinue the northwesterly end of Tilden street as an accepted street.

FRENCH CUIRASSIERS AMONG THE BRAVEST OF MANY TYPED OPPONENTS OF GERMANY

Among the French fighting men the cuirassiers have a reputation of being among the bravest and most daring. They most usually are assigned to scout and advance base duty. They derive their name from the cuirasses they wear; armored torso protectors.

CONGRATULATES WINNER

J. JOSEPH O'CONNOR EXTENDS CONGRATULATIONS TO CONGRESSMAN JOHN JACOB ROGERS

The following letter, which is self-explanatory, has been sent to Congressman Rogers by J. Joseph O'Connor, Esq., the defeated candidate for congress in the fifth district:

Lowell, Mass., Nov. 3, 1914.
Hon. John Jacob Rogers:
Dear Sir—Pray accept my congratulations upon your splendid victory.
Very truly yours,
J. Joseph O'Connor.

Congressman Rogers' reply was as follows:
Nov. 4, 1914.
J. Joseph O'Connor, Esq., Lowell, Mass.
My Dear Mr. O'Connor—Please accept my cordial thanks for your very courteous note of congratulation.
Sincerely yours,
John Jacob Rogers.

STRAY ITEMS
A New Jersey man has invented a machine which pitches balls wherever they are wanted, and with varying speeds, to give players batting practice.

The good health of Dennisport on Cape Cod is revealed in the fact that no death has occurred there since April 1.

A correspondent says that England is treating with gross irreverence a celebrated German custom by making iron crosses that cost a penny apiece, and hanging them on cab horses and bulldogs.

Mrs. Annie Petty of Junction City, Kan., decided that her church should have a building of its own, and not a rented room. She, therefore, took in washing daily and earned money enough to purchase a lot, and then contributed largely to the erection of the recently completed building.

South Newburg, Me., can boast a resident 85 years old who, on his birthday, picked up two bushels of potatoes in 14 minutes, and on the following day, picked a barrel of apples in 40 minutes.

In England women are empowered by the laws to fill the following positions: Queen, marshal, champion of England, commissioner of sewers, governor of workhouse, keeper of prison gate, house of the dean and chapter of Westminster, sexton, returning officer, constable, church warden of the poor, but a woman may not be solicitor nor hold any other court position.

Charles H. Davis of Plymouth brought ashore a lobster which was yellow instead of the usual dark bluish green. Two other oddities he found this season was a big blue crab, the kind with spurs on each side, such as is found south of Cape Cod, and a rock bass, both of which have seldom been seen in the Plymouth Bay.

By the introduction of ventilating devices, a lead smelter works in Hungary reduced the illness among its employees from 73 per cent to 3 per cent.

A Bath, Me., boy, aged 8, has an almost feminine liking for kittens as pets, and at one time this fall he had 18. He would allow no one to feed them but himself, but in spite of his careful treatment only four remained, the others having mysteriously disappeared.

At Cape Town, in South Africa, is Table Mountain, a magnificent natural curiosity which rises behind the city to the height of almost 4000 feet and has a level top about three square miles in area. Its resemblance to a huge table is so marked that the dense clouds which collect at times around the summit are referred to as the tablecloth. A pretty little flower which is found nowhere else on earth grows on top, while on the northern side of its base is a similarly rare tree, popularly called the silver leaf tree.

ELGIN LODGE, N. E. O. P.
Elgin lodge, 165, N. E. O. P., will hold its regular meeting Thursday evening in Veritas hall. A large amount of routine business will be transacted and steps will be taken toward the celebration of the 25th anniversary in December. A full attendance is desired.

\$30,000 LOSS BY FIRE
BRATTLEBORO, Vt., Nov. 4.—Fire late last night, which for a time threatened the centre of the town, destroyed four buildings and did damage estimated at \$30,000. The electric power station was crippled and the town was plunged in darkness.

ANOTHER POISON VICTIM
BRISTOL, Vt., Nov. 4.—The list of victims who have died from drinking liquor containing wood alcohol alleged to have been purchased from Dr. D. A. Bisbee, a druggist, last week was increased to 13 today with the death of Peter Sargent of Huntington, who succumbed during the night. John Agar of Monckton, another sufferer, is in a serious condition. An investigation of the affair is in progress.

STORM WARNING
NEW YORK, Nov. 4.—The weather bureau today received the following from Washington:
Advisory storm warning, ordered 11 a. m. New England coast, Eastport to New Haven. Storm centered in Ontario, strong southwest winds, shifting to northwest Thursday.

NATIONALISTS OF IRELAND

Speak Through "Irish Volunteer"

—Bishop O'Donnell Nails False Statement Attributed to Him

The second issue of the Irish Volunteer, the official organ of the nationalist volunteers, published in Dublin, is at hand and as in all respects a very creditable publication. The front page has a message of congratulation from Mr. Redmond for its accuracy in getting forth the present status of the Irish volunteers and at the same time contradicting the crop of false reports spread abroad by the so-called "Sinn Féiners," who have always opposed the efforts of the parliamentary party without offering any practical or possible alternative course. Since the opening of the war such self-advertising patriots as Seumas MacManus are seeking notoriety by stating without any authority or any truth that there is no recruiting in the south of Ireland, that the Irish people desire to see England beaten and that Mr. Redmond has lost his influence with the people as a result of advocating recruiting for the war. Mr. MacManus is to be classed with the discussionists who want to overthrow home rule and who pose as sterling Irish patriots by boasting that they hate England and wish to see her downfall.

For some weeks past a few papers in this country, some of which are evidently under German control, are publishing the most ridiculous lies about the Irish situation and ridiculing Mr. Redmond as a British recruiting sergeant.

Bishop Confounds the Liars

The Volunteer, speaking of the falsehoods published in this country, has the following:

It is amongst our fellow countrymen in America, however, that the campaign of calumny is being carried on with the greatest virulence. For many years the Irish and the German elements in America have freely fraternized. The bond of friendship between them was largely the result of

cause, the old successful methods. That a patriot prelate with his unsullied record of devotion to the Irish cause should be selected as a mark for the lies and libels is a discreditable thing. It shows to what extremes the leaders of the latest revolt are prepared to go. The official organ of that small section of the volunteers who have found a leader in Professor Eoin MacNeill, in its very latest issue, dated October 17, published the following libel on the Bishop of Raphoe:

NOT OUR WAR
Most Rev. Dr. O'Donnell
The patriotic Bishop of Raphoe, Dr. O'Donnell, in an address, says:

This is not our war. Ireland is in no way in this struggle. The volunteers must remain under Irish control and be used for the purpose for which they were raised, the preservation of Ireland for the Irish. No Irish leader has a right to pledge the support of Ireland to England against Germany or any other nation. The day is gone by when the Irish could be used as cannon-fodder in the chariot-wheel of war-makers. Bishop O'Donnell has long been a treasurer of the Irish Parliamentary fund.

This untruthful lie was reprinted and published without acknowledgment from the "New York Freeman's Journal" of September 26th, which printed it in large type under the heading "Great Irish Bishop Takes His Stand." The lie, which had not nearly three weeks of a start, was brought under the notice of the Bishop of Raphoe, who at once cabled last Friday to the "New York Freeman's Journal":

"The statement which your issue of the 26th September attributes to me is a concoction from head to tail. I work now as hitherto with the Irish leaders in their difficult task."

It will be interesting to learn how a once reputable journal came to give so many errors a falsehood circulation amongst our kith and kin across the Atlantic. At the time the lie was published Dr. O'Donnell had already made his views clear, though amongst those who knew his lordship there was no need for any declaration as to his attitude. Two days before the lie was started in New York he had addressed a letter to Mr. Redmond, in which he said:

"In the day of small nations success is crowned by age-long struggle. At an opportune moment, indeed, a providential moment, Ireland as a whole has now the chance of taking her part in the building of the new world, as well as in shaping her own by the impress of true civilization. And our Irish nationalist friends are relieved from the duty of a narrow resolve to resist a reform that will prove as beneficial to them as to us."

It is too much to hope that with this exposure the campaign of falsehood will end. The brigade of liars will be more careful, but no less venomous. Dr. O'Donnell's prompt action will help to put some exiled countrymen in the states on their guard against the campaign of malicious falsehood which is now in full blast. One conviction, however, will force itself on every mind. The cause that is based on lies lacks all the elements of stability and permanence. The waves of falsehood will dash themselves in vain against the granite rocks of Irish nationality. Ireland is coming into her own, and Irishmen will guard their new found liberties against all the assaults of native traitors or alien foes."

FEDERAL QUARANTINE

AGAINST SHIPMENT OF CATTLE OUT OF NEW YORK AND MARYLAND

WASHINGTON, Nov. 4.—A federal quarantine against shipment of cattle out of New York state and Maryland was imposed today by the department of agriculture due to the discovery of the foot and mouth disease in the Buffalo stockyards and in Hagerstown, Md.

Foot and mouth disease among 610 feeders in the Chicago stockyards was reported to the department of agriculture. Two more cows with the disease were found in the National dairy show there. One herd was found infected in Maryland and half a dozen herds were reported in the Buffalo yards.

BOARD OF TRADE

With one-half of the members of the new committee on membership of the Lowell board of trade reporting at the first meeting since the opening of the membership campaign, 32 new members were added to the board list. The meeting was held at Page's restaurant this noon. The following were the names included in the list of new members reported:

S. S. Kresge Co. (2), Dr. George H. Jennings, John J. Foye & Co. (2), Louis Vallas, Max Wolff, Peter H. Savage, Willis Farrington, Edward J. Tenney, Kirtle H. Dunlop, Frederick E. Jodori, C. L. Hayes, Albert P. Hogue, S. Hagenplan, Timothy Ward, Louis Wfener, William P. Dean, Willis J. Peltier, P. Hildreth Parker, Arthur A. Cashin, Clifford T. George, J. Joseph Hennessy, Lewis E. MacBrayne, Henry E. Dwyer, Dr. Eugene Schreiber, Geo. E. Double, James White, Gilbert Hunt, J. H. Bauman, Mark J. McCann, Martin Kluskey.

The next meeting will be held next week Wednesday at noon.

MRS. MABEN WAS MADE WELL

By Lydia E. Pinkham's Vegetable Compound and Wants Other Suffering Women To Know It.

Murfreesboro, Tenn. — "I have wanted to write to you for a long time to tell you what your wonderful remedies have done for me. I was a sufferer from female weakness and displacement, and I would have such tired, worn-out feelings, sick headaches and dizzy spells. Doctors did me no good so I tried the Lydia E. Pinkham Remedies—Vegetable Compound and Sanative Wash. I am now well and strong and can do all my own work. I owe it all to Lydia E. Pinkham's Vegetable Compound and want other suffering women to know about it."

Mrs. Maben, 211 S. Spring, St., Murfreesboro, Tenn.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for nearly forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Why Lose Hope.
No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

For over thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacement, inflammation, ulceration, tumors, irregularities, etc.

PAPE'S DIAPEPSIN

FOR INDIGESTION OR BAD STOMACH

Relieves Sourness, Gas, Heartburn, Dyspepsia in Five Minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stumbling lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually. Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, safest, stomach relief and cure known. It acts almost like magic—stomach preparation which truly belongs in every home.

TO REMOVE EVERY SIGN OF DANDRUFF

Try This Simple Home Treatment. It Surely Makes the Hair Soft, Fluffy and Lustrous.

If your hair is not pretty, if it is losing color, too dry, matted, falling out, or if your scalp itches, you can quickly overcome all of these conditions at a trifling cost and only a few moments time. Just get from any drug counter, some Parisian Sage, a most helpful and invigorating tonic that supplies every hair need. It is easily applied, absolutely harmless and is as inexpensive as it is beneficial. Improvement begins with the first application, for Parisian Sage not only nourishes the hair roots but stimulates your hair to grow long, thick, soft, fluffy and lustrous. It immediately removes every bit of dandruff and stops itching scalp.

Be sure to get Parisian Sage for there is no other so effective and this will surely give your hair new life and beauty.

WRIGHT IS UNOPPOSED WILL FIGHT TO DEATH

WORCESTER MAYOR ONLY REPUBLICAN CANDIDATE FOR NOMINATION

WORCESTER, Nov. 4.—Time for filing nomination papers for the republican municipal caucuses expired yesterday and the papers filed show that Mayor Wright is unopposed for nomination for a third term.

Alderman Pehr G. Holmes, who now represents ward 6 in the upper board, is unopposed for the nomination as alderman-at-large. There are no contests in the aldermanic nominations, but for councilmen there are contests in wards 1, 2, 3, 7 and 9.

The candidates who filed papers are: For aldermen, ward 1, John G. Johnson; ward 2, Albert L. Johnson; ward 3, Alphonse Ducharme; wards 4 and 5, no nomination; ward 6, Christian Nelson; ward 7, Arthur T. Squires; ward 8, John P. Chase; ward 9, Alfred M. Van Dusen; ward 10, Daniel Waldo Lincoln.

For common council—Ward 1, Philip H. Dupuy and Fred H. Daniels, Jr.; ward 2, Lester F. Clark and Michael J. O'Hara; ward 3, Theodore A. Barron and J. Simon Forsgren; ward 4 and 5, no nominations; ward 6, Walter W. Lassey and Carl J. Rolander; ward 7, John C. Ware, Wm. A. Kenney and Frederick S. Clark; ward 8, Frank L. Ham; ward 9, Albert H. Moss, Louis M. Friedman, Chas. B. Rugg; ward 10, Harry A. Cooke.

For School Committee—Ward 1, Emily F. Foster and Harry O. Anderson; ward 2, Edw. W. Whittier; ward 3, Joseph Vincelle; ward 4 and 5, no nominations; ward 6, Walter J. Cookson; ward 7, Louis E. Bragg; ward 8, Chas. R. Johnson; ward 9, Henry E. Deau; ward 10, Chas. B. Elder.

SUPPER AND ENTERTAINMENT

The regular monthly supper and entertainment of the Pawtucket Congregational church was held last evening at the home of Mrs. C. C. Hatch was chairman of the supper committee and the entertainment was in charge of Mr. and Mrs. L. A. Ayer, with Miss Marion Martin, director. The entertainment was furnished by several young women from the Congregational church who presented: "Scenes from the Cabbage Patch," taken from the story, "Mrs. Wiggs of the Cabbage Patch." A Sunday school class of the Pawtucket church also assisted in the program. Edith Miles, Carline Bartlett, John Weinbeck and Joseph Cohen, Jr. All the parts were well taken. The young women from the Grace church were the following: Misses Marion Martin, Leslie Pullen, Hazel Weinbeck, Mildred Leeds, Dorothy Leeds and Doris Childs. Donnie made candy in a table in charge of the Sunday school class of Miss Margaret Seaton.

MEN OF ROUND TABLE

The Men of the Round Table of the First Baptist church met last evening in the church vestry and, after discussing an excellent menu prepared by the Ladies Benevolent society, presided by the Sigma Sigma club, President Harry G. Pollard called to order and gave a very interesting talk on the prospects, possibilities and privileges of the organization. He appointed various committees on the relation of the church to the community, to be held on a date to be selected. Five-minute speeches on the work of the organization were made by Messrs. F. A. Bowen, F. J. Fleming, G. H. Taylor, W. T. Sheppard and G. A. Walsh.

"Personally Conducted" Trips to California Combine Comfort and Economy

Of course you have planned to take a California trip sometime, but possibly you have been waiting until you thought you could better afford it. If that is the case, I have some good news for you.

Our Personally Conducted Parties to California are especially planned to meet just such requirements. Our patrons travel on extra low fare tickets and have comfortable quarters in clean and attractive Pullman Tourist sleepers. Your pleasure is looked after all the way by a chosen representative of the "Harrington Route" whose first duty is to relieve you of care and detail, make you feel at home and point out and explain each of the thousands of points of interest along the way.

The cost of it all is surprisingly low. If you will write, or drop in at the office and see me, I will be glad to explain every detail of the famous "Personally Conducted" parties to California. Stocks, New England Passenger Agent, C. B. & Q. R. R. 264 Washington st.

LOWELL CO-OPERATIVE BANK

A special meeting of the shareholders of the Lowell Co-operative Bank will be held Friday evening, November 13, 1914, in room 33 Central High, 55 Central street, Lowell, Mass., at 7:30 o'clock to consider proposed amendments to the by-laws which will be presented at the meeting.

WILLIAM D. BROWN, Clerk.

CARRANZA ASKS ONLY SUPPORT OF ANY PART OF ARMY—OTHERWISE HE WILL LEAVE MEXICO

SAN ANTONIO, Tex., Nov. 4.—"If all the chiefs of the constitutional army abandon me I will abandon my native land, but if on the other hand, any part of them sustain and uphold me, we will fight until death."

There are the defiant words with which Gen. Carranza is credited in a statement given out at the Mexican consulate here after the receipt of a telegram from Puebla late yesterday.

The statement said that Carranza issued the following relative to the action of the delegates at Aguascalientes: "These valiant generals have made effective a resignation that has never been presented or forwarded by me and which I have never presented, and they have gone so far as to appoint a president."

"By this last act they have fallen into a trap prepared for them by some of the Madero congressmen. It was these men who were responsible to a great extent for the overthrow of the democratic government of the Apostle Madero and these same men are now through more trouble to the nation through their intrigues and ambitions."

CARRANZA ARCHIVES AT PUEBLA

EL PASO, Tex., Nov. 5.—The constitutional provisional government, with its cabinet members and archives, was moved yesterday to Puebla, where Gen. Carranza has been for several days said an official report received yesterday from Mexico City. The cause of the change of the government seat was not given.

CITY ELECTION REGISTRATION

Yesterday was the first day of registration for the city elections and 32 men and 11 women registered at the registrars' office at city hall. The registration, by wards, was as follows: Ward 1, two; ward 2, one; ward 3, four; ward 4, one; ward 5, one; ward 6, five; ward 7, four; ward 8, two; ward 9, five; ward 10, one; ward 11, one; ward 12, one; ward 13, one; ward 14, one; ward 15, one; ward 16, one; ward 17, one; ward 18, one; ward 19, one; ward 20, one; ward 21, one; ward 22, one; ward 23, one; ward 24, one; ward 25, one; ward 26, one; ward 27, one; ward 28, one; ward 29, one; ward 30, one; ward 31, one; ward 32, one.

CITY OF AMERICANS

A largely attended meeting of the City of Americans club was held last night at the quarters in Middle Ward, where Rev. Mr. Loring, pastor of the church, presided. Four new members were initiated and considerable business was transacted.

A delegation from the Cercle Montcalm in Lawrence, consisting of E. J. Lamotte, Daniel Touchette, William St. Pierre and others, called on the club and challenged the club in a whist tournament for a silver trophy. The challenge was accepted and it was decided to form a team composed of 30 of the best whist players, the first meet to take place two weeks from this evening. The Lowell club will go to Lawrence and then a return visit will be paid by the Lawrence men.

OFFICERS ELECTED

At a recent meeting of the Women's Research club the following officers were elected for the ensuing year: President, Mrs. Cyrus Barton; president, Mrs. Robert Loring; treasurer, Mrs. Ernest Livingston; recording secretary, Mrs. John Simpson; Mrs. Herbert Grover will be in charge of the flower money. Mrs. John J. Cluin, retiring president and Mrs. Frank Hoyt, retiring vice president, were presented beautiful bouquets of pink.

ENTERTAINED SOLDIERS

The Lowell, Lawrence and Haverhill tents, Daughters of Veterans, presented the following program at the Soldiers' Home in Chelsea, Tuesday afternoon:

Piano selection, Mrs. Esterbrook of Haverhill; reading, Mrs. Nora Whitmore of Lawrence; piano solo, Miss Mary Frances Carly of Lawrence; reading, Mrs. Mary Guite of Lowell; piano solo, Miss Mary Frances Carly of Lawrence; chorus of patriotic songs, the veterans; piano selections, Miss Esterbrook of Haverhill.

BOARD OF TRADE

Continued

peace conference, and he said he returned immediately to London, where he remained until the end of August, keeping in touch with many important circles. When he saw he could not gain there he went to Germany to confer with many leading men of various political thoughts in order to understand more clearly the German point of view. During the summer he was also in touch with leading international workers in France, Belgium and Holland.

Mr. Mead spoke of Serbia having been bulldozed by Austria for 20 years and he said:

There has, therefore, rolled up in

Servia an immense volume of warranted resentment against Austria. But the expression of this went to extreme lengths. Belgrade became undeniably a nest of plots and conspiracies against Austria, with the clear purpose of undermining the loyalty of her Servian population. Hence, the brutal ultimatum. Russia stands behind Servia and all the Slavic peoples. She felt with only too much warrant that if Austria went into Servia she would never come out and that if she did not oppose the Austrian policy sharply she would lose her entire prestige in the Balkans. Her mobilization was undeniably disproportionate to the Servian situation; and this was the occasion of Germany's alarm, since France, by virtue of her alliance with Russia, becomes for military purposes a part of the latter the moment that war upon Russia exists.

The speaker attributed the immediate or particular occasion of the war to the long struggle between Russia and Germany-Austria for the control of the Balkans, Constantinople and Turkey, and he showed why this is a matter of such critical moment with power. He said he doubted whether it would be possible for the world to keep Russia with 170,000,000 people in the pre-eminently commercial age, permanently cut off from access to the sea, and he said Germany with a population two-thirds that of the United States is now tied to an area much less than that of Texas.

In order to make the European situation clear the speaker asked what the situation would be if Canada were Russia, if Mexico were France, and if Japan were 300 miles instead of 6,000 miles from our Pacific coast. Mr. Mead then said:

"These great problems must somehow be solved effectually by the statesmanship of the world, representatives of all nations cooperating in the right spirit, while up to date the only way for nations have devised which such collision comes is to try to smash each other. Hence militarism and the great armaments system. The militarist argument has absolutely broken down in the present crisis. Men have argued that the way to preserve peace was for every nation to pile up such monstrous armaments that its neighbors would be afraid to attack it. In truth, these monstrous armaments have been for 30 years and more vastly more a menace than a defense.

The warnings of the world peace party have all been necessarily fulfilled, and serious men the world over are at last coming to see that there is no solution but that which men like Cobden and Sumner and their successors have so untiringly urged, the substitution of law for war in the settlement of international disputes. Nations must settle their differences in courts like individuals; and the various nations, each with its separate and selfish ambition, must take its place in a real family of nations, acting in accordance with justice and the common welfare of the world, in a situation like that resulting from the ruthless invasion of Belgium, an innocent nation in no way related to the complicating issues, cannot be longer per-

INDUSTRIAL AND STORE NEWS

All up for the Woodhues' husking bee and dancing party tomorrow night.

The basketball team of giants managed by Michael Wrenn will play their second game Friday evening.

Miss Anna O'Donnell of the Ipswich Hooley has returned from a visit to relatives in Natick.

Mr. Ernest Goetting of the Putnam & Son clothing store is having a new boiler installed in his residence.

Miss Katherine Haley of the Helms Electric Co. has returned from a delightful two weeks' sojourn at Lewiston, Me.

Benjamin Golden, president of Carpenters' union, local 1613, is one of the hardest working union officials in the city.

It is said that the municipal candidate who spoke at a local mill party yesterday got a frosty reception despite the mild weather.

The dance held by the "Hicks" Tuesday evening was a complete success for the simple reason that glide dancing was done nearly exclusively.

The A. G. Pollard Employer Mutual Benefit association will hold its annual banquet and theatre party tonight.

"Kid" Kneafsey of the E. & M. car shops has entered five contestants in the prize glide waits at the Butlers' dance at Lincoln hall Friday evening.

Miss Lena Marshall of the U. S. Cartridge Co. has returned after spending an enjoyable two weeks' vacation in Burlington, Vt.

Fred Smith, employed at his trade as a plumber is rejoicing over the fact that Attleboro has voted to become a city.

Hector Lamontagne of the J. L. Chaffee store, formerly in the overalls department is now running the elevator. Going up?

Sheehan's orchestra will play tomorrow evening at the dance to be held in A. O. U. hall. James Sheehan, who has been in the city since the Tabbot Clothing store, will be the musical director.

Walter Lyons of the Hamilton Mfg. Co. and Henry Dowd of the Lamson & Co. will journey to Granville, Saturday in quest of pheasants, partridges and other small game, said to abound in that vicinity.

Mr. Samuel Whitlock of the Lowell Bleachery is out to break records in bowling this season, and with this view in mind is putting in a lot of hard work on the various alleys nightly.

Mr. Michael Lawn, formerly employed at the Bigelow Carpet Co., and now connected with a carpet firm in Freehold, N. J., is renewing old acquaintances in this city. He intends to remain here three weeks.

Organizer Edmund Seard of the United Textile Workers Local 107 will leave Saturday afternoon for Maine where he will resume his organizing duties.

Organizer Daniel E. Whalen of the Boot & Shoe Workers reports the condition of the shoe workers in this city as fair with lots of opportunity for betterment.

John King of the Barry Show Co. has announced his intention of entering the bowling game and from now on he'll bear watching. John's a terror when he gets started.

The Painters' union will hold an important meeting tonight in the union headquarters in the Rueland building and all members are requested to attend.

Tonight will be the regular meeting night for the Machinists' union and business of much importance will come up for transaction. Business Agent Ross Hall of Lynn will likely be in attendance.

In the bowling match between the pipers and machinists of the Mass. Mills held last Tuesday night on the Les Miserables alleys the latter team won out by a close margin. Dave Thomas, captain of the machinists, rolled a very steady game, and his encouragement to the other members of the team was his small way in responsibility for the victory. John Moran explained the pipers and put up a good score. Both teams were ably represented by followers, who brought cornucopias, bells, clappers and in fact everything to produce noise. They enjoyed the game fully as well as the participants.

Carpenters' Union Held Meeting
The Carpenters' union, local 1613, held its regular meeting last night in the union headquarters in the Rueland building with an exceptionally large number of members in attendance. A list of important business was transacted and three new members were admitted. Several applications for membership were also received. Committee reports were accepted as read, and a stack of communications from various sources were properly referred to the secretary for disposal. Business Agent Michael A. Lee submitted a progressive report on the accomplishments of the union and several members spoke interestingly on the good of the union and the cause of the workers. The secretary's report showed the union to be in an excellent condition financially and numerically.

Wave of Economy
Few realize what a wave of economy is sweeping over this country and the effect it may have on the amount of new available investment capital. It is unquestionably true that never before in the history of this country has there been such a widespread movement of economy, which extends not only to personal expenditures but also to the expenditures of corporations and business houses generally. Following the panic of 1907 the onset of a general movement of economy. This economy, however, differed radically from that which we are witnessing at the present time. The panic of 1907 was followed by general industrial prostration and a large percentage of unemployed in every line of industry. Still the economy of that period resulted within a few years in the greatest accumulation of investment capital we have ever seen and a general upward movement of the prices of securities which continued uninterrupted for nearly two years.

A municipal program for American cities has been drafted by a committee of the National Municipal League's convention, in Baltimore, November 18.

Medical factory inspection is still a undeveloped field, England and Belgium being the only countries having separate medical divisions, and even there the number of physicians is small.

Galveston (Texas) labor council has headed a movement for the purpose of providing ways and means for furnishing school books to the children in that city whose parents are unable to buy them.

The war crisis is having a serious effect on the coal mining industry about the Falkirk districts. Many pits have been closed at Dennyloanhead, Stannerman, Maddeston and Shillhall, and a large number of men are thrown idle.

General Labor News
Half of the industrial capital in British Columbia is invested in the lumbering and woodworking business; half the payroll of the province is derived from the forests.

There are now 17,000 men now engaged in construction work on the great system subway and elevated railroad contracts in New York city.

Union barbers in St. Paul are rejoicing over the vigorous enforcement of the Sunday closing law for their craft which the police authorities have inaugurated.

There are now minimum wage laws in nine states—California, Colorado, Massachusetts, Minnesota, Nebraska, Oregon, Utah, Washington and Wisconsin.

The number of persons engaged in the manufacture of earthenware, china and porcelain in England and Wales in 1911 was 69,853.

Machinists have signed a one-year agreement with the United Metal Seal company of Boston, which provides for an eight-hour day and a minimum wage rate of \$1.50.

Private dressmakers in New York city are working out the new demands to be submitted to the bosses. The agreements are to be submitted to the employers shortly.

It is three years and a half since the ballroomers of Jackson, Miss., went on strike against dance work, and during that time not a single member of the local union has become a backslider.

In the 34th annual convention of the American Federation of Labor Samuel Gompers will probably be continued in the estimation of trades union workers by another election.

Organized labor of New York is vigorously protesting against cataloging employees by the means of the Bertillon finger-print system for the use of industrial insurance companies.

In Paris, France, the unemployed are receiving an advance of 1 franc 50 centimes (30 cents) daily, with 50 centimes (10 cents extra) for each child. This is costing the city 9,000,000 francs monthly.

National and state administrations of labor in Australia not only promise but practically apply their socialist program to pull the teeth of profit-mongering interests and to benefit the masses of the people.

It has been estimated that during the present year 245,000 factory hands in Russia have already participated in strikes. In addition to 215,000 others who are employed in establishments not under the factory act.

More than 1000 delegates from all sections of the country, representing every department of organized labor, will assemble at Philadelphia on Nov. 9 to attend the 8th convention of the American Federation of Labor.

In the government printing office proofreaders, make-up men, linotype and monotype operators, stereotypers, electrotypers and pressmen get 60 cents per hour.

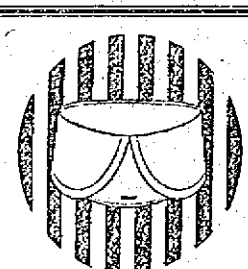

According to the government census, in 1910 there was only one woman employed to every 10 men in New York city. Now the ratio is one to every four.

The Hospital Nurses and Attendants' union, consisting of employees of the state institution in Kankakee, Ill., is chartered by the American Federation of Labor.

More than 30,000 notices of injuries are now on file with the New York Workmen's Compensation commission. About \$30,000 has been paid to injured workmen in the 10 weeks since the commission got down to work.

At the close of its fiscal year the International Typographical union had 1200 members on its pension roll and had distributed in old-age pensions since the establishment of the fund more than a million and a half dollars.

A municipal program for American cities has been drafted by a committee of the National Municipal League's convention, in Baltimore, November 18.

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

PROGRESSIVE SLUMP

The one fact that stands out prominently from the Massachusetts political situation, as revealed by the recent elections, is the total failure of the progressives as a political party. They are scattered beyond redemption and it is doubtful if they can hold together, even nominally, until the next state election. The pitiable 27,000 left from the 127,000 of last year will in all probability look around to see which party banner they may line up under, consistent with their once strongly-expressed political principles. Even the magic voice of their mighty founder is silenced and resounding speeches will be powerless to effect a political resurrection.

To what has this disintegration been due? To many things, chief of which was the domination of the party by a few personalities, instead of by principles. Nationally it was the party of Roosevelt, locally it was the party of Bird, and with the growing suspicion of Roosevelt indifference and the elimination of Bird from the political arena, their following fell off. No man or group of men may hold a party to its allegiance. If the party be not greater than the individual it cannot long exist. Another factor that brought disorganization to the progressives was their proclivity to put vote-baiting before aught else. Any and every reform that even remotely bore the imprint of reform or progress was seized upon and in the end the party was a jumble of unrelated and discordant elements. The stealing of the prohibition plank was the last enormity, which helped the avalanche along.

Most of the progressives who became "regular" during the last election went back under the republican banner, thus making light of all their former vehemence against republican machine rule and standpat policies. There is little progressiveness in the election of Cannon, or Penrose, or Wadsworth or of the other republicans who represent the things that the progressives were formed to fight. The battle of Armageddon has ended in an undignified retreat, and the progressive who voted for republican candidates, need not try to reconcile his desertion with his former declarations; he cannot make it appear logical.

Not so with those former progressives who voted for Walsh. Realizing the coming disintegration of their party they cast their vote for the party that has stood for progress in recent years, and that pledged itself to progress while in power. The democratic party has still two years to make good, and in that time a reaction may set in against renewed republican rule. That the influence of the progressives as a unit will count for little in future seems to be certain, but they may be yet heard from in another direction. Should the chief bull moose of them all issue a last despairing cry, there might be still a feeble rally to the appeal, but that is not likely. National circles will reveal in 1916 whether the progressives are as dead as they appear to be at present.

The loss of democratic seats in congress with some other defections noted in Tuesday's elections in various states is the result of the progressive slump and a sort of reaction that usually follows the party, successful two years before in a presidential election. It is not in any sense a condemnation of the Wilson administration.

TENEMENT OWNERS BLAMED

There was no beating about the bush in the speech of Ralph Cram, an architect and member of the Boston city planning board when he declared at a meeting of the Massachusetts Federation of Progressive Women on Tuesday that tenement owners are responsible for many of the unsanitary, immoral and generally undesirable conditions that exist in congested communities. "Bad tenements make bad citizens," he said. "They can unmake in six months the work of six years' public schooling. The conditions in the North, West and South ends preclude citizenship."

The ordinary critic who has little sympathy for the immigrant goes through the crowded sections of Boston or of Lowell and blames the dwellers therein for most of the evidences of carelessness and indifference. He does not generally stop to consider that the squalid surroundings offer little incentive for personal or civic cleanliness. Too often these surroundings are due to the almost criminal carelessness of some tenement owner who is getting good returns for the small amount of money invested and who has no interest in the buildings or those who live in them other than the interest of rent collecting. Yet the selfish profit of the individual is the loss of the community as well as of those who are compelled to live in unhealthy and unlovely surroundings.

As summed up by the member of the Boston board: "The average man can pay only one week's wages, perhaps under \$20, for a month's rent. Tenement owners are making 15 and 20 per cent. profit on providing him with quarters crowded and unsanitary." He advocates a law to permit a city to acquire available land and to erect on it good tenements for its citizens. Washington has such a law, he says. A law to this effect is scarcely necessary as the public would demand better working conditions for the masses if the great need for them was appreciated. With more desirable tenements it would scarcely be necessary to have so many health conferences and resolutions such as that started in this city recently in fight tuberculosis.

Tenement dwellers will not in all cases respond automatically to the efforts of those who would improve their condition, but many interests waste effort to better their lot while ramshackle buildings without sufficient light, air or space are permitted to stand in the hearts of our cities. In all directions around Lowell are thriving little farms managed by immigrants who for a time lived the congested and filthy life of the slums. The change has meant wonders for them and the state is benefiting indi-

rectly. It is impossible that all who live in undesirable buildings should become farmers, but there is room for hundreds in some of the suburbs, away from the overcrowded alleys of the heart of the city. Meanwhile, the housing situation would be solved sooner if some of the well-meant energy directed to the tenement dwellers were directed to the tenement owners who permit human beings to live like bees in a hive, because the financial returns are so satisfactory. We need more public critics with the courage, intelligence and human sympathy of Ralph Cram of Boston.

NEW HAVEN INDICTMENTS

The indictment of a score of directors of the New Haven railroad, under the terms of the Sherman Anti-trust law, may not amount to anything tangible, but it is the logical continuation of the attitude taken by the state and federal governments. It is wrong, then, the entire drive against past New Haven management was wrong from the start and the monopolistic corporation should be today extracting itself from the self-sought quagmire of financial perplexity, without interference. That the Massachusetts public was averse to the management of the New Haven at that time was demonstrated over and over. If the public be consistent, then, how can it be averse to the latest move of the federal authorities?

Unfortunately the law under which so many notables have been brought to an accounting does not go far enough to demonstrate its effectiveness or to enable one to forecast the result. The point at issue will be merely to decide if the directors are personally responsible for forming a combination in restraint of trade, or whether they are innocent of the charge. That in bringing about this combination the money of the stockholders was wasted like water and that business was hurt as a consequence will not figure in the result. The trust or combination aspect of the matter is the all important one—and the government has never yet achieved a notable victory in trying cases where alleged trust activity is involved. It seems certain, therefore, despite the principle involved that the indictment will come to naught.

If the government needed justification for its action it would find it in

TRY THIS FOR YOUR COUGH

"Thousands of people keep coughing because unable to get the right remedy. Coughs are caused by inflammation of the Throat and Bronchial Tubes. What you need is to soothe this inflammation. Take Dr. King's New Discovery. It penetrates the delicate membrane lining, relieves the inflamed and quickly relieves the congested condition. Get a 50c bottle from your druggist. Dr. King's New Discovery quickly and completely stopped my cough," writes J. H. Wattle, Floydville, Texas. Money back if not satisfied, but it nearly always helps.

the accusations of the public, in the finding of the interstate commerce commission, in the admissions of past President Mellen and in the virtual confession of New Haven officials. It does not, however, need any justification; the errors of New Haven management have been long ago demonstrated fully. The public will watch the case with unusual interest, realizing that it establishes a new record for anti-trust activity. Needless to say, failure to convict may be due as much to the ineffectiveness of the law as to the innocence of the accused.

CHILD SAFETY

A review of accidents to children in Boston for the month of October shows that in spite of safety first campaigns and the constant agitation, there were 25 accidents within the first three weeks or so, eight of which were fatal. Many of the accidents were avoidable and most of them were due to the natural carelessness of children who played in the public streets. So common have such occurrences become that they arouse but little interest as news items, but were the eight white hearses placed in a row, followed by the maimed and seriously injured seventeen, the public would have some idea of the misery, lasting pain and heavy expense that follow accidents to children.

Five of the fatal accidents were due to the automobile, and one each was caused by the trolley, the railroad train and the wagon. Six of the eight children were less than 8 years old, one being only 3. Twenty-three out of the twenty-five were girls. Three of the accidents were due to the riding habit but most of them were due to carelessness on the part of children on the street or ignorance of the rules of traffic.

This list may be unusually large, even for Boston, but the observant citizen will not wonder, though his observation be confined to Lowell, for in this city children play commonly on the streets without any realization of the danger they incur. Over and over again The Sun has called the attention of parents and teachers to the necessity for instructing children in the elementary rules of juvenile safety but much instruction is not given, or, if given, is generally disregarded. So long as the tragedies that happen from time to time do not come home to us we are apt to be more or less indifferent, but a list such as that of Boston shows the appalling toll of dead and right.

maimed yearly as the result of childish ignorance.

RED CROSS NURSES

One of the inspiring results of the war is the readiness with which noble women of all nations have volunteered their services for the Red Cross, not in a burst of emotion but as a calm expression of what they considered their duty. The rules of the society bar any that are too young to realize the sacrifices involved or, the efforts required and therefore practically all who respond to the call of the Red Cross are scientifically trained and well poised women who give their service without thought of material gain or selfishness. In the hospitals of Europe, Sisters of Charity work side by side with women of America, of England, of France, of Germany and of other nations, the inspiration of each being too lofty for any thought of narrow patriotism. The world of the suffering is their country and all who need their care receive it, be they on the side of the Germans or of the allies. In other wars the Red Cross nurse followed close on the battle, often going on the corpse-strewn field, but today but few of them see actual fighting. Scientific care of the wounded has advanced wonderfully and soldiers are treated in up-to-date hospitals with modern appliances. Still, the glory of the Red Cross nurse has not dimmed, and she is entitled to all the honor that crowns unselfishness and devotion to duty in its highest sense.

Still England is tantalized by German naval tactics. Instead of coming out in the open and risking a drawn conflict, German ships and submarines stay under cover until they can steal out and give a telling blow in safety. In this way the naval story of the war seems to be on the side of Germany. The latest strokes near the English coast and in Pacific waters must make England look forward still anxiously to the day of vengeance on the seas.

The slaughter of the pheasants is slight indeed as compared with the disappearance of one hundred thousand bull moose from Massachusetts.

Among those who are glad that the state elections are over are our local notables who have been preparing street speeches for some time past.

Of course you had it figured out just

"BLOOD WILL TELL"

The Heroes of the War.

"Blood will tell," is an axiom that in all the ages has never been gainsaid. Every man who does a brave, heroic act carries within his veins a quality of blood that urges and sustains him. No matter whether he inherits it from a long line of famous ancestors or from the sound and healthy constitution of his immediate parents, whose only distinction is honorable toil and a simple, virtuous life.

It matters little where or how you obtain it, but it matters all the world that by some means you possess good blood. Good blood is first, last and always the making of manly men and womanly women. It is the source of all courage, virtue and happiness.

A new man can be made out of one that's "used-up," bilious and dyspeptic. It's done by Dr. Pierce's Golden Medical Discovery. It starts the torpid liver into healthful action, purifies and enriches the blood, cleanses, repairs, and strengthens the system, and restores health and vigor. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, and builds up flesh and strength. It's the only Blood and Liver remedy that's guaranteed. In every case, to benefit or cure. If it doesn't do all that's claimed for it, the money is promptly refunded. But it keeps its promise—that's the reason it can be sold in this way.

It is not a secret remedy for its ingredients are printed on wrapper. You only pay for the good you get. "Discovery" strengthens Weak Lungs, relieves Shortness of Breath, Bronchitis, Severe Coughs and kindred affections.

FREE—Dr. Pierce's Common Sense Medical Adviser, bound in cloth, is sent free on receipt of 31 one-cent stamps to pay expense of wrapping and mailing only. Address: Doctor Pierce, Invalids' Hotel, Buffalo, N. Y.

a higher standard than we set for ourselves. Forgetting that you can't make a silk purse out of a sow's ear, stupidest and ugliest failures of parents expect their sons and daughters to grow up miracles of beauty, intelligence and success.

The speaker was Willton Lackaye, the occasion the Lamb's gambol in New York. He continued:

"Sometimes, though, such parents are called sharply to themselves. The jolt is unpleasant. 'A father said to his pretty daughter one evening with a scornful, angry laugh: 'That young Jameson has the face to want to marry you. A mere book-keeper.' 'But, father,' said the girl, 'I love Mr. Jameson. What is your objection to our marriage?' 'Why,' roared the old man, 'why, he couldn't support you decently.' 'The mother,' said the girl, 'neither can you.'—Exchange.

TAKING A LETTER TO JONES

Many a man who complains of the stupidity and lack of interest shown by his stenographers gives his dictation about like this:

"Take a letter to Jones. I'll give you the address later. John Jones—Dear Sir: Replying to your letter of the 10th, we think you are mistaken about this order. As you said in your previous letter—where in thunder is that letter? It's very funny nothing is ever around when I want it. I can't go to the file every time I want a letter. All right, I've got it—in your previous letter of the 5th, you said you wanted this order hurried up any cost. Therefore we shipped as you directed. If the order did not reach you in good condition—no, scratch that out—if the goods reached you as you say—scratch that out—We cannot be responsible for goods—scratch that out. What did I say last?—Having shipped the goods as you directed, we do not feel responsible for the condition in which they reached you. Paragraph. In a case like this, it hardly seems as if you could expect (long pause)—period. Read over what you have there. O Lord, I can't send any such mess as that. You don't seem to get my ideas at all. Here, add this on to the next to the last paragraph—We think you will see from this that your position is unreasonable. You have our final decision and we cannot alter it in any way. Trusting that this is plain to you, we are—Make two carbons of that and send one to the Philadelphia office and don't mess it up any more than you can help.—Truth.

THE MISSUS

Who is it clearest his path for me? The Missus. Who's blind to faults that others see? The Missus. Who always greets me at the door When each day's bit of work is o'er? Who laughs at jests she's heard before? The Missus.

Who puts the buttons in my shirts? The Missus. Who smiles at discomforts I hurt? The Missus. Who when the children wake at night Gets up to see that they are all right And leaves me snoring peacefully? The Missus.

Who fills the house with mirth and song? The Missus. Who bravely smiles when things go wrong? The Missus.

Who knows the very worst of me And yet some good contrives to see? Who labors most ungrudgingly? The Missus.

Who makes the house a gracious spot? The Missus. Who never whimpers at her lot? The Missus. Who fills with sunshine every day. Prizes all the clouds that care away? Who gets but very meagre pay? The Missus.

—Edgar A. Guest.

WHAT HIT HIM

Many queer things happen in war time. There is a story which is today repeated in Highland troops of a funny incident that befell one Johnny Ross of the 33d Sutherland Highlanders at Lucknow, in India, during the great mutiny.

Before falling in for the assault on the Begum's palace Johnny Ross and George Puller, with some others, had been playing cards in a sheltered corner, and in some way quarreled over the game. They were still arguing the point when the signal was given to fall in, and Puller told Ross to "shut up."

At that moment a spent bullet struck Ross in the mouth and knocked out four of his teeth. Johnny thought it was Puller who had struck him, and at once returned the blow.

"You fool!" said Puller, "It wasn't I that struck you. You've got a bullet in your mouth, and you'll be sent by mail postpaid, by the Dr. Williams' Medicine Co., Schenectady, N. Y., at 25c per bottle. Send for the book 'The Daily Laxative,' telling how to treat constipation."

SEEN AND HEARD

You can't mend a broken word.

Luke McLuke says:

The old fashioned woman who used to have a dress that she put away because it was "too good to wear" now has a daughter who kicks because she can't find anything good enough to wear.

It always jars a man when he discovers how much corned beef and cabbage the ethereal and spiritual little thing he married can stow away.

Friend wife will wear an old raggedy skirt that came over in the Mayflower and a greasy waist that any soap factory would like to get rid of. She will tie a rag around her head and put an old pair of slippers on her feet. Then she will start in cleaning up the house. And she will run across a magazine and sit down to look it over and will laugh heartily at the pictures showing the funny costumes worn by

immigrants when they arrive in this country.

The fellow who couldn't find work because the porch climbing trusts had put the country on the toboggan hasn't time to hunt for a job these days because he has to fight the European war all day.

The kind of man who knows what big words really mean always uses small words.

CONSPICUOUS

A girl walked down our streets the other day and every man in sight turned to look at her. No, she did not resemble a living model of "Sensational Morn." She was very decently dressed, her skirt was ample enough at the bottom for her to walk without balancing herself like a parrot on a perch. Her waist was modestly made and did not expose any more neck and shoulders than was becoming, and you couldn't tell the complexion of her ankles because her hose were of sufficient thickness to hide them. In fact, she was so rare a specimen of modestly attired femininity that the men just couldn't help staring.—Lexington (Kan.) News.

UNPLEASANT BUMP

We oldsters set for the youngsters

GAS ON THE STOMACH Flatulence, or gas in the digestive tract is an annoying accompaniment of intestinal indigestion and constipation. As a rule it indicates that food is being retained in the stomach and intestines longer than nature intended.

When colicky pains accompany the presence of gas the need of a gentle laxative to clear away the offending food residue is imperative. If the condition of constipation is not quickly corrected a coated tongue, eruptions on the skin, headaches and backaches soon show that the poisons have found their way into the circulation.

The use of the gentle laxative pills Pinklets, will not only banish these unpleasant symptoms quickly but, if used regularly for a reasonable time, will really correct chronic constipation.

Pinklets are not like harsh purgatives that leave the bowels dry and in the end worse than before. Pinklets gently assist nature, never gripe and are so small and easy to take that they are known as the dairy laxative. Your own druggist can supply you with Pinklets or they will be sent by mail postpaid, by the Dr. Williams' Medicine Co., Schenectady, N. Y., at 25c per bottle. Send for the book 'The Daily Laxative,' telling how to treat constipation.

DRY KINDLING WOOD

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If tongue is coated give "California Syrup of Figs."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When a cross, irritable feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

POLICE SEEK ANTOSCHIA

He is Charged by the Authorities of Olneyville, R. I. With the Murder of Rafaelo Ghiblerio

PROVIDENCE, Nov. 5.—Antonio Antoschia was sought yesterday by the police of Olneyville on a charge of slaying Rafaelo Ghiblerio. He lived with his wife and 11 children at 439 Union avenue.

After the slaying Antoschia got away through the aid of a friend, it is alleged. Patrolman W. J. Keenan was near and saw the men a few minutes before the murder, but when Ghiblerio was stabbed the men in the party made no outcry and did not call the officer, who just passed them. It was not until the fatally wounded man reached a saloon on Union avenue that the policeman learned of the trouble.

G. O. P. CONTROL

Make Gains in Mass.
Legislature — No Bull
Moose in Senate

BOSTON, Nov. 5.—The revised returns from the election in Massachusetts indicate that the legislature next year will be made up as follows: Senate, 33 republicans, 7 democrats, house, 150 republicans, 57 democrats, 2 progressives, 1 socialist.

The legislature of 1914 was divided as follows on political lines: Senate, 21 republicans, 17 democrats, 2 progressives; house, 118 republicans, 104 democrats, 17 progressives, 1 socialist.

Thus, the republicans will control both branches of the legislature next year, and can elect the president of the senate and the speaker of the house without "dickering" with the progressives and democrats, as the republicans had to at the beginning of the session of this year in order to keep Mr. Cushing in the speaker's chair.

Calvin Coolidge of Northampton will, of course, be re-elected president of the senate, and it is taken for granted that Channing H. Cox of Boston will be elected speaker of the house.

TO RAISE \$5000 A DAY

Wellesley College Girls and Alumnae Plan a Whirlwind Restoration Fund Campaign

WELLESLEY, Nov. 5.—It was announced at Wellesley college last night that from now until after Christmas, undergraduate girls and alumnae plan to raise \$5000 a day in aid of the Wellesley restoration fund. Allowing eight hours a day to the work, this means raising \$625 an hour for about six weeks.

To receive a promised gift of \$750,000 from the Rockefeller Foundation, Wellesley must have \$1,250,000 available for its restoration fund by Jan. 1. Of two feet of water. The police say they this amount only about \$250,000 remains to be raised. It was announced last night that John Philip Sousa will give a concert in aid of the fund in Boston, Nov. 17.

THINKS STEFANSSON SAFE

Capt. Bartlett of the Lost Karluk Fears Flight Missing Will Never Be Found Alive

OTTAWA, Nov. 5.—Capt. Robert Bartlett, commander of the Stefansson ship Karluk, which was lost in the Arctic, arrived here yesterday. He said there was little prospect that the eight missing members of the expedition, who left the main party soon after the ship sailed, would be found alive. Stefansson, Capt. Bartlett said, was undoubtedly safe.

There is no reason, said Capt. Bartlett, why Stefansson should fail to reach Banks Land by crossing the ice of Coronation Gulf, as he planned. "Capt. Bartlett will go from here to New York."

DON'T INJURE YOUR KIDNEYS

Take a Teaspoonful of Rheumal salts for Lame Back or Bladder Trouble

Do you occasionally have a "crick" in your back? Does your back ache with a dull, heavy, racking throb? Is it hard to straighten up after stooping? Is it hard to rise from a seat or to turn quickly?

If you are bothered this way, then your kidneys need attention. No doubt your blood is filled with uric acid. This irritating acid has caused your kidneys to become weak from overwork. It has made them sluggish, the liver and bowels are clogged, and the waste which should be drained from the system is retained in the blood to poison the entire body.

Kidney diseases start mysteriously and sometimes lead to Dropsy and Bright's Disease.

At the first "pain in the back" get from your druggist about five ounces of Rheumal salts. Take two teaspoonfuls in a glass of water before breakfast each morning and in a few days your back will feel fine, because your kidneys are working right.

Rheumal salts is a wonderful effectiveness lithia drink, which helps the weakened kidneys and liver and cleans out the blood of toxins and poisons and leaves the intestinal canal clean and sweet. It is delightful to the taste. It is an absolutely harmless uric acid solvent as well as a saline laxative. Acts quickly without griping or nausea.

If your druggist does not keep genuine Rheumal salts, remember there is nothing "just as good." Rheumal salts is prepared by the famous Rheumal salts Company, Minneapolis, Minn.

YOUR BOYS AND GIRLS

Junket is a predigested custard, frequently prescribed for teething babies from fourteen months on, also for delicate children. It is prepared with essence of pepsin or a junket tablet which can be bought at any good grocery.

Pour one cup of sweet milk into a clean enameled stepan. Dissolve a junket tablet in one tablespoon of cold water. Turn this lightly into the warm milk, stir just enough to mix it. Add a very little sugar and flavoring. Turn into cups or small bowls to cool. When cool it looks like a milk jelly.

When the baby is exhausted by heat and teething, add a thoroughly beaten egg along with the sugar and flavoring. This dish is said to be even more easily digested than plain or modified milk.

The first essential for a child's beauty and health is oxygen—plenty of pure air and sunshine. If children have plenty of light air and properly regulated diet, they will grow like the flowers and be as lovely as they are.

But in this effort to give them light and air do not allow the little girls to freckle, for freckles once attained are very difficult to get rid of; they manifest themselves very early in life.

Shading the child's face with an ordinary cotton sunbonnet is a wise precaution. At any rate, if freckles should make their appearance the sunbonnet will have given sufficient protection so that they will not be deep-seated, and it will be an easy matter to get rid of them by applying a freckle lotion.

All babies are lovely—at least, most

mothers think so. Their features may not be perfect, but their complexion, when healthy, is always beautiful; skin clear, eyes bright and limpid with an expression of innocence and purity.

How to preserve that lovely complexion is a question often asked after it has been destroyed. Children are often confined in ill ventilated homes; this should not be, for oxygen is an agent that nourishes the blood which forms the complexion.

A home of this kind not only destroys the complexion, but it brings about numerous other bodily ills.

In place of the befruffled and befrilled petticoats that were considered indispensable even in midsummer, children are wearing bloomers of the same material as the frock, attached to sleeveless undershirts.

The comfort, coolness and plain common sense governing this practice need not be emphasized. For baby's wash cloths use surgeon's antiseptic lint. You will find a ten cent package will furnish you with at least a half dozen and you will be surprised at their unusual softness.

Horie acid solution is quite necessary for his eyes. It should be slightly warm, before dropping into each eye.

If a child is out-of-doors a great deal, and also takes its naps out-of-doors.

WHY EYESIGHT FAILS

BY A SPECIALIST

Failing eyesight is often caused by neglect and by forcing eyes to do work for which they were never intended. Our eyes are ruined by the strain modern conditions put upon them, a strain opposed to Nature and destructive to perfect sight unless relieved by proper care.

Few people know what to do when their eyes begin to go wrong; therefore, they do nothing at all until failing sight or actual agony forces them to act. Often, then, they are forced to resort to glasses for temporary relief.

A soothing, cleansing, healing, helpful lotion for eyes in trouble of those that wear glasses can be made from the following prescription:

Opticon 5 grains. (one Tablet)

Water 2 ounces.

Mix at home and use from two to four times a day. This prescription is in daily use by thousands. It sharpens vision, allays irritation, relieves inflammation and gives a smooth, well-lubricated feeling to the eyes. It has enabled many to discard glasses they did not really need, it has restored many to perfect eye comfort. Its use is followed by a soothing sense of relief from strain and over-use. The Riker Jaynes stores and other druggists can fill this prescription. ANY physician familiar with the formula will tell you it is perfectly harmless.

Strong, Healthy Chickens

are assured when you give your hens regularly in their feed a small quantity of

Sheridan's CONDITION Powder

It helps them digest all kinds of food, keeps them in condition, and by nourishing the reproductive organs, causes them to lay larger and better eggs that will produce strong, healthy chicks.

In use over 40 Years.

Package 15 cts.; six 75 cts. Two-lb. can 75 cts.; six \$3.00. Full or express prepaid.

L. S. JOHNSON & CO., Inc., Boston, Mass.

doors. It should never be subjected to great heat indoors.

Sixty-five degrees may seem rather cool for the family, but a child who lives practically out-of-doors is apt to catch cold if it is subjected indoors to a temperature above that. More colds result from overheating than from chills.

Have the house of an even temperature all over so that it is not drafty or hot in one room and cold in another; then even the baby may be carried from one room to another in the coldest weather.

and must be diluted accordingly.

If possible avoid traveling with a bottle-fed baby. But if it is necessary and the journey is short, buy a wicker-covered ice box made for traveling purposes. Prepare and pack the milk as in your refrigerator at home.

For a long journey, supply unsweetened condensed milk in small cans. Remember that condensed milk spoils when open, also that it is twice as strong as plain or whole milk,

and must be diluted accordingly.

If condensed milk is fed the baby for any length of time, give strained orange juice between feedings to supply a fresh element.

RIFLES ORDERED RETURNED

To Be Used on Aeroplanes if Occasion Should Arise—Oxford Post to Receive Others in Return

OXFORD, Nov. 5.—Two naval rifles, which were placed on the lawn at the

town hall about two years ago for

ornamental purposes, have been ordered shipped back to the navy yard at Annapolis. The orders were read at a meeting of Charles Devereux Post, G. A. R., to which the guns were given.

The guns are of a comparatively recent model and the despatch says they are to be used as defense against aeroplanes should this ever become necessary. Guns of an obsolete model are promised in replacement. The rifles being returned have a range of six miles and can be elevated or fired in any direction.

Mighty like drawing aces

to jam a jimmy pipe brimful or roll up a makin's cigarette with Prince Albert, then make fire with a match! Such smokings! Yes, sir, the kind you can draw to all day and all night and have a lot of fun all the time!

Prince Albert came into the game five years ago a little stranger in a big land, but it was cut for a square deal, and today it is the one best bet of men everywhere who play fair with their tongues and want fair play—with all the cards on the mahogany! Catch the thought?

PRINCE ALBERT
the national joy smoke

is built like a thoroughbred. It won't kick, it won't bite, it won't parch! That's because it is made by the now world-famous patented process that cuts out the kick and the bite and the parch! No other tobacco ever was or can be today anywhere near like Prince Albert!

You can raise right here—and clean the table—that Prince Albert will win with you because it's true blue, any way you play it! Costs a dime to sit in and find out first-hand that all we claim for Prince Albert is case cards—signed, sealed, delivered—with the reputation of this great business right behind every grain of tobacco! Does that listen?

R. J. REYNOLDS TOBACCO CO.
Winston-Salem, N. C.

Copyright 1914 by R. J. Reynolds Tobacco Co.

Buy Prince Albert all over the nation—anywhere, everywhere. Topsy red bags, 5c (handy for cigarette smokers); tidy red tins, 10c; also handsome pound and half-pound tins.

BODY OF MAN FOUND FLOATING IN POND

Marcus M. Fairbank's Son Held by Police — He Turns Over Father's \$600 to Framingham Officers—Autopsy Today

FRAMINGHAM, Nov. 5.—The body of Marcus M. Fairbank, 72 years old, of Concord street was found floating in two feet of water in Little Sucker pond, off Eastern avenue, about dusk last evening and the police are holding his son, Clarence, aged 32.

For several years the father and son have been living apart, the older man in a house which he owned, about a half-mile from the pond, and the son in a rather ramshackle affair on an edge of the pond. Yesterday Clarence telephoned the police that his father was missing. Chief Holbrook detailed two men, who worked on the case all day. They questioned the son closely and he told them he had seen his father alive between 5 and 10 o'clock that morning. He also said his father went to Boston Monday, drew \$600 from a savings bank and gave him the money to keep for him. He then turned this money over to the police.

The officers, after a search of the son's home, found several bankbooks recording small sums on deposit. Clarence said these had been placed in his care by his father.

This morning, when Clarence again telephoned Chief Holbrook that his father was still missing, he was called to police headquarters and there put under a rigid examination. A squad of state detectives were called into the case.

About 2 p. m. Chief Holbrook sent a detail of men to the pond to drag for the body. After a long search they found it, just before dark, on the northern side of the pond. In about two feet of water. The police say they found that the bushes near the water's edge had been bent down somewhat as if having been recently trampled on. The body was taken to the morgue here and viewed by Medical Examiner Lewis M. Palmer. He said after a superficial external examination that he did not find any marks of violence, not even a scratch. He said he would make an autopsy tomorrow morning.

LOST HIS GOLD FOR WAR RELIEF

Chinaman Fails to Find His Fortune Hidden for Safety

BOISE, Idaho, Nov. 5.—About a year ago Wong Fong, a Chinaman who lives on the south side of Ninth street bridge, put seventy-one \$20 gold pieces in an old iron pot and buried it on the land which he had leased. When he went to get it the other day it was gone.

Poor old Wong Fong is feeble; his 62 years of age sit heavily upon his shoulders. He had worked hard for his gold pieces, and, being suspicious of Americans and ignorant of banking customs, he made a bank of his own and thought he had his money secure. Recently he and his four associates sold their lease to another Chinaman for \$3200. Wong Fong got his portion of that sum, and with his old iron pot of gold decided he would have enough to take him back to the land of cherry blossoms and keep him in comfort the rest of his days.

He went out when not observed, to dig up his buried treasure. The soft earth yielded easily to his spade as he worked so eagerly. His joy at going home giving him added strength. But the loosened earth revealed no iron kettle, and when Fong dug far beyond the original depth of the hole, he realized his small fortune was gone.

Fong says he told no one of his secret, but that he was sure a fellow-countryman had been working for him about it. And just a year ago this same fellow-countryman, Fong would not divulge, was gambling and spending considerable money. His friends thought it suspicious, but were unable to find out where he got his money. Wong Fong thought his money safe and never looked at his cache until he was ready to go away. Now he believes this man spent his precious cash. He is broken-hearted, but is reticent about doing anything to apprehend the thief.

SUFFOLK STREET FIRE

PATROLMAN GOGGIN MADE A TIMELY DISCOVERY — TENANTS DRIVEN OUT BY SMOKE

Patrolman Richard J. Goggin discovered a fire in a building at 95 Suffolk street about 12:30 o'clock this morning and after ringing in an alarm from box 15, corner of Fletcher and Cushing streets, rushed to the scene arousing the many tenants of the two upper stories, who were forced to flee from the building, partly clad, in order to escape the thick smoke which poured through the building.

The fire started in a variety store owned by Mike Asano and had a good start when discovered by the firemen. A brick blaze was in progress inside the building and flames were shooting through the doors and windows, but the fire department promptly checked the fire. Considerable damage was done to the contents of the store while the building was also damaged, partly by smoke.

DEATHS

GRIFFIN—Mrs. Harriet M. Griffin died yesterday at her home, 207 Liberty street, aged 75 years. She leaves one daughter, Mrs. Ella A. Neal; one granddaughter, Mrs. Oscar Merrill; also a half sister, Mrs. Elizabeth Healey of Raymond, N. H.

EASTMAN—Mrs. Carrie P. Eastman died last evening at the Lowell hospital, aged 55 years. She leaves her husband, Edwin S., and one son, Raymond W. Eastman. Decent was a member of Centralville Reformed Lodge, 157, E. O. C. F.

RUSSIANS ROUTED TURKISH TROOPS

Petrograd Reports Russians Took Bayazid After Desperate Battle With Turks—Other Victories Claimed by Russian War Office

PETROGRAD, Nov. 5.—The following official communication has been received from the Russian general staff:

"In Caucasus one of our columns suddenly attacked the enemy near Argost, 15 miles south of Kars, near the boundary of Turkish Armenia. The Turks fled, abandoning their wounded."

"Having dislodged the Turks from the village of Id (about 60 miles west of Argost) over the line into Turkish Armenia, we took a great quantity of food. After a violent combat our troops seized Khorsan (in Turkish Armenia, 30 miles southeast of Id) and Col-Karaderbent. One hundred Cossacks attacked the trenches of the enemy and sabred the Turkish infantry. One of our columns having passed through difficult roads for a distance of 25 miles in 30 hours encountered the Turks at Mesopotamia and Bayazid (about 30 miles west of Bayazid, which is the capital of Sanjak of Bayazid). We dispersed a large body of Kurds and occupied Bayazid, where we took munitions of war and many prisoners. Nov. 3 we occupied Bayazid, where we routed the Turkish troops, who resisted strongly."

LONDON REPORTS GERMAN CRUISER KOENIGSBERG PUT OUT OF ACTION

LONDON, Nov. 5.—The Times prints a report today that the German cruiser Koeningberg has been put out of action in the Indian ocean.

The Koeningberg was a protected cruiser of 3500 tons and has a speed of 23½ knots. Her main battery consists of ten 4-inch guns.

BERLIN DENIES THAT RUSSIAN TROOPS HAVE TAKEN PRISONERS

BERLIN, Nov. 5.—It is declared officially here today that the Russian troops on the eastern front have not recently been successful in taking prisoners. Nor have any German wounded fallen into their hands. Furthermore, the authorities have no knowledge of the loss of any German machine guns to the Russians.

EPIDEMIC AMONG CATTLE

Federal Quarantine Threatens a Reduction of the Nation's Food Supply

WASHINGTON, Nov. 5.—The worst outbreak of the foot and mouth disease ever known in the United States is the department of agriculture's estimate of the livestock epidemic which has forced federal quarantine over six states and threatens a temporary reduction of the nation's food supply. An emergency appropriation by congress may be requested to finance the campaign to suppress the epidemic.

Officials said last night it would be a week before they could forecast the extent to which the food supply would be affected. They are inclined to believe, however, that the outbreak will not be large in spite of the inconvenience to which stock growers and packers will be subjected until the disease is under control. Every possible effort will be made to remove handicaps upon the movement of livestock.

The quarantine does not prevent the shipment of stock from unaffected districts to slaughter houses within the quarantine area and there is no embargo against the shipment of dressed meat.

New York and Maryland Hit

New York and Maryland were added to the list of quarantined states yesterday. A department of agriculture statement announcing this said:

"The list of states now quarantined by federal authorities includes New York, Maryland, Indiana, Michigan, Illinois and Pennsylvania. In addition to this restrictions have been placed upon interstate shipments from Ohio, although no cases have as yet been found in that state. There is reason to fear, however, that infected stock may have been sent into Ohio. If this is found not to have been the case the embargo will be lifted."

"This outbreak, which is the first in the United States since 1905, is regarded as the most serious of any that the United States has yet experienced. Not only has it already spread over an extensive area, but its virulence seems to be above the average. Vigorous measures will be necessary to stamp it out. The cost of suppressing the last outbreak in 1905 was estimated at \$295,112.10. In addition, the loss to dairy and stock raisers was heavy."

Interstate shipments of cattle, sheep and swine are absolutely prohibited from the states now quarantined. Stock cannot even be sent from one infected state into another. The federal authorities are at present engaged in endeavoring to ascertain the exact area over which the infection has spread, and as soon as this is known

PANIC STRICKEN MEN TRAMPLED MOTORMAN

Fifty Passengers in Panic When Car in Which They Were Riding Crashed Into Auto Truck at Haverhill

HAVERHILL, Nov. 5.—Fifty laborers riding in a workmen's street car became panic-stricken early last evening when the car crashed into a two-ton truck near the end of the Haverhill bridge on Main street. Terrified, they rushed for the front and rear doors and the car was quickly emptied. Those who rushed out of the front door trampled upon Motorman Joseph Peters. He was taken to the Halse hospital, where he was found to have received serious internal injuries. Antonio Romano, one of the laborers, was slightly injured by being trampled on.

The laborers, who are employed on the reconstruction of the Bay State Street railway in Georgetown, were being conveyed to their homes on River street here.

An auto truck of H. L. Taylor & Co. had broken down on Main street and another was towing it with a rope to the company's coal yard on water street. Near where the road meets the bridge the first truck crossed the track as the electric car approached. The car struck the second.

Who was responsible for the accident is not yet known, as Motorman Peters was unable to talk last night, but it is supposed that, on seeing the first truck cross the track he believed the other would wait until he passed, not having seen the low rope until too late to avoid the collision.

The front vestibule of the car was crushed in, but the auto truck was not damaged.

ADMITS KILLING MAN

GILMORE A. BOWMAN PLEADED GUILTY TO A CHARGE OF MANSLAUGHTER

WISCASSSETT, Me., Nov. 5.—A genuine surprise greeted the large crowd of spectators in the Lincoln county supreme court room yesterday when Gilmore A. Bowman of Somerville, Me., retracted his plea of not guilty to the charge of murdering Hugh A. Clark of Boston and pleaded guilty to a charge of manslaughter.

The maximum penalty is 20 years' imprisonment, but Justice Philbrick did not feel like pronouncing sentence until hearing some of the evidence. Although the special jury impeached last night was dismissed, several witnesses placed on the stand during the day. Atty. Gen. Scott Wilson, assisted by County Atty. James H. Perkins, appeared for the state and Andrew C. Halpen and Weston M. Hilton for the respondent.

The general substance of most of the state's witnesses' testimony was that there was a row between Hugh and Clark near the end of the Haverhill bridge on Main street, in the adjoining town of Jefferson two weeks ago last night.

Walter Clark, a brother of the murdered man, said that as he and his brother were about to enter the pavilion Gilmore Bowman made a remark that Hugh Clark resented. There was a general squabble during the evening, in which Hugh Clark gave George Bowman a beating and later turned his attention to Gilmore, knocking him down. Suddenly, however, Hugh Clark stood up, witness said, and exclaimed: "My God, he's killed me!"

At this point the witness was so un-nerved that it was only between sobs that he was able to describe how his brother staggered into the dance hall, fell on his face and died.

Medical Examiner George A. Gregory, who made the autopsy, described several knife wounds, among them one in which the knife had nearly severed the jugular vein and another in which two chambers of the heart had been penetrated.

Among the spectators were young Clark's mother, Mrs. Ida M. Clark of 133 Pembroke street, Boston; his two sisters, Mrs. Bernice H. Twomey and Miss Mary S. Clark, and Miss Lillian Greenleaf of Boston, the fiancée of the murdered man. The mother was deeply affected by the testimony. While Medical Examiner Gregory was on the stand she swooned, but quickly revived.

Yesterday afternoon the case ended without argument, Justice Philbrick stating that he would defer sentence until today.

CHIFFORD—LOUNSBERRY

Warren Chifford of this city and Miss Adeline Lounsberry of Kingston, N. Y., were married last night by Rev. George C. Wright at his home in Fairview street. The couple will make their home at 73 Fort Hill avenue.

HINDS FREED ON PARDON

SERVED 22 MONTHS OF TERM FOR ARSON—WIFE SENT TO INSANE ASYLUM RECENTLY

BOSTON, Nov. 5.—Harry H. Hinds, who was granted a pardon yesterday afternoon by vote of the executive council, after serving nearly 22 months of a three-to-four-year sentence in state prison for arson, was released from prison at 4:45, shortly before which hour Ex-Mayor J. Edward Barry of Cambridge arrived at that institution with the pardon papers. Mr. Barry was accompanied to the prison by Timothy J. Buckley of the governor's council.

The conditions of the pardon were read to Hinds by Chief Clerk Edward Durling in the clerk's office, after which he was taken to the city hall and placed in the hands of Mr. Darling and Warden S. D. Allen, and in company with attorneys Barry and Buckley left the prison.

Ex-Mayor Barry and Hinds went immediately to Cambridge. Since Hinds was committed to prison his wife became insane and she was committed to the Worcester Insane hospital and his children were placed in an institution. Hinds will provide a home for himself and his children.

Ex-Mayor Barry became interested in Hinds' case. He has found his efforts he secured Hinds' release six weeks earlier than he could seek parole.

It was brought out at the hearing yesterday that Hinds was intoxicated at the time he set the fire and that no damage was caused by it.

By J. E. CONANT & CO., Auctioneers OFFICE, LOWELL, MASSACHUSETTS

REGARDLESS OF WEATHER CONDITIONS THE HIGHEST BONA FIDE BIDDERS SHALL BE THE ABSOLUTE PURCHASERS OF THE TWO HUNDRED AND FIFTY LOTS OF PROPERTY

MACHINERY—OTHER PERSONALTY—AND REALTY

UPON RAILROAD AND TIDE WATER AND IN LOTS TO SUIT PURCHASERS

At Thomaston, Maine, on Thursday, the 12th day of November, 1914, commencing promptly at half-past eleven o'clock in the forenoon upon the premises of the Thomaston Brick Company, there will be sold by public auction, for cash, the following property, to-wit: A large quantity of brick made from them shows from 50% to 60% greater crushing strength and from at least 30% less absorption, their fineness and freedom from salt-petre and lime are a guarantee against discolorations or changes in appearance of their products; they are also remarkably free from foreign matter in any way injurious to the manufacture of brick and pottery, there is not the remotest difficulty in drying and burning at a low temperature. Dry pressed brick has not averaged 7%; it is equally good for fireproof hollow brick, tapestry and other fancy brick. The machinery and other personal property is practically new and of the very latest standard type. All the property to be sold is set forth in detail in an illustrated and descriptive catalogue which may be had upon application at the office of the auctioneers, where all inquiries must be made. Freight rates average \$7 per thousand less from Thomaston than from other sources of repressed face brick; all native ore; 1700 ft. of spur track; this water frontage; naturally drained clay lands; a box of clay sent express paid upon proper request.

John W. Burns, Assignee.

Fate of British Warships Mystery England Declares War on Turkey Allies Make Progress, Says Paris

AS ANGELS OF POOR TWO SISTER NURSES

Marcella and Katherine McAdams
Served at Chelmsford St. Hospital—Former Has Resigned After Nineteen Years' Service

Marcella McAdams has resigned her position as matron at the Chelmsford Street hospital after 19 years of faithful service as it is possible for a woman to render. She did not resign because she had tired of the work to which she had devoted the greater part of her life, but because of the fact she has arrived at an age far beyond the active stage of life. She has rounded out her three score and ten and while she feels that it is time for her to retire yet she admits she cannot do it gracefully because of her love for the work in which she has been engaged for so many years. She came to the Chelmsford Street hospital 19 years ago from the state hospital at Tewksbury, where she had spent many years as matron and attendant. Her kindly face, cheerful word, gentle touch and pleasant smile will be missed by those to whom she has administered during her long term of service at the Chelmsford Street hospital. Ever untiring in her efforts to care for the unfortunate the place she will leave vacant at the local institution will be difficult to fill.

Marcella McAdams' sister, Katherine McAdams, is also a nurse at the Chelmsford Street hospital, and these two sisters have often been referred to by the inmates of that institution as "the visiting angels." They are the personification of kindness and the feelings of the inmates towards them approach adoration. They have given up their lives to the care of men and women mentally and physically infirm and never in their long time of service, at any hour of the night or day, have they hesitated when duty called them. Night after night they have sat at the bedside of those known to them only by name; men and women deserted by their own in their time

of need. Marcella and Katherine McAdams didn't belong to any union. Their hours were regulated by the demand made upon their services and no superintendent or other officer ever heard them complain. Marcella McAdams' resignation will take effect on Saturday.

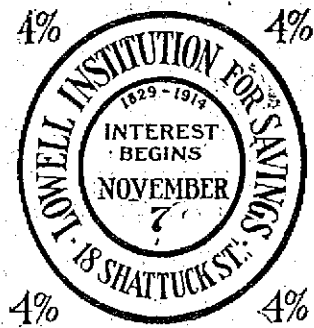

Broderick's, Butlers, Lincoln, Fri.

INQUEST ON BECKER'S DEATH

An inquest was held before Associate Justice Pickman in the second session of court today on the death of Peter Becker, of 36 Flynn street, Lynn, who was found lying on the car tracks in Tyngsboro, near Mountain rock, with a hole in his head caused by a bullet from a .35 calibre revolver. The police believe that the man died a suicide.

Among the witnesses to testify today were Medical Examiner Melis, Supt. of Police Welch, Conductor Charles West of the Bay State Street railway and others.

A GREAT DISCOVERY
Thirty-five years ago a young mechanic, thirty-two years old, bearing the name of Thomas A. Edison discovered the incandescent light. How he ever did it is the wonder of the age since it was all done so quietly, confidently and surely. And how has he done so much in his peaceful way to the world? Only by working all the time, days and nights, and at some periods that he made into a day four days long, scarcely eating or sleeping for ninety-six hours at a stretch.

ALLIES ADVANCE EAST OF NIEUPOORT

Of the Nine Vessels That Figured in
Naval Battle Off Coast of Chile Only
Three German Warships Have Been
Accounted for — German Warships
Blown up by Mines

No British warships are in Chilean ports. The fate of the three British cruisers that engaged five German warships off the coast of Chile and the transport that accompanied them remains a mystery.

On this mystery is based the British hope that one or more of their vessels survived the action. A dispatch from Santiago today disposes of an earlier report that the British cruiser Glasgow and the transport, Otranto, had been bottled up in Chilean waters by the German cruisers Leipzig and Bremen. The whereabouts of the two latter cruisers is also in doubt. Of the nine vessels that figured in the naval battle, only the German warship Scharnhorst, Gneisenau and Nuernberg have been definitely accounted for.

After coming into Valparaiso, they again sailed.

Nor was there any word today of the British battleship Canopus, which the admiral says had been sent to strengthen Rear-Admiral Craddock's squadron.

There is nothing to indicate that she arrived in time to participate in the fight. Great Britain has declared war on Turkey and the Ottoman government, despite dissensions in the cabinet, is definitely committed to hostilities against Great Britain, Russia, France and Serbia. While Turkey becomes in effect an ally of the Teutonic allies she is, strictly speaking, waging an independent war upon Russia because of an alleged attack upon her by the Russian navy and upon the countries involved because of their espousal of the Russian cause.

The new drive for the seacoast of the heavily reinforced German forces in Belgium has been met by a counter offensive also augmented armies of the allies in the vicinity of Ypres.

"The Franco-British lines have at no point drawn back," says the afternoon French official statement, "and our troops undertaking the offensive have made notable progress in several directions."

It is declared that the allies have made slight progress to the east of Nieuport and that the German attacks from Dixmude to the Ys are being made with less energy. Renewed German activity is reported on the coast without notable change and on the right of the allies the situation remains deadlocked.

A dispatch from Teheran reports that the Persians are much excited over the clash between Turkey and Russia. The pretender Salar ed Dowleh has proclaimed himself as German candidate for the throne.

Great Britain has formally annexed the island of Cyprus in the Mediterranean, which has remained long under the suzerainty of the Turkish sultan, though with a British administration.

Berlin admits loss of Cruiser York blown up by a mine near Jade, one of the outlying defenses of Wilhelmshaven while in London it is declared that the German cruiser Konigsberg has been destroyed.

The attitude of Bulgaria still is undetermined. Russia is said to be making diplomatic efforts to reconcile Bulgaria and Serbia and prevent Bulgaria casting in her lot with Turkey. A despatch from Sofia says that the Greek government has assured Bulgaria that the Greeks will remain neutral. No definite word has come from Rumania.

The British and Japanese are still hammering away at Tsing Tau. The Japanese announce that the attacking forces are gradually closing in but also states that the Germans on Tuesday night made a counter attack which delayed the operations of the allies.

A wireless despatch from Berlin brings a German official denial of reports that the Russians had recently taken any prisoners and machine guns. The statement does not describe the general situation in the eastern theatre.

ORDER FOR UNDERWEAR

For One of the Belligerent Powers
Received by the Canadian Knitting Co. at Hamilton, Ont.

The Canadian Knitting company, of Hamilton, Ont., of which a former Lowell man, Frank Monette is superintendent, has received a large order for underwear from the British government, and according to the contract the goods must be in readiness to ship abroad in two weeks.

Mr. Monette came to Lowell today on a business trip and in conversation with a Sun reporter he said the 100 or more employees of the Canadian Knitting company will be kept working day and night until the order is finished. Mr. Monette's trip to this city was for the purpose of giving a large order to a local mill.

The former Lowell man went around the various mills this forenoon in order to get prices on what is known as drill, a sort of belting used in underwear and before leaving the city he gave an order for 163 yards of drill to be delivered in as short a time as possible. Mr. Monette did not state where he had placed this order.

Second Edition CLAIMS OF ST. RY. MEN WILL BE ARBITRATED

Decision Reached in Controversy
Between Bay State Company
and Its Employees Whose Working Agreement Has Expired

The Bay State street railway wage dispute will be settled by arbitration. This decision was arrived at last night and the local carmen as well as all the employees of the Bay State system were notified of the plan today. The company has selected H. E. Reynolds, assistant general manager of the Bay State system, to represent the road at the arbitration hearings and the carmen have picked Lawyer James H. Vahney of Watertown to look after their interests. The third arbitrator will be chosen by Messrs. Reynolds and Vahney.

Every division of the Bay State road is keenly interested in this move as the wage agreements all over the system have expired. There are over 4000 carmen connected with the road, which runs through three states, Massachusetts, New Hampshire and Rhode Island.

STOLE JEWELRY

Two Young Men Robbed
House and are Held
for Trial

Walter Wilson and Alfred Roy, both of Lowell, were arraigned in court today, charged with stealing enough jewelry to stock a small-sized jewelry store from a tenement house on Price street on the afternoon of Tuesday, Oct. 27. Wilson entered a plea of guilty and Roy pleaded not guilty. Both were held in the sum of \$500 for their appearance in court tomorrow morning.

The technical complaint against the young men was the larceny of two gold watches, each valued at \$20; three bracelets, each valued at seven dollars; four crosses, each valued at \$5; two chains, each valued at \$5; four pins, each valued at \$2, and four rings each valued at \$5, all the property of Aethias Defas of Price street.

It seems that at 1 o'clock on the afternoon of Oct. 27, the occupants of the Defas house, went out and left the door ajar. When someone returned just two hours later it was discovered that the house had been entered.

OFFICIAL VOTE NOV. 13

ACCURACY OF UNOFFICIAL RETURNS ON STATE TICKET DOUBTED
BOSTON, Nov. 5.—There is a strong sentiment among democratic officeholders at the state house for waiting until there has been a complete collection of the returns of votes cast for secretary of state, state treasurer, state auditor and attorney-general before assuming the defeat of the entire democratic state ticket below governor. In other words, the accuracy of the unofficial returns is doubted.

The vote for state auditor is particularly questioned. The official return of the election is due by November 13 at the secretary's office. The returns on hand indicate the selection of all the republicans on the state ticket below the governor, but there are still many districts missing.

COPPER KING IS DEAD

F. Augustus Heinze Taken Suddenly Ill at Saratoga After Voting—Stormy Career

SARATOGA, N. Y., Nov. 5.—F. Augustus Heinze, owner of immense copper interests in the west, died suddenly here last night.

Mr. Heinze, whose legal residence was Saratoga, came here yesterday from New York to vote. He became ill suddenly yesterday afternoon at the home of his counsel Judge Nash Rockwood. His condition grew steadily worse and he expired early last evening.

Ill Since June

Mr. Heinze, who was 42 years old, had been ill since last June with symptoms of the heart. He came here against the advice of his physicians. Mr. Heinze had made his home in Saratoga for the last six months and his son, F. Augustus H. Heinze, Jr., 2 years old, was the only relative he had here. His wife died about a year ago.

A sister of Mr. Heinze, Mrs. William F. Heintzmann and two brothers, Arthur P. and Otto Heinze of New York, are on their way here. No funeral arrangements will be made until they arrive.

During the half a year that he lived here Mr. Heinze seldom spent more than a few days at a time here, living

in New York and returning to Saratoga frequently to consult his attorney.

REMARKABLE CAREER

Heinze Involved in Litigation From Beginning of Career Almost Till Time of His Death

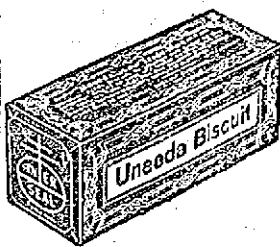

F. Augustus Heinze, one-time copper king and the most picturesque figure in the mining field for years, was born in Brooklyn, N. Y., Dec. 6, 1869. After completing his early education he entered the Columbia College School of Mines from which he was graduated just before reaching his 20th birthday. In the fall of 1889, after leaving college, he entered the employ of the Boston & Montana Mining company at Butte, Mont., for a salary of \$150 a month as a mining engineer.

A little later he was back in New York holding down a chair as a sub-editor on the staff of the Engineering and Mining Journal. The call of the mines was irresistible. Accompanied by Stanley Gifford—ever since his close associate—he went back to Butte. The young men each had \$5,000, borrowed money.

With this capital, Heinze and Gifford began leasing on the Ramsdell Farrott. Out of profits, they started a lease on

"SICK MAN OF EUROPE"

THE SULTAN OF TURKEY, AGED 65 YEARS, FACES CRISIS OF EMPIRE—REGARDED AS MAN OF PEACE

SULTAN MOHAMMED V

The sultan of Turkey, always referred to as the "Sick Man of Europe," is likely to become critically ill or else meet with a "fine recovery" as the result of throwing in his lot with the Kaiser in the present war. Mohammed V. has been sultan for five years. He is called a good natured, plous old man of sixty-eight, obedient to the will of the Young Turks and of the Austro-German influence. After half a lifetime of palace imprisonment, he was set free from his bondage and placed in power, while his brother, the erstwhile sultan, was relegated to political oblivion. The present ruler of the Ottoman empire has always been regarded as a man of peace and contentment.

ed, he financed himself for the big fight.

Would Not Be Licked

Only one thing was certain through all that bitter war—Heinze would not be licked. When the rumors of the district rose on mass against him, and in support of Amalgamated, Heinze met them face to face, and after talking to them for 30 minutes from the steps of the Butte courthouse, won them over to his side. When the "Underground Warfare"—physical fighting in lower workings, fighting with steel, dynamite and water—began between the miners employed by the opposing interests, Heinze was in shaft, drift and crosscut directing his men until the situation became so weighted with menace to human life that an agreement for amicable mining became a necessity.

Heinze played a higher card, took the lead and quickly exhausted his opponent's hand. When process-servers attempted to serve him with legal documents while he stood by the grave open to receive his mother's body, Heinze's hand went to his gun-pocket, and he told that process-server that the movement of a finger would cost him his life.

Loans Were Called

When the light was at the hottest, the Amalgamated crowd got control of two New York city banks in which Heinze was heavily indebted. His loans were called. He agreed to reduce them at the rate of \$4,000 daily. A quarter of a million had been paid off in this manner when Heinze concluded that he must either sell out or pay off those loans and drop negotiations for good and all. He called on a friend to lend him \$250,000. The friend promised. Heinze went to H. H. Rogers' office—that was when Amalgamated was offering \$5,000,000 and Heinze was asking \$3,500,000.

"I'm going back west," said Mr. Heinze to the Standard Oil magnate, "we can't come to an agreement." "When are you leaving?" asked Rogers.

"It is now Friday; I'm leaving Monday evening," replied Heinze. "That being the case," began Rogers, by way of calling what he thought was a bluff, "drop in and see me next Tuesday afternoon at 2 o'clock."

That was Sept. 6, 1901.

Went Back to Mines

Disturbed as was the situation, the friend came through the next day with that quarter of a million; the loans were paid, and Heinze went back to the mines, leaving Amalgamated to accumulate that \$2,000,000 penalty for delay.

A little later Heinze went to Europe for a protracted visit. Then was the time, during his absence, when Amalgamated would surely get him. It didn't. Heinze's lieutenants were able to carry on affairs successfully so well that they were trained; and it was this—the proof of the strength of the organization—the man had called into being—which finally brought Amalgamated to its knees in settlement.

The last Heinze fight—his battle to clear himself of criminal charges brought in the federal courts—resulted in as clean a victory as did his fight against Amalgamated.

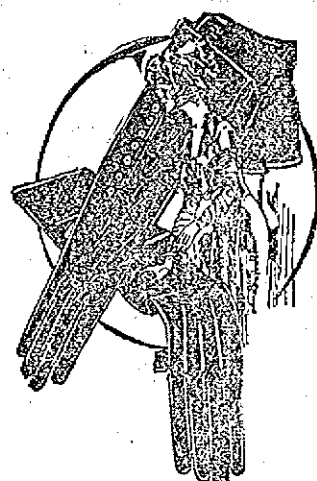

In 1905 Heinze came to New York willing to wage his last battle. Within a few years his fortune dwindled and he was constantly embroiled in affairs that brought him into court again and again.

He established his brothers, Arthur and Otto, in the stock exchange firm of Otto C. Heinze & Co. He bought control of the Mercantile National bank from Edwin Gould and became its president.

Working through this bank and the stock exchange firm, he and his friends established a chain of banks. Things were breaking big in the financial world and Heinze and his name was heard wherever bankers and brokers sat together. Then came the panic days of 1907 and when every banker was huddling his resources, Heinze started to corner United Copper.

Beginning of End

That was the beginning of the end. Great quantities of stock were dumped into the market and were bought by firms commissioned to buy by Otto C. Heinze & Co. Debts came piling up and

ABSOLUTELY RIGHT

on Oct. 18, 1907, the stock organization suspended Heinze and his brother. The State Savings bank of Butte, Mont., a Heinze institution, suspended payments. The clearing house committee compelled Heinze to resign from the Mercantile National bank presidency and began an investigation of its affairs.

The result was that Heinze and his friends, Chas. W. Morse, O. F. Thomas and E. R. Thomas, got out of the banks which had been organized at Heinze's suggestion. Heinze struggled to maintain himself, but he was in too deeply and had to quit. He lost money as easily as he had made it. Then he was indicted and arrested for overcertifying checks in settling his brother Otto's affairs. The trial went along and while Heinze was freed he was

also comparatively moneyless. He then went back to Butte.

Lost Suit for Million

During the last few years he has been in the public eye chiefly as a litigant in actions growing out of his Wall street career. His most recent appearance was as defendant in a suit brought by Edwin Gould to recover on promissory notes with which Heinze bought his way into the Mercantile National bank. The judgment for more than a million dollars went against Heinze.

During a previous action he had been reported dying and was unable to appear in court. He had hemorrhages of the stomach and cirrhosis of the liver. At the Gould trials his voice was weak and husky. He gave the out-

ward appearance of health, but his friends declared that he was very ill. In 1910 Heinze married Bernice Golden Henderson, an actress. Within two years Mrs. Heinze was given an interlocutory decree of divorce against her husband.

She was taken ill early last year, and when told she was going to die, she told the doctors she wanted to see her husband. Just before her death in her husband's arms, she said to him, "Oh, Fritz, I want that divorce set aside. I want it all wiped out for our boy's sake."

Her lawyer after her death began preparations to have the divorce set aside.

THE RABBIT'S FOOT

BY GWEN SEARS

ADVICE TO THE DEBUTANTE

The modern young girl of these days is a very strenuous person. Little debutantes in society are perhaps victims of late hours, indigestible foods and inefficient warm clothing in the chill night air, more than the average girl. But girls in any state of life should not fail to regard their health.

Too often it happens that the debutante is not wise in this respect. Late hours, refreshments at all hours, a great amount of nervous excitement, all do their work and some fine day our young lady awakes with a horrid start to the knowledge that her good complexion has vanished, and she is left with a skin dotted with blackheads, punctured here and there with small pimples, a generally sallow or pale appearance, lines around and under the eyes.

What an outcry is there, my countrymen! And straightaway heroic

measures are resorted to, to atone for past thoughtlessness and neglect.

The fact of the matter is such a loss need not have occurred. A little intelligence, a little forethought and that incomparable freshness which cannot be bought in any box, hailing from Paris or any other place, could have been retained and the girl possessed of such wisdom would have stood out among her less fortunate friends as the newly opened flower does among those about ready to fall from the stalk. Who would not achieve such a result, if it is within one's power to do so?

Simple enough are the rules whereby this can be done. Lost sleep—this is the traitor which so often depresses vitality and the next thing a cold is caught with all its accompanying discomforts.

BEACON FALLS

TOP NOTCH RUBBERS

WHERE DO YOUR RUBBERS WEAR OUT FIRST?

The ladies who wear high heel shoes know from past experience that it is the heel.

Then why don't you buy a pair of Top Notch Rubbers with the patented, doubly-reinforced "Clincher Cushion" heel—the only real balanced rubbers sold in town. They won't break or split through at the heel before the rest of the rubber is worn. The heel is strengthened and reinforced to resist constant wear and tear.

Now is the time to buy these longer-wearing rubbers. You will find them just as stylish as they are serviceable.

SIX BURNED TO DEATH

Fire Swept Through Four Story Lodging House in New York City This Morning

NEW YORK, Nov. 5.—Six men were burned to death, some of them in their sleep, in a fire which swept through a four-story lodging house at 352 Eighth avenue this morning. Fifty men were sleeping in the structure when the fire was discovered. Firemen made many thrilling rescues. Most of the men who were saved the fire escape and extension ladders. The night watchman saw smoke on the ground floor and ran to the top floor shouting the alarm. Before he reached the head of the stairs flames were shooting out the second story windows. In a few seconds a dozen or

more men stood up on the fire escape in imminent danger of being burned to death. Inside the building a score of sleepers were overcome in bed. The bodies of the six men who perished were found on the bedsteads—the mattresses had been burned—frightfully charred and beyond recognition. There is no doubt that they died in bed, unconscious of their danger and there is little doubt that others would have gone the same way but for the quick work of the firemen. More than a dozen of those rescued were unconscious. Fifteen men, on the top floor, narrowly escaped, were rescued by firemen and crawled perilously along a narrow ledge to a window of a building adjoining. Within 20 minutes the fire was out.

CECILIE AT ANCHOR

THE GERMAN LLOYD STEAMER HAS NOT YET DECIDED WHEN SHE WILL SAIL FOR BOSTON

BAR HARBOR, Me., Nov. 5.—The North German Lloyd liner Kronprinzessin Cecilie remained at her anchorage here last night with the date of her departure for Boston, in accordance with the instructions of the federal court, still indefinite. United States marshals from this district and Massachusetts, who are to be the official custodians of the ship on her voyage, were here ready to start, but there was no other indication that the vessel would leave in the near future.

Capt. Polack, commander of the steamer, announced that he had no intention of taking her out of port without a written order from the owners, which he had not received. Orders from the navy department at Washington to the destroyers which are to act as a convoy for the Cecilie were not forthcoming.

ALL-NATIONALS BEATEN, 3 TO 1 SAN FRANCISCO, Calif., Nov. 5.—The All-Americans defeated the All-Nationals here yesterday, 3 to 1. The All-Americans made six hits and the All-Nationals one. The batteries comprised James and McAvoy; Tesreau and Clark.

Glove Factory Destroyed by Incendiary Fire—Strike on

GLOVESVILLE, N. Y., Nov. 5.—The Van Wic and Chase glove factory in this city was this morning destroyed by fire which the police and owners believe was of incendiary origin. The loss will amount to about \$15,000. A few days ago the firm received an unsigned letter saying: "Cut no more gloves until the strike is settled." The cutters in the shop had been working during the strike now in progress here.

A SEVEN YEAR TERM

FOR PRESIDENT ADVOCATED BY EX-PRESIDENT TAFT IN ADDRESS AT HARVARD

CAMBRIDGE, Nov. 5.—A seven-year term for president of the United States was advocated by former President Taft in an address before the Harvard Law school yesterday. "I think it would have been wiser," he said, "to have made the term of president seven years and to have him ineligible for re-election. As it is, the last year of his first term is burdened with thoughts of a second term." Prof. Taft discussed the veto power, declaring that "presidents in general and governors also have been too chary in the use of the power; they have thrown too much of the burden of opposing legislation on to the courts." He caused a laugh when he referred to "the recent progressive party gentlemen with their disdain of constitutional limitations."

MEDFORD, Nov. 5.—The police yesterday received reports of three breaks in South Medford. In each case the thief used a ladder to enter a second-story window.

At the house of Mrs. Sarah MacKay, 5 Benton row, the burglar was interrupted in his work by Mrs. MacKay's daughter, Eva, who was asleep in the room and who was aroused by the noise made by the thief. He escaped through the window, reaching the ground by a ladder. He placed at the side of the house, 55 Princeton st., a gold locket and chain, two pendants and two gold bracelets from a dressing table, but overlooked \$90 belonging to Mrs. MacKay and \$25 belonging to her daughters, Eva and Sadie, which was on the same table.

The second break was in the home of Fred B. England, 55 Princeton st., and the third at the home of H. T. Fay, 52 Princeton street, between midnight and 5 a. m. From Mr. England's home the burglar took a pair of trousers and underwear and these were found thrown aside in the yard with the pockets rifled. A pocketbook, a knife and several trinkets were taken. At the Fay house the burglar took two vests and a pair of trousers which were found with the pockets rifled on a neighbor's piazza.

MINERS' HOUSES

Reports Say Miners and Sympathizers Wreck Homes at Prairie Creek

FORT SMITH, Ark., Nov. 5.—Reports were received at the United States marshal's office shortly before noon that miners or their sympathizers had wrecked a number of houses at Prairie Creek early today. The burned buildings are said to include the big boarding house which has been the scene of numerous disturbances.

MATRIMONIAL

A pretty marriage took place yesterday afternoon at St. Joseph's rectory, when Harry Clay, a well known second hand at the Lawrence Mfg. Co. and Miss Ella Laporte, a bookkeeper in the same department, were united in the bonds of matrimony, the ceremony being performed by the pastor, Rev. Dr. J. H. McElroy. The bride wore a handsome traveling suit of blue and she carried a large bouquet. She was attended by her sister, Miss Genevieve Laporte, who was also attended in a blue traveling suit, and carried pink roses. The best man was Charles Tucker. At the close of the ceremony the bride's parents, Mr. and Mrs. Thomas Laporte, 52 Gresham avenue, where a wedding dinner was served to the immediate relatives of the contracting parties. In the evening the happy couple were tendered a reception at the same address and a couple of hundred friends called to offer congratulations and best wishes. The O. M. I. Cadet orchestra of which the bridegroom is a member supplied excellent music during the evening. Vocal and instrumental selections were given by a number of the guests and a light luncheon was served. Mr. and Mrs. Clay, who were the recipients of numerous wedding gifts, including a purse of \$50 in gold and several pieces of silverware and cut glass, left on the 9:45 o'clock train for New York. They will also extend their honeymoon to Washington and Norfolk, Va., and they will be at home to their friends at 12 Oxford street, this city after Dec. 1.

CLIFFORD—LOUNSBERRY

Warren Clifford of this city and Miss Adeline Lounsberry of Kingsport, N. Y., were married last night by Rev. George C. Wright at his home in Fairview street. The couple will make their home at 78 Fort Hill avenue.

THEATRE VOYONS

The show at the Voyons for the last part of this week proves to be one of the best that has been shown at this popular theatre for some time. The management has been very fortunate in securing some of the best photo plays for the next four weeks. It would be worth your while to spend an evening at the Voyons. It is clean, cosy and comfortable. The pictures are the most refined in the city. Every afternoon next week except Saturday and Sunday from 1 to 3 every lady attending the performance will receive a valuable piece of jewelry which is on display in the lobby. Don't forget the days and the time, 1 to 3 p. m.

Whitman of New York Slated for Republican Presidential Candidate in 1916

WASHINGTON, Nov. 5.—President Wilson yesterday began his actual preparations for the 1916 presidential campaign. The president is convinced that one man will be his most dangerous republican opponent in the presidential race. He is Charles S. Whitman, governor-elect of New York.

Burlington Issues Statement Postmaster General Burleson has issued a formal statement, claiming that Tuesday's election was a sweeping endorsement of the administration.

Mr. Burleson points out that the democratic success, slight as it was, is the first in the history of the party where it has won out at the polls after revising the tariff. On only one other occasion, Mr. Burleson says, have the voters returned the party to power which revised the tariff. That was in 1905 after the passage of the Dingley act by the republicans.

Thinks Whitman the Man The factor about the Whitman presidential candidacy which worries the president most is his triumph over the personal opposition of former President Roosevelt. Whitman has tried the Roosevelt steel and he has broken it. Notwithstanding the colonel's vigorous denunciation of the governor-elect in the campaign both before and after the nominating primaries, Whitman gained strength steadily.

The White House is inclined to believe that if the republican party in 1916 must choose between Whitman and Roosevelt, it will choose the former. While, on the other hand, Roosevelt, running as a third candidate against Whitman, will not be able to attract enough votes to injure him.

NEW ORLEANS, Nov. 5.—Returns today from Tuesday's state election indicated that a constitutional amendment providing for the recall of all elective state officers except judges had been ratified.

BOTH CLAIM VICTORY

MILWAUKEE, Wis., Nov. 5.—Both Governor McGovern, republican, and Paul O. Husting, democrat, this morning still claim election as United States senator. Returns are still incomplete.

DEMOCRAT LEADING

OKLAHOMA CITY, Nov. 5.—With the settlement of congressional fights, interest today centered on the race for governorship. Both Robert L. Williams, democrat, and John Fields, republican, were making claims of victory. Returns covering virtually half of the state, showed Williams leading by about 6000.

G. O. P. WINS IN KANSAS

TOPEKA, Kan., Nov. 5.—With the returns virtually complete early today, former Senator Charles Curtis, republican, appeared to be leading in the race for United States senatorship by about 1000 votes over Representative George A. Neely, democrat. Late returns indicated the election of the entire republican state ticket.

INITIATIVE PROHIBITION LAW

SEATTLE, Wash., Nov. 5.—Outraged by the liquor traffic, Seattle voters in force today and rolled up a majority for the initiative prohibition law. The new law, effective Jan. 1, 1915, forbids sale or shipment of liquor, even in clubs, but provides that users of liquor may have limited quantities.

DON'T INJURE YOUR KIDNEYS

Take a Teaspoonful of Rheumalmit for Lame Back or Bladder Trouble

Do you occasionally have a "crick" in your back? Does your back ache with a dull, heavy, racking throbbing? Is it hard to straighten up after stooping? Is it hard to rise from a seat or to turn quickly?

If you are bothered this way, then your kidneys need attention. No doubt your blood is filled with uric acid. This irritating acid has caused your kidneys to become weak from overwork. It has made them sluggish and the liver and bowels are clogged, and the waste which should be drained from the system is retained in the blood to poison the entire body. Rheumalmit stays mysteriously and sometimes lead to Dropsy and Bright's Disease.

At the first "pain in the back" get from your drugstore about five ounces of Rheumalmit. Take two teaspoonfuls in a glass of water before breakfast each morning and in a few days your back will straighten up after stooping. It is hard to rise from a seat or to turn quickly. Rheumalmit is a wonderful effervescent fluid which helps the weakened kidneys and liver and cleans out the stomach of toxins and poisons and leaves the intestinal canal clean and sweet. It is delightful to the taste. It is an absolutely harmless uric acid solvent as well as a saline laxative. Acts quickly without griping or nausea.

If your druggist does not keep genuine Rheumalmit, remember there is nothing "just as good." Rheumalmit is prepared by the famous Rheumalmit Company, Minneapolis, Minn.

RESULTS IN OREGON

PORTLAND, Ore., Nov. 5.—Returns compiled today leave practically no doubt of any of the issues in Tuesday's election. George E. Chamberlain, democratic incumbent, was elected to the United States senate over R. A. Booth, republican, by about 15,000 plurality. It is estimated. Dr. James Withcombe, republican, will be governor. The state will send three republican representatives to congress.

EX-SENATOR KEAN DEAD

PASSED AWAY AT ELIZABETH, NEW JERSEY, AFTER A LONG ILLNESS

ELIZABETH, N. J., Nov. 5.—John Kean, former United States senator from New Jersey, died here last night after a long illness.

ROCKEFELLER IN COURT

OIL MAGNATE APPEARED AND ENTERED PLEA OF NOT GUILTY—HELD IN \$5000

NEW YORK, Nov. 5.—William Rockefeller, Standard Oil multi-millionaire, appeared today in the criminal branch of the United States district court and entered a plea of not guilty to the indictment charging him with conspiracy in connection with its acts as a former director of the New York, New Haven & Hartford R. R. Co. He was placed under \$5000 bond to insure his appearance for trial.

Mr. Rockefeller appeared to be quite feeble as he walked unsteadily from his automobile into the building. He leaned heavily on a stout cane and his personal counsel, Jno. Garver, steadied him by grasping his arm. Neither spoke until they entered the courtroom.

In a husky, wheezing whisper, audibly hardly ten feet away, Mr. Rockefeller said "Not guilty" after the clerk had asked him how he desired to plead. Mr. Garver asked and was granted until Nov. 22 in which the plea might be withdrawn or changed. A period of grace that has been allowed in the case of others of the indicted directors and former directors of the New Haven.

Of the 21 men indicted, Mr. Rockefeller was the 17th to plead. The courtroom room press of lawyers were less than a minute after Mr. Rockefeller was escorted across the hall into the office of United States Commissioner Houghton to complete the formality of giving bail. Representatives of a surety company with papers already drawn up and awaiting his signature were there before him. Mr. Rockefeller spent a few seconds in the commissioner's office and was out again in the corridor, facing a crowd of photographers and attendants who had heard of his presence in the building.

For the first time in the memory of New York newspaper photographers, Mr. Rockefeller consented to pose for a snapshot. After he stood patiently in the sunlight till the photographers had finished he was asked if he had anything to say. He shook his head and pointed to his throat. "I can't talk, boys," he whispered. Mr. Garver walked beside him to the auto and together they were driven to Mr. Rockefeller's home on Fifth avenue.

CECILIE SOON TO START

GERMAN LINER WILL SAIL FOR BOSTON AS SOON AS CAPTAIN GIVES THE ORDER

WASHINGTON, Nov. 5.—Arrangements have been completed for the convey of the German liner Kronprinzessin Cecilie from Bar Harbor to Boston by the destroyers Terry and Sterrett. She will make the trip as soon as her captain gives the order. As several German ships already were in Boston the Kronprinzessin Cecilie will be anchored in President Roads.

INJURED IN AUTO ACCIDENT

BOSTON, Nov. 5.—Mrs. Melvina Cunningham, 70 years old, was perhaps fatally injured, and her son, Hubert R. Cunningham, 45 years old, was badly injured last night, when an automobile, owned and driven by Leonard R. Armstrong of 52 Adams avenue, West Newton, collided with the buggy in which the Cunninghams were riding over Lexington street, Waltham. Mrs. Cunningham and her son were taken to their home on Winter street, where they are being attended by a local physician.

MILITARY TRENCH TOOLS

Pittsburgh Concern Gets Contract for Delivery at Iceland Port—Steel Wheels Also Ordered

PITTSBURGH, Nov. 5.—The Pittsburgh foreign trade commission announced yesterday that a local manufacturing concern has received an order from a warring European nation for 1,000,000 trenching tools to be delivered at the earliest possible moment at a port in Iceland. The tools are similar to a long handled shovel and are carried by all European soldiers in the present war. Fearing that publicity might endanger the shipments, secrecy surrounds all details of the order. Inquiries have also been received from a belligerent for bids on steel wheels for use in tank and ammunition transports and also for heavy wages. A steel wheel manufacturing company in Butler and one of McKees Rocks, near this city, have been asked to bid on the order, which is a large one.

The Returns Now Show Victories in Montana and Nebraska

CHICAGO, Nov. 5.—Woman suffrage leaders rejoiced last night when belated returns indicated that votes for women had been apparently granted in two of the seven states voting on the question in Tuesday's election, with a third state in doubt. First returns had indicated refusal of the franchise to women in all seven states concerned.

Montana and Nevada, according to the latest returns, granted votes to women, while Nebraska showed such a small vote against the approval that the women claimed the state. Missouri, Ohio and North and South Dakota refused to grant equal suffrage, the majority increasing with the size of the population concerned.

In Montana where workers of the American Woman Suffrage association made heroic effort to win the ballot, the vote was so close that the official count will be necessary to decide the outcome, but the women have a slight lead on incomplete returns. In Nevada, which seems won to the cause of equal suffrage, 105 precincts out of 240 gave 3619 votes for woman suffrage and 3508 against.

The effect of women's votes on prohibition in Tuesday's election indicated that women do not unanimously oppose saloons. The value of the woman vote on the subject in California and Washington that segregated saloons has been tabulated yet. Both these states voted for the first time on the proposition to oust saloons, and in both the vote in favor of retaining saloons was large.

The California proposed amendment would have prohibited the manufacture of wines, an important industry in the state. The severeness of the proposed law is given by leaders of the anti-saloon league as a possible reason for the defeat of the measure. The women in California probably aided in passing a law to close all resorts with women inmates. Early returns indicated that segregated quarters in California would be voted out.

In Illinois, the proportion of female to male voters in the democratic, republican and progressive parties was about the same. The women political leaders were mostly identified with the republican and progressive parties. In many precincts showed, however, that the percentage of women to men was larger in the democratic party than in the progressive.

AT ST. MARGARET'S

Meeting of Parishioners Last Evening Makes Plans and Elects Officers For Reunion

An enthusiastic and well attended meeting of the members of St. Margaret's parish was held at the rectory in Stevens street last evening, the gathering being called for the express purpose of devising plans for the forthcoming reunion of the parish on December 2nd. It was evident from the number of good suggestions which the meeting brought forth that the affair is to excite its predecessors in many respects. Rev. Charles J. Galligan, pastor, presided over the meeting and sub-committees in charge of various features were selected. As a departure from the conventional reunion idea it was voted to hold a costume party in connection therewith, suitable prizes being offered. The judges selected for the costume features are Misses Mabel Haggerty and Miss Grace McElroy, and Wm. W. Murphy, Peter F. Cennato and Thomas Henry. On the refreshment and tea committee were chosen Mrs. Margaret Hennessy, Mrs. John M. Murphy, Mrs. John Cunningham and Miss Kathleen Driscoll. In charge of the dramatic feature will be Miss Alice T. Lee and Mr. James B. Coughlin.

The officers of the reunion were chosen as follows: General manager, Hon. James B. Casey; assistant, Wm. P. Hennessy; floor marshal, C. Rufus Flood; assistant, Fred Burns. Another meeting of the various committees will be held at a later date.

AVIATORS FALL 40 FEET

SAN DIEGO, Cal., Nov. 5.—Captain L. E. Goddeer, Jr., of the aviation corps was perhaps fatally injured and Glen Martin, another aviator was seriously hurt today in a fall of about 40 feet. The accident occurred near the army aviation camp on North Island across the bay from San Diego. The two aviators were in Martin's machine.

SON-IN-LAW SOUGHT BY POSSE OF SHERIFFS IN ANDOVER, VT.

ANDOVER, Vt., Nov. 5.—Henry P. Wiggins, a wealthy farmer, and his wife were murdered at their home in the village of Simonsville yesterday. Their bodies bearing bullet wounds, were found last night, half hidden in the shed and barn on the Wiggins farm. The authorities last night were searching for George Warner, a son-in-law of Wiggins, and the last person known to have visited their home. Warner's wife recently began suit for divorce, alleging abuse. Yesterday Warner went to the Simonsville post-office, of which Mrs. Warner is postmistress, and his wife charged that he assaulted her. Then Warner went to the Wiggins farm, a mile from the village, and told his wife's parents of the affair. Mr. Wiggins shortly afterward went to the post-office to see his daughter. He was last seen while on the way home late in the day. Early last evening Ramsdell Amason, another son-in-law of Wiggins, heard the Wiggins telephone ringing and thought being on the same party line, he listened to learn whether they answered. Hearing no reply, he became suspicious and went to the Wiggins home. He could find no trace of the couple. Amason told the neighbors and a search was begun. After a while Mrs. Wiggins' body, with two bullet wounds in the head, was found half-hidden in the woodshed. An hour later, the searchers discovered Mr. Wiggins' body under a pile of straw in a stall in the barn. He also had been shot. A window in the house was broken and apparently two bullets had passed through it. The authorities at once tried to locate Warner, but late last night they had been unsuccessful.

\$30,000 FIRE IN QUEBEC

FIRE IN SHOE FACTORY THREATENS ENTIRE MANUFACTURING SECTION OF CITY

QUEBEC, Nov. 5.—Fire in the factory of Gale Bros., shoe manufacturers, menaced the entire factory section of Quebec this forenoon and brought all the fire fighting apparatus in the city to the scene. The flames were quickly quelled. Four hundred workmen in the factory escaped, although for a time it was feared that many would be cut off by the flames. The damage will approximate \$30,000.

CASE OF McEWAN VS. BROWN

In the case of Ella M. McEwan vs. Ellen F. Brown, a suit for personal injuries, and the related case of John McEwan vs. Ellen F. Brown, tried in the superior court before Judge McLoughlin, the court ordered the jury to return a finding for the defendant this morning. The defendant was sued for the sums of \$5000 and \$2000 respectively, but the judge ruled that a case had not been presented. Lawyers Bennett Silverblatt and W. D. Regan appeared for the plaintiffs; John J. Harvey and Frank Goldman appeared for the defendant.

WRIGHT IS UNOPPOSED WILL FIGHT TO DEATH

WORCESTER MAYOR ONLY REPUBLICAN CANDIDATE FOR NOMINATION

WORCESTER, Nov. 5.—Time for filing nomination papers for the republican municipal caucuses expired yesterday and the papers filed show that Mayor Wright is unopposed for nomination for a third term.

Alderman Fehr G. Holmes, who now represents ward 6 in the upper board, is unopposed for the nomination as alderman-at-large. There are no contestants in the aldermanic nomination, but for councilman there are contests in wards 1, 2, 3, 7 and 9.

The candidates who filed papers are: For alderman, ward 1, John G. Johnson; ward 2, Albert I. Johnson; ward 3, Alphonse Ducharme; wards 4 and 5, no nomination; ward 6, Christian Nelson; ward 7, Arthur T. Squires; ward 8, John B. Chase; ward 9, Alfred M. Van Dusen; ward 10, Daniel Waldo Lincoln.

For common council—Ward 1, Philip H. Duprey and Fred H. Daniels, Jr.; ward 2, Lester P. Clark and Michael J. O'Hara; ward 3, Theodore A. Buren and J. Simeon Forges; wards 4 and 5, no nomination; ward 6, Walter W. Lasser and Carl J. Rolander; ward 7, John C. Ware, Wm. A. Kenner and Frederick S. Clark; ward 8, Frank L. Ham; ward 9, Albert H. Moss, Louis M. Friedman, Chas. B. Rugg; ward 10, Harry A. Cooke.

For School Committee—Ward 1, Emily F. Foster and Harry O. Anderson; ward 2, Edw. W. Wilber; ward 3, Joseph Vincello; wards 4 and 5, no nomination; ward 6, Walter J. Cooke; ward 7, Louis B. Bragg; ward 8, Chas. H. Johnson; ward 9, Henry E. Dean; ward 10, Chas. B. Elder.

SUPPER AND ENTERTAINMENT
The regular monthly supper and entertainment of the Pawtucket Congregational church was held last evening in the church vestry.

Mrs. G. C. Hatch was chairman of the supper committee and the entertainment was in charge of Mr. and Mrs. L. A. Ayer, with Miss Marion Martin, director. The entertainment was furnished by several young women from the Grace Universalist church who presented "Scenes from the Cabbage Patch," taken from the story, "Mrs. Wiggs of the Cabbage Patch." A Sunday school class of the Pawtucket church also assisted in the program. Edith Miles, Carlina Bartlett, John Weinbeck and Joseph Coburn, Jr. All the parts were well taken. The young women from the Grace church were the following: Misses Marion Martin, Leslie Pullen, Hazel Weinbeck, Mildred Leeds, Dorothy Leeds and Beris Childs. Home made candy was sold at a table in charge of the Sunday school class of Miss Margaret Seaton.

MEN OF ROUND TABLE
The Men of the Round Table of the First Baptist church met last evening in the church vestry and, after discussing an excellent menu prepared by the Ladies' Benevolent society, assisted by the Sigma Xi club, President Harry G. Ballard called to order and gave a very interesting talk on the prospects, possibilities and privileges of the organization. He appointed various committees on the reception to Rev. Mr. Archibald and family, to be held on a date to be selected. Five minutes' singing in the work of the organization were made by Messrs. P. A. Bowen, F. J. Flemings, G. H. Taylor, W. T. Sheppard and A. G. Walsh.

"Personally Conducted" Trips to California Combine Comfort and Economy

Of course you have planned to take a California trip sometime, but possibly you have been waiting until you thought you could better afford it. If that is the case, I have some good news for you.

Our Personally Conducted Parties to California are especially planned to meet just what you need. Our patrons travel on extra low fare tickets and have comfortable quarters in clean and attractive Pullman Tourist sleeping cars. Your pleasure is looked after all the way by a chosen representative of the "Burlington Route" whose first duty is to relieve you of care and detail, make you feel at home and point out and explain each of the thousands of points of interest along the way.

The cost of it all is surprisingly low. If you will write, or drop in at the office and see me, I will be glad to explain every detail of the famous "Personally Conducted" parties to California. Stock News Editor, Passenger Agent, C. B. & Q. R. R., 264 Washington St.

LOWELL CO-OPERATIVE BANK

A special meeting of the shareholders of the Lowell Co-operative Bank will be held Friday evening, November 13, 1914, in room 83 Central Block, 33 Central street, Lowell, Mass., at 7:30 o'clock, to consider proposed amendments to the by-laws which will be presented at the meeting.

WILLIAM D. BROWN, Clerk.

CARRANZA ASKS ONLY SUPPORT OF ANY PART OF ARMY—OTHERWISE HE WILL LEAVE MEXICO

SAN ANTONIO, Tex., Nov. 5.—"If all the chiefs of the constitutional army abandon me I will abandon my native land, but if on the other hand, any part of them sustain and uphold me, we will fight until death."

These are the defiant words with which Gen. Carranza is credited in a statement given out at the Mexican consulate here after the receipt of a telegram from Puebla late yesterday. The statement said that Carranza issued the following relative to the action of the delegates at Aguascalientes: "These valiant generals have made effective a resignation that has never been presented or forwarded by me and which I have never presented, and they have even gone so far as to appoint a president."

By this last act they have fallen into a trap prepared for them by some of the Madero congressmen. It was these men who were responsible to a great extent for the overthrow of the democratic government of the Apostolic Madero and these same men are now causing more trouble for the nation through their intrigues and ambitions.

CARRANZA ARCHIVES AT PUEBLA

EL PASO, Tex., Nov. 5.—The constitutional provisional government, with its cabinet members and archives, was moved yesterday to Puebla, where Gen. Carranza has been for several days said an official report received yesterday from Mexico City. The cause of the change of the government seat was not given.

CITY ELECTIONS REGISTRATION

Yesterday was the first day of registration for the city elections and 32 men and 14 women registered at the registrars' office at city hall. The registrars, by wards, was as follows: Men: Ward 1, nine; ward 2, one; ward 3, four; ward 4, one; ward 5, one; ward 6, five; ward 7, four; ward 8, two; ward 9, five; women: ward 1, one; ward 2, one; ward 3, two; ward 4, none; ward 5, one; ward 6, one; ward 7, none; ward 8, two; ward 9, six.

The office will be open today from 1 to 2 and from 7 to 9 p. m.

CITIZENS-AMERICANS

A largely attended meeting of the Citizens-Americans club was held last night at the quarters in Middle street with President Maxime Lepine in the chair. Four new members were initiated and considerable business was transacted.

A delegation from the Cercle Montcalm in Lawrence, consisting of E. J. Lamotte, Daniel Touchette, William St. Pierre was present and the new members were initiated in a whist tournament for a silver trophy. The challenge was accepted and it was decided to form a team composed of 30 of the best whist players, the first meet to take place two weeks from this evening. The Lowell delegation will go to Lawrence and then a return visit will be paid by the Lawrence men.

OFFICERS ELECTED

At a recent meeting of the Women's Research club the following officers were elected for the ensuing year: President, Mrs. Cyrus Barton; vice president, Mrs. Robert Fulton; secretary, Mrs. Ernest Livingston; recording secretary, Mrs. John Simpson; Mrs. Herbert Grover will be in charge of the flower money. Mrs. John J. Cluin, retiring president and Mrs. Frank Hoyt, retiring vice president, were presented beautiful bouquets of pink.

ENTERTAINED SOLDIERS

The Lowell, Lawrence and Haverhill tents, Daughters of Veterans, presented the following program at the Soldiers' Home in Chelsea, Tuesday afternoon:

Piano selection, Mrs. Esterbrook of Haverhill; reading, Mrs. Nora Whitmore Cary of Lawrence; piano solo, Miss Mary Frances Cary of Lawrence; reading, Mrs. Mary Guyette of Lowell; piano solo, Miss Simpson of Lowell; reading, Miss Mary Frances Cary of Lawrence; chorus of patriotic songs, the veterans; piano selections, Miss Esterbrook of Haverhill.

BOARD OF TRADE

Continued.

peace conference, and he said he returned immediately to London, where he remained until the end of August, keeping in touch with many important circles. When he saw he could not gain there he went to Germany to confer with many leading men of various political thoughts in order to understand more clearly the German point of view. During the summer he was also in touch with leading international workers in France, Belgium and Holland.

Mr. Mead spoke of Servia having been bullied by Austria for 20 years and he said:

INDUSTRIAL AND STORE NEWS

All up for the Woodlows' huckling bee and dancing party tomorrow night.

The basketball team of giants managed by Michael Wienn will play their second game Friday evening.

Miss Anna O'Donnell of the Ipswich Hospital has returned from a visit to relatives in Natick.

The smoke talk held under the auspices of the Leather Workers' union was a very enjoyable affair.

Mr. Ernest Goetting of the Putnam & Son clothing store is having a new boiler installed in his residence.

Miss Katherine Haley of the Helms Electric Co. has returned from a delightful two weeks' sojourn at Lewiston, Me.

Benjamin Golden, president of Carpenters' union, local 42, is one of the hardest working union officials in the city.

It is said that the municipal candidate who spoke at a local mill gate yesterday got a frosty reception despite the mild weather.

The dance held by the "Hicks" Tuesday evening was a complete success for the simple reason that gliding dancing was done nearly exclusively.

The A. G. Pollard Employees Mutual Benefit association will hold its annual banquet and theatre party tonight.

"Kid" Kneafsey of the B. & M. car shops has entered five contestants in the prize glide walk at the Butters dance at Lincoln hall Friday evening.

Miss Lena Marshall of the U. S. Cartridge Co. has returned after spending an enjoyable two weeks' vacation in Burlington, Vt.

Fred Smith, employed at his trade as a plumber is rejoicing over the fact that Attleboro has voted to become a city.

Hector Lamontagne of the J. L. Chaffin store, formerly in the elevator department is now running the elevator. Going up?

Sheehan's orchestra will play tomorrow evening at the dance to be held in A. O. H. hall. James Sheehan, the new pianist, has taken the place of the late George Sheehan.

Walter Lyons of the Hamilton Mfg. Co. and Henry Dowd of the Lamson Store Service Co. will journey to Grand Rapids, Mich., in quest of pheasants, partridges and other small game, said to abound in that vicinity.

Mr. Samuel Whitlock of the Lowell Bleachery is out to break records in bowling this season, and with a view to doing so is putting in a lot of hard work on the various alleys nightly.

Mr. Michael Lawn, formerly employed at the Bigelow Carpet Co., and now connected with a carpet firm in Boston, is in the city on business and is expected to remain here three weeks.

Organizer Edmund Sicaud of the United Textile Workers left Lowell yesterday afternoon for Maynard where he will resume his organizing duties.

Organizer Daniel E. Whalen of the Boot & Shoe Workers reports the condition of the shoe workers in this city as fair with lots of opportunity for betterment.

John King of the Harry Shoe Co. has announced his intention of entering the bowling game and from now on he'll bear watching. John's a terror when he gets started.

The Painters' union will hold an important meeting tonight in the union headquarters in the Rutland building and all members are requested to attend.

Tonight will be the regular meeting night for the Machinists' union and business of much importance will come up for transaction. Business Agent Ross Hall of Lynn will likely be in attendance.

In the bowling match between the players and machinists of the Mass. mill held last Tuesday night on the Los Miserables alleys the latter team won out by a close margin. Dave Thomas, captain of the machinists, rolled a very steady game, and his encouragement to the other members of the team was in no small way responsible for the victory. John Moran explained the Pipers and put up a good score. Both teams were ably represented by followers, who brought cowbells, bells, clappers and in fact everything to produce noise. They enjoyed the game fully as well as the participants.

Carpenters' Union Held Meeting. The Carpenters' union, local 1610, held its regular meeting last night in the union headquarters in the Rutland building with an exceptionally large number of members in attendance. A list of important business was transacted and three new members were admitted. Several applications for membership were also received. Committee reports were accepted as read and a stack of communications from various sources were properly referred to the secretary for disposal. Business Agent Michael A. Lee submitted a progressive report on the accomplishments of the union and several members spoke interestingly on the good of the union. The secretary's report showed that he is in an excellent condition financially and numerically.

Wave of Economy. Few realize what a wave of economy is sweeping over this country and the effect it may have on the amount of new available investment capital. It is unquestionably true that never before in the history of this country has there been such a widespread movement of economy, which extends not only to personal expenditures but also to the expenditures of corporations and business houses generally. Following the panic of 1893 there ensued a general movement of economy. This economy, however, differed radically from that which we are witnessing at the present time. The panic of 1893 was followed by general industrial prostration and a large percentage of unemployed in every line of industry. Still the economy of that period lasted within a few years in the greatest accumulation of investment capital we have ever seen and a general upward movement of the prices of securities which continued uninterrupted for nearly ten years.

The economic and industrial conditions at the present time are not to

be compared with those following the panic of 1893. Aside from certain industries and businesses which have been especially affected there is employment through the country. The wave of economy, therefore, means a much more enormous and rapid accumulation of capital than ever occurred before.

The economic losses resulting from wars are usually exaggerated, as shown by the industrial conditions which exist when peace is restored. It is estimated that the European war is costing as high as \$50,000,000 a day. This is, of course, a huge sum. But you must remember that you are dealing with huge figures all around. The population of the nation directly engaged by the European war is over 300,000,000. An average saving of only 16 cents a day for this number of persons would amount to over \$50,000,000 a day. It should also be remembered that the destruction of battleships, forts, gunpowder, etc., is not a new loss of capital, but a loss of capital before the war started, and the loss of capital occurred when these articles of war were constructed and manufactured during times of peace. In fact, the greatest losses of capital and economic wastes occur during times of prosperity, whereas capital is accumulated during periods of depression.

In addition to the wave of economy there is the wonderful outburst of individual enterprise that invariably follows a war. Explain it in whatever way you please, it is nevertheless a fact that the greatest efforts, the greatest energy, the greatest ingenuity invariably immediately follow a great war. It is this combination of conditions which probably explains the rapidity with which people often recover from the devastating effects of war. The world moves by tides, not by waves—fierce as the latter may seem as they strike one. And according to the tides should one's judgments be made. No one familiar with the sound industrial and economic structure of this country can believe that the high tide of this country's prosperity has been reached—American Wool and Cotton Reporter.

General Labor News

Half of the industrial capital in British Columbia is invested in the lumbering and woodworking business; half the payroll of the province is derived from the forests.

There are about 17,000 men now engaged in construction work on the new station subway and elevated railroad contracts in New York city.

Union barbers in St. Paul are rejoicing over the vigorous enforcement of the Sunday closing law for their craft which the police authorities have inaugurated.

There are now minimum wage laws in nine states—California, Colorado, Massachusetts, Minnesota, Nebraska, Oregon, Utah, Washington and Wisconsin.

The number of persons engaged in the manufacture of earthenware, china and porcelain in England and Wales in 1911 was 62,883.

Machinists have signed a one-year agreement with the United Metal Steel company of Boston, which provides for an eight-hour day and a minimum wage rate of \$16.00.

Private dressmakers in New York city are working out the new demands to be submitted to the bosses. The agreements are to be submitted to the employers shortly.

It is three years and a half since the bootmakers of Jackson, Miss., went on strike against piecework, and during that time not a single member of the local union has become a backslider.

In the 34th annual convention of the American Federation of Labor Samuel Gompers will probably be continued in the estimation of trades union workers by another election.

Organized labor of New York is vigorously protesting against cataloging employees by the means of the Bertillon finger-print system for the use of industrial insurance companies.

In Paris, France, the unemployed are receiving assistance of a centimes (20 cents) daily, with 50 centimes (10 cents extra) for each child. This is costing the city 9,000,000 francs monthly.

National and state administrations of labor in Australia not only promise but practically apply their socialistic program to pull the teeth of profit-mongering interests and to benefit the masses of the people.

It has been estimated that during the present year 1,248,000 factory workers in Russia have already participated in strikes, in addition to 215,000 others who are employed in establishments not under the factory act.

More than 1000 delegates from all sections of the country, representing every department of organized labor, will assemble at Philadelphia on Nov. 9 to attend the 34th convention of the American Federation of Labor.

In the government printing office proofreaders, make-up men, linotype and monotype operators, stereotypers, electrotypers and pressmen get 60 cents per hour.

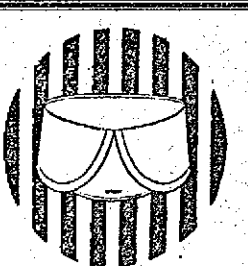

According to the government census, in 1850 there was only one woman employed to every 10 men in New York city. Now the ratio is one to every four.

The Hospital Nurses and Attendants' union, consisting of employees of the state institution in Kankakee, Ill., is chartered by the American Federation of Labor.

More than 30,000 notices of injuries are now on file with the New York Workmen's Compensation commission. About \$50,000 has been paid in injured workmen in the 10 weeks since the commission got down to work.

At the close of its fiscal year the International Typographical union had 1200 members on its pension roll and had distributed in old-age pensions since the establishment of the fund more than a million and a half dollars.

A municipal program for American cities has been drafted by a committee.

of the National Municipal League's convention, in Baltimore, November 18.

Medical factory inspection is still an undeveloped field, England and Belgium being the only countries having separate medical divisions, and even there the number of physicians is small.

Galveston (Texas) labor council has headed a movement for the purpose of providing ways and means for furnishing school books to the children in that city whose parents are unable to buy them.

The war crisis is having a serious effect on the coal mining industry about the Falkirk districts. Many pits have been closed at Dennyloanhead, Stannerman, Maddeston and Shieldhill, and a large number of men are thrown idle.

THE O. V. A. CLUB

The monthly business meeting of the O. V. A. club of the Fifth Street Baptist church was held last evening at the home of Miss Elizabeth Johnson in Bridge street. Following the routine business a pleasant evening was spent in singing. Refreshments were served by the hostess.

PROGRESSIVE SLUMP

The one fact that stands out prominently from the Massachusetts political situation, as revealed by the recent elections, is the total failure of the progressives as a political party. They are scattered beyond redemption and it is doubtful if they can hold together, even nominally, until the next state election. The pitiable 27,000 left from the 127,000 of last year will in all probability look around to see which party banner they may line up under, consistent with their once strongly-expressed political principles. Even the magic voice of their mighty founder is silenced and resounding speeches will be powerless to effect a political resurrection.

To what has this disintegration been due? To many things, chief of which was the domination of the party by a few personalities, instead of by principles. Nationally it was the party of Roosevelt, locally it was the party of Bird, and with the growing suspicion of Roosevelt indifference and the elimination of Bird from the political arena, their following fell off. No man or group of men may hold a party to its allegiance. If the party be not greater than the individual it cannot long exist. Another factor that brought disorganization to the progressives was their proclivity to put vote-baiting before aught else. Any and every reform that even remotely bore the imprint of reform or progress was seized upon and in the end the party was a jumble of unrelated and discordant elements. The stealing of the prohibition plank was the last enormity, which helped the avalanche along.

Most of the progressives who became "regular" during the last election went back under the republican banner, thus making light of their former vehemence against republican machine rule and standpat policies. There is little progressiveness in the election of Cannon, or Penrose, or Wadsworth or of the other republicans who represent the things that the progressives were formed to fight. The battle of Armageddon has ended in an undignified retreat, and the progressive who voted for republican candidates, need not try to reconcile his desertion with his former declarations; he cannot make it appear logical.

Not so with those former progressives who voted for Walsh. Realizing the coming disintegration of their party they cast their vote for the party that has stood for progress in recent years, and that pledged itself to progress while in power. The democratic party has still two years to make good, and in that time a reaction may set in against renewed republican rule. That the influence of the progressives as a unit will count for little in future seems to be certain, but they may be yet heard from in another direction. Should the chief bull moose of them all issue a last despairing cry, there might be still a feeble rally to the appeal, but that is not likely. National circles will reveal in 1916 whether the progressives are as dead as they appear to be at present.

The loss of democratic seats in congress with some other defections noted in Tuesday's elections in various states is the result of the progressive slump and a sort of reaction that usually follows the party successful two years before in a presidential election. It is not in any sense a condemnation of the Wilson administration.

TENEMENT OWNERS BLAMED

There was no beating about the bush in the speech of Ralph Cram, an architect and member of the Boston city planning board when he declared at a meeting of the Massachusetts Federation of Progressive Women on Tuesday that tenement owners are responsible for many of the unsanitary, immoral and generally undesirable conditions that exist in congested communities. "Bad tenements make bad citizens," he said. "They can make in six months the work of six years' public schooling. The conditions in the North, West and South ends preclude citizenship."

The ordinary critic who has little sympathy for the immigrant goes through the crowded sections of Boston or of Lowell and blames the dwellers therein for most of the evidences of carelessness and indifference. He does not generally stop to consider that the squalid surroundings offer little incentive for personal or civic cleanliness. Too often these surroundings are due to the almost criminal carelessness of some tenement owner who is getting good returns for the small amount of money invested and who has no interest in the buildings or those who live in them other than the interest of rent collecting. Yet the selfish profit of the individual is the loss of the community as well as of those who are compelled to live in unhealthy and unlovely surroundings.

As summed up by the member of the Boston board: "The average man can pay only one week's wages, perhaps under \$20, for a month's rent. Tenement owners are making 15 and 20 per cent profit on providing him with quarters crowded and unsanitary." He advocates a law to permit a city to acquire available land and to erect on it good tenements for its citizens. Washington has such a law, he says. A law to this effect is scarcely necessary as the public would demand better working conditions for the masses if the great need for them was appreciated. With more desirable tenements it would scarcely be necessary to have so many health conferences and agitation such as that started in this city recently to fight tuberculosis.

Tenement dwellers will not in all cases respond automatically to the efforts of those who would improve their condition, but many interests waste efforts to better their lot while ramshackle buildings without sufficient light, air or space are permitted to stand in the hearts of our cities. In all directions around Lowell are thriving little farms managed by immigrants who for a time lived the congested and filthy life of the slums. The change has meant wonders for them and the city is benefiting indi-

rectly. It is impossible that all who live in undesirable buildings should become farmers, but there is room for hundreds in some of the suburbs, away from the overcrowded alleys of the heart of the city. Meanwhile, the housing situation would be solved sooner if some of the well-meant energy directed to the tenement dwellers were directed to the tenement owners who permit human beings to live like bees in a hive, because the financial returns are so satisfactory. We need more public critics with the courage, intelligence and human sympathy of Ralph Cram of Boston.

NEW HAVEN INDICTMENTS

The indictment of a score of directors of the New Haven railroad, under the terms of the Sherman anti-trust law, may not amount to anything tangible, but it is the logical continuation of the attitude taken by the state and federal governments. If it is wrong, then the entire drive against past New Haven management was wrong from the start and the monopolistic corporation should be today extricating itself from the self-sought quagmire of financial perplexity, without interference. That the Massachusetts public was averse to the management of the New Haven at that time was demonstrated over and over. If the public be consistent, then, how can it be averse to the latest move of the federal authorities?

Unfortunately the law under which so many notables have been brought to an accounting does not go far enough to demonstrate its effectiveness or to enable one to forecast the result. The point at issue will be merely to decide if the directors are personally responsible for forming a combination in restraint of trade, or whether they are innocent of the charge. That in bringing about this combination the money of the stockholders was wasted like water and that business was hurt as a consequence will not figure in the result. The trust or combination aspect of the matter is the all important one—and the government has never yet achieved a notable victory in trying cases where alleged trust activity is involved. It seems certain, therefore, despite the principle involved, that the indictment will come to naught.

If the government needed justification for its action it would find it in TRY THIS FOR YOUR COUGH. Thousands of people keep coughing because unable to get the right remedy. Coughs are caused by inflammation of Throat and Bronchial Tubes. When you need a cough remedy, get a bottle of Dr. King's New Discovery. It penetrates the delicate mucous lining, raises the phlegm and quickly relieves the congested membranes. Get a bottle from your druggist. "Dr. King's New Discovery" quickly and completely stopped my cough," writes J. B. Waite, Pleasanton, Texas. Money back if not satisfied, but it nearly always helps.

the accusations of the public, in the finding of the Interstate commerce commission, in the admissions of past President Mellen and in the virtual confession of New Haven officials. It does not, however, need any justification; the errors of New Haven management have been long and demonstrated fully. The public will watch the case with unusual interest, realizing that it establishes a new record for anti-trust activity. Needless to say, failure to convict may be due as much to the ineffectiveness of the law as to the innocence of the accused.

CHILD SAFETY

A review of accidents to children in Boston for the month of October shows that in spite of safety first campaigns and the constant agitation, there were 25 accidents within the first three weeks or so, eight of which were fatal. Many of the accidents were avoidable and most of them were due to the natural carelessness of children who played in the public streets. So common have such occurrences become that they arouse but little interest as news items, but were the eight white hearses placed in a row, followed by the maimed and seriously injured seventeen, the public would have some idea of the misery, lasting pain and heavy expense that follow accidents to children.

Five of the fatal accidents were due to the automobile, and one each was caused by the trolley, the railroad train and the wagon. Six of the eight children were less than 8 years old, one being only 3. Twenty-three out of the twenty-five were girls. Three of the accidents were due to the riding habit but most of them were due to carelessness on the part of children on the street or ignorance of the rules of traffic.

This list may be unusually large, even for Boston, but the observant citizen will not wonder, though his observation be confined to Lowell, for in this city children play commonly on the streets without any realization of the danger they incur. Over and over again The Sun has called the attention of parents and teachers to the necessity for instructing children in the elementary rules of juvenile safety but such instruction is not given, or, if given, is generally disregarded. So long as the tragedies that happen from time to time do not come home to us we are apt to be more or less indifferent, but a list such as that of Boston shows the appalling toll of dead and

maimed yearly as the result of childish ignorance.

RED CROSS NURSES

One of the inspiring results of the war is the readiness with which noble women of all nations have volunteered their services for the Red Cross, not in a burst of emotion but as a calm expression of what they considered their duty. The rules of the society bar any that are too young to realize the sacrifices involved or the efforts required and therefore practically all who respond to the call of the Red Cross are scientifically trained and well poised women who give their service without thought of material gain or selfishness. In the hospitals of Europe, Sisters of Charity work side by side with women of America, of England, of France, of Germany and of other nations, the inspiration of each being too lofty for any thought of narrow patriotism. The world of the suffering is their country and all who need their care receive it, be they on the side of the Germans or of the allies. In other wars the Red Cross nurses followed close on the battle, often going on the corpse-strewn field, but today but few of them see actual fighting. Scientific care of the wounded has advanced wonderfully and soldiers are treated in up-to-date hospitals with modern appliances. Still, the glory of the Red Cross nurse has not dimmed, and she is entitled to all the honor that crowns unselfishness and devotion to duty in its highest sense.

Still England is tantalized by German naval tactics. Instead of coming out in the open and risking a drawn conflict, German ships and submarines stay under cover until they can steal out and give a telling blow in safety. In this way the naval story of the war seems to be on the side of Germany. The latest strokes near the English coast and in Pacific waters must make England look forward still anxiously to the day of vengeance on the seas.

The slaughter of the pheasants is slight indeed as compared with the disappearance of one hundred thousand bull moose from Massachusetts.

Among those who are glad that the state elections are over are our local notables who have been preparing steel speeches for some time past.

Of course you had it figured out just right.

"BLOOD WILL TELL"

The Heroes of the War.

"Blood will tell," is an axiom that in all the ages has never been gainsaid. Every man who does a brave, heroic act carries within his veins a quality of blood that urges and sustains him. No matter whether he inherits it from a long line of famous ancestors or from the sound and healthy constitution of his immediate parents, whose only distinction is honorable toil and a simple, virtuous life.

It matters little where or how you obtain it, but it matters all the world that by some means you possess good blood. Good blood is first, last and always the making of many men and womanly women. It is the source of all courage, virtue and happiness. A new man can be made out of one that's "used-up," bilious and dyspeptic. It's done by Dr. Pierce's Golden Medical Discovery. It starts the torpid liver into healthful action, purifies and enriches the blood, cleanses, repairs, and strengthens the system, and restores health and vigor. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, and builds up flesh and strength. It's the only Blood and Liver Remedy that's guaranteed, in every case, to benefit or cure. If it doesn't do all that's claimed for it, the money is promptly refunded. But it keeps its promises—that's the reason it can be sold in this way.

It is not a secret remedy for its ingredients are printed on wrapper. You only pay for the good you get. "Discovery" strengthens. Weak Lungs, relieves Shortness of Breath, Bronchitis, Severe Coughs and kindred affections. FREE—Dr. Pierce's Common Sense Medical Adviser, bound in cloth, is sent free on receipt of 31 one-cent stamps to pay expense of wrapping and mailing only. Address: Doctor Pierce, Invalids' Hotel, Buffalo, N. Y.

a higher standard than we set for ourselves. Forgetting that you can't make a silk purse out of a sow's ear, the stupidest and ugliest failures of parents expect their sons and daughters to grow up miracles of beauty, intelligence and success.

The speaker was Wilton Lackaye, the occasion the Lambs' gambol in New York. He continued: "Sometimes, though, such parents are called sharply to themselves. The job is unpleasant. 'A father said to his pretty daughter one evening with a scornful, angry laugh: 'That young Jameson has the face to want to marry you. A mere book-keeper!'

"But, father," said the girl, 'I love Mr. Jameson. What is your objection to our marriage?' 'Why,' roared the old man, 'why, he couldn't support you decently.' 'But, father,' said the girl, 'neither can you.'—Exchange.

TAKING A LETTER TO JONES

Many a man who complains of the stupidity and lack of interest shown by his stenographers gives his dictation about like this:

"Take a letter to Jones. I'll give you the address later. John Jones—Dear Sir: Replying to your letter of the 10th, we think you are mistaken about this order. As you said in your previous letter—where in thunder is that letter? It's very funny nothing is ever around when I want it. I can't go to the file every time I want a letter. All right, I've got it in your previous letter of the 5th. You said you wanted this order hurried at any cost. Therefore we shipped as you directed. If the order did not reach you in good condition—no, scratch that out—if the goods reached you as you say—scratch that out—We cannot be responsible for goods—scratch that out. What did I say last?—Having shipped the goods as you directed, we do not feel responsible for the condition in which they reached you. Paragraph. In a case like this, it hardly seems as if you could expect (long pause)—period. Read over what you have there. O Lord, I can't send any such mess as that. You don't want to get my ideas at all. Here, add this on to the next to the last paragraph—We think you will see from this that your position is unreasonable. You have our final decision and we cannot alter it in any way. Trusting that this is plain to you, we are—Make two carbons of this and send one to the Philadelphia office and don't miss it up any more than you can help."—Truth.

THE MISSUS

Who is it clears life's paths for me? The Missus.
Who's blind to faults that others see? The Missus.
Who always greets me at the door When each day's bit of work is o'er? V'ho laughs at jests she's heard before? The Missus.

Who puts the buttons in my shirts? The Missus.
Who smiles at disappointment's hurts? The Missus.

Who when the children wake at night sets up to see that they're all right? And leaves me snugly sleeping tight? The Missus.

Who fills the house with mirth and song? The Missus.
Who bravely smiles when things go wrong? The Missus.

Who knows the very worst of me And yet forgives me all I do to see? Who labors most ungrudgingly? The Missus.

Who makes the home a gracious spot? The Missus.
Who never whimpers at her lot? The Missus.

Who fills with sunshine every day, Drives all the clouds of care away? Who gets but very meagre pay? The Missus.

—Edgar A. Guest.

WHAT HIT HIM

Many queer things happen in war time. There is a story which is today repeated in Highland troops of a funny incident that befell one Johnny Ross of the 93d Sutherland Highlanders at Lucknow, in India, during the great mutiny.

Before falling in for the assault on the Begum's palace Johnny Ross and George Puller, with some others, had been playing cards in a sheltered corner, and in some way quarreled over the game. They were still arguing the point when the signal was given to fall in, and Puller told Ross to "shut up."

At that moment a spent bullet struck Ross in the mouth and knocked out four of his teeth. Johnny thought it was Puller who had struck him, and at once returned the blow.

"You fool!" said Puller. "It wasn't I that struck you. You've got a bullet in your mouth!"

And so it was. Ross put his hand to his lips and spat into it four front teeth and a bullet. He at once apologized to Puller for having struck him,

RUSSIANS ROUTED TURKISH TROOPS

PETROGRAD, Nov. 5.—The following official communication has been received from the Russian general staff:

"In Caucasus one of our columns suddenly attacked the enemy near Argost, 15 miles south of Kars, near the boundary of Turkish Armenia. The Turks fled, abandoning their wounded."

"Having dislodged the Turks from the village of Id (about 60 miles west of Argost) over the line into Turkish Armenia, we took a great quantity of food. After a violent combat our troops seized Khorsan (in Turkish Armenia, 30 miles southeast of Id) and Col-Karaderebent. One hundred Cossacks attacked the trenches of the enemy and sabred the Turkish infantry. One of our columns having passed through difficult roads for a distance of 35 miles in 30 hours encountered the Turks at Mysouno and Dyadin (about 30 miles west of Bayazid, which is the capital of Sanjak of Bayazid) we dispersed a large body of Kurds and occupied Dyadin, where we took munitions of war and many prisoners. Nov. 3 we occupied Bayazid, where we routed the Turkish troops, who resisted strongly."

LONDON, Nov. 5.—The German armored cruisers Scharnhorst and Gneisenau and the light cruiser Niernburg steamed away from Valparaiso at noon on Wednesday, according to a despatch to the Reuters Telegram Co. from Santiago, Chile.

SAYS TURKISH OFFICIALS IGNORE ANTI OF FLEET'S ATTACK ON BLACK SEA

LONDON, Nov. 5.—A despatch to the Times from Dedeagatch, a seaport of European Turkey, dated Monday, affirms that some members of the Turkish government were quite ignorant of the Turkish fleet's attack on Black sea ports two hours after foreigners were aware of it. On hearing the news the grand vizier, Prince Said Halim fell ill and resigned. On Friday morning last the Russian ambassador, unable to see the grand vizier owing to his illness, asked for his passports.

PAPE'S DIAPEPSIN FOR INDIGESTION OR BAD STOMACH

Relieves Sourness, Gas, Heartburn, Dyspepsia in Five Minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually. Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.

MURDERERS MUST DIE

PEOPLE OF ARIZONA DECIDE FATE OF BY VOTING AGAINST ABOLITION OF CAPITAL PUNISHMENT

PHOENIX, Ariz., While voting their state day in the election yesterday, the men and women of Arizona sentenced to death 15 condemned murderers who have been held in the Florence penitentiary under reprieve, pending the vote on the proposal to abolish capital punishment.

The proposal to limit railroad passenger fares to three cents per mile was approved. All other propositions were defeated.

Fred C. Church held the insurance on the building and contents of Michael Anzora, \$3100 Suffolk street, damaged by fire last night.

ENDORSEMENT OF WILSON

SEN. STONE SAYS HE WIRED PRESIDENT ELECTION SHOWS APPROVAL OF HIS POLICIES

ST. LOUIS, Nov. 5.—Senator William J. Stone of Missouri considers the result of the election an emphatic endorsement of the Wilson administration. He said today:

"The republicans have been saying that if they could become united, they could lick us."

"They were united everywhere and their contest generally was a clean-cut fight between the democrats standing by Wilson's administration and the republicans opposing it."

"Considering the fact that this is an off year; that the democrats have enacted a new tariff law and now currency legislation, that we have had to meet the hard times cry and

Options 2 ounces. (one Tablet) Water 2 ounces.

Mix at home and use from two to four times a day. This prescription is in daily use by thousands. It sharpens vision, allays irritation, relieves inflammation and gives a smooth, well-lubricated feeling to the eyes. It has enabled many to discard glasses they did not really need. It has restored many to perfect eye comfort. Its use is followed by a soothing sense of relief from strain and over-use. The Biker Jaynes stores and other druggists can fill this prescription. Any pharmacist familiar with the formula will tell you it is perfectly harmless.

Failing eyesight is often caused by neglect and by forcing eyes to do work for which they were never intended. Our eyes are ruined by the strain modern conditions put upon them, a strain opposed to Nature and destructive to perfect sight unless relieved by proper care.

Many people know what to do when their eyes begin to go wrong; therefore, they do nothing at all until failing sight or actual agony forces them to act. Often, then, they are forced to resort to glasses for temporary relief.

A soothing, cleansing, healing, helpful lotion for eyes in trouble of those that wear glasses can be made from the following prescription:

Options 2 ounces. (one Tablet) Water 2 ounces.

Mix at home and use from two to four times a day. This prescription is in daily use by thousands. It sharpens vision, allays irritation, relieves inflammation and gives a smooth, well-lubricated feeling to the eyes. It has enabled many to discard glasses they did not really need. It has restored many to perfect eye comfort. Its use is followed by a soothing sense of relief from strain and over-use. The Biker Jaynes stores and other druggists can fill this prescription. Any pharmacist familiar with the formula will tell you it is perfectly harmless.

TEACHERS' ANNUITIES

Reduction in the Amount Paid From Boston Teachers' Retirement Fund Is Threatened

BOSTON, Nov. 5.—A reduction in the amount of the annuity paid to teachers from the Boston teachers' retirement fund is threatened in consequence of an investigation made by one of the state auditors.

At present teachers who are members of the association receive on retirement \$130 a year. This was found to be too liberal, and a sum of \$81 a year, it is believed, will have to be decided on eventually.

This change is due to a change in conditions regarding the retirement of teachers. When the fund was first established, teachers were permitted to serve as long as they desired. At present teachers are required to retire at the age of 60 years, which has made a greater drain on the fund than was at first contemplated.

Just how much reduction will be made is not known, as the trustees do not meet until Dec. 10.

Alfred Bunker, secretary of the trustees, stated yesterday that if any change was made it would be done gradually. The state auditor suggested a decrease of from \$25 to \$35 next year. Mr. Bunker stated that it was possible that the annuity would be reduced to \$150 or \$144 at the next meeting.

At present there are 243 teachers, mostly women, who are enjoying \$15 a month from the fund. The association which controls the fund is made up of 3665 teachers, who contribute \$15 a year to the fund and their total contribution amounts to \$54,975. The value of the fund on January 1 last was \$991,013.66.

It is expected that pension legislation by the next general court may affect the action of the trustees in the future, as the state is trying to secure an adequate pension law for all school teachers.

If you want help at home or in your business, try The Sun "Want" column.

GOV. BALDWIN'S VIEW

SAYS PROGRESSIVES GOT TIRED OF FOLLOWING COLONEL ROOSEVELT

NEW HAVEN, Nov. 5.—Gov. Simeon E. Baldwin, democratic candidate for United States senator, who was defeated in yesterday's election by Frank B. Brandegee, republican, commenting on the outcome of the voting, said yesterday:

"The key to the election is very simple. The progressives of Connecticut got tired of following the vagaries of ex-President Roosevelt and most of them returned to the republican fold from which they had gone out originally."

"I think also that the indictment of more than 20 of the New York, New Haven & Hartford company's directors and the labeling as conspirators of a good many highly esteemed citizens of Connecticut who are in their graves had an unfavorable effect on the democratic prospects."

TO REMOVE EVERY SIGN OF DANDRUFF

Try This Simple Home Treatment. It Surely Makes the Hair Soft, Fluffy and Lustrous.

If your hair is not pretty, if it is losing color, too dry, matted, falling out or if you scalp itches, you can quickly overcome all of these conditions at a trifling cost and on a few moments' time. Just get from any drug counter, some Parisian Sage, a most helpful and invigorating tonic that supplies every hair need. It is easily applied, absolutely harmless and is as inexpensive as it is beneficial. Improvement begins with the first application. For Parisian Sage not only nourishes the hair roots but stimulates your hair to grow long, thick, soft, shiny and lustrous. It immediately removes every bit of dandruff and stops itching scalp.

Be sure to get Parisian Sage for there is no other so effective and this will surely give you hair new life and beauty.

WILL INSTALL ELEVATOR

Important Changes to be Made at Local Postoffice at Request of Postmaster Crowley

The postal department of the United States is calling for bids for the installation of an elevator in the postoffice of this city. The elevator will be of the hoistway and electric freight type and the minimum capacity of it must be 1750 pounds, while the maximum must be one ton. The bids are being received at the supervising architect's office at Washington, D. C. and all bids will be opened on November 30 at 2 p. m.

Postmaster Crowley, in conversation with a Sun reporter yesterday said the new elevator will be installed to run from the basement of the building to the second floor into the room recently remodeled for a mailing department. It was through the Lowell postmaster's efforts that the postal department has decided to install the machine, which will be of great utility in handling the work, for it will convey

PICTORIAL SIDE LIGHTS ON THE EXODUS OF HAPLESS REFUGEES FROM BELGIUM

BELGIAN REFUGEES FLEEING FROM ANTWERP

Thousands of refugees, mostly women and children, have fled from Belgium before the steady advance of the Germans. These pictures tell their own human interest story of the flight. They throw interesting side lights on the exodus.

PLEAS OF NOT GUILTY TWO THREATENING FIRES

ENTERED BY 12 OF THE 21 NEW HAVEN DIRECTORS INDICTED MONDAY

NEW YORK, Nov. 4.—Twelve of the 21 directors or former directors of the New Haven railroad who on Monday were indicted by the federal grand jury today entered pleas of not guilty in the United States district court here. Eleven appeared personally. They were William Skinner, Alexander Cochrane, James S. Henningway, Frederick Brewster, A. Heaton Robertson, D. N. Barney, Edward Milligan, Francis T. Maxwell, Henry K. McHarg, Edward D. Robbins and Robert W. Taft. Harry A. Cushing, an attorney, appeared for Theodore N. Vall, who, he said, was ill in Virginia. Each of the defendants was released under a bond of \$5,000 and given until Nov. 25 to make any motions that might be deemed necessary by counsel.

In entering his pleas, Mr. Robbins, who formerly was counsel for the New Haven road, reserved the right to enter at a later date a plea "in bar" in which he might claim immunity.

DEATHS

LECLAIR—David, aged 1 year, 3 mos. and 15 days, died yesterday at the home of the parents, Foster and Emma Leclair, 69 Bachman street.

WITHIN 24 HOURS CAUSED \$30,000 DAMAGE AT BRATTLEBORO, VERMONT

BRATTLEBORO, Vt., Nov. 4.—Two threatening fires within 24 hours, both from unexplained causes, seemingly point to the presence in Brattleboro of an incendiary. The loss aggregates \$30,000. The fire was discovered late last night in the building occupied by Mosher & Tucker. Other buildings, completely burned were the Richardson stables, grain and hay shed owned by the Valley Grain Co., and a two story structure, the ground floor of which was occupied by the blacksmith shop of W. J. Searles. The losses in the first fire will reach \$25,000. At 6:30 this morning, Ben Chamberlain, employed in the George H. White stable in the rear of the Grange block in Elliot street discovered fire in the large stable adjoining the White stable. A pair of horses owned by E. L. Crosby & Co., valued at \$1000 was burned to death.

GOVERNORS ELECTED

WASHINGTON, Nov. 4.—According to election returns received here today, the following states elected democratic governors: Alabama, Arkansas, Georgia, Massachusetts, Minnesota, Michigan, Nebraska, Oklahoma, South Carolina, Tennessee and Texas. Republican

governors were elected in Connecticut, Iowa, New Hampshire, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, Vermont and Wisconsin. In Colorado, Kansas, Nevada, Oregon and South Dakota, the republican candidates were leading in the early returns; in Idaho the democratic candidate was leading and in Wyoming the democratic and progressive candidate.

New York, New Hampshire, Conne-

cticut, Colorado and Ohio elected republicans to succeed democrats. Minnesota and Tennessee chose democrats to succeed republicans.

FUNERALS

GOULLET—The funeral of Joseph Goulet took place yesterday from the home of his son, 502 Moody street. Solemn high mass of requiem was celebrated at St. Joseph's church at 10 o'clock by Rev. Charles Paquette, O. M. I., assisted by Rev. L. A. Nolin, O. M. I., as deacon and Rev. Joseph Bolduc, O. M. I., as sub-deacon. The bearers were Arthur, Alime and A. Goulet, Frank and Francis Allard and Pierre Bergeron. Burial was in St. Joseph's cemetery, where the committal prayers were read by Rev. Armand Baron, O. M. I. Funeral arrangements were in charge of Undertaker Joseph Albert.

MANY SMALL FIRES

The members of the fire department were kept on the jump yesterday for they responded to no less than four different telephone alarms from the hours of 3 and 3. The first call was for a brush fire in Midland street and this was closely followed by another alarm for a similar fire in Montview street. A dump fire in Allen street was the cause for a telephone alarm, while a grass fire at Atherton kept some of the men busy.

OUCH! PAIN, PAIN. RUB RHEUMATIC, ACHING JOINTS

Rub Pain Right Out With Small Trial Bottle of Old "St. Jacob's Oil."

Rheumatism is "pain only." Not only in fifty requires internal treatment. Stop drugging. Rub soothing, penetrating "St. Jacob's Oil" right into your sore, stiff, aching joints and muscles, and relief comes instantly. "St. Jacob's Oil" is a harmless rheumatism cure which never disappoints and can not burn the skin.

Limber up! Quit complaining! Get a small trial bottle of old, honest "St. Jacob's Oil" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness, stiffness and swelling. Don't suffer! Relief awaits you. "St. Jacob's Oil" has cured millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache, sprains.

HAVE COLOR IN YOUR CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for cod liver oil—were prepared by Dr. Edwards after 17 years of study with his patients.

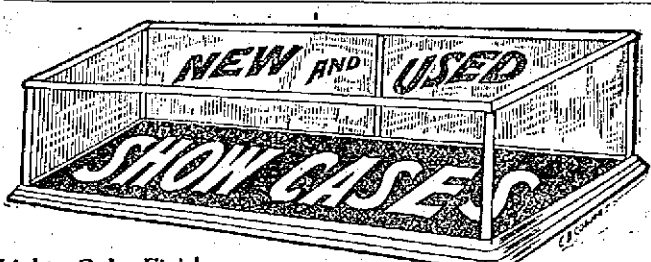

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

If you want a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like cod liver oil, yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists.

Take one or two nightly and note the pleasing results.

HOUSE LEAD CUT TO 25

Democratic Leaders Claim the Majority of 15 in Senate—The Demmies Satisfied

WASHINGTON, Nov. 5.—Democratic administration leaders today claimed a substantial majority in the house and continued control of the senate as a result of the elections for next congress. On returns which were not yet complete, the democrats asserted that their majority in the senate had been increased from 10 to 15. In the house the returns indicated that the present overwhelming democratic majority of 140 had dwindled to about 25. With this the democratic leaders professed themselves satisfied, declaring that it was the greatest majority "ever returned by any party in an off year following a tariff revision." The democrats also asserted that the returns showed that the progressive party had practically disappeared and that therefore the democratic victory was a triumph over a re-united republican party.

Republicans, however, were jubilant over the result. They asserted that

BULL MOOSE WAS KILLED NEW ENGLAND TO ASSIST

MISTAKEN FOR DEER IN GRANVILLE—COMPLAINT AGAINST PETERSON TO BE SOUGHT

WESTFIELD, Nov. 5.—A big bull moose that has been seen frequently this fall in different towns of western Massachusetts was killed yesterday morning in Granville, about six miles from Westfield, by Archie C. Peterson, son of Martin Peterson.

Peterson saw the moose walking along an old wooded road and shot him through the heart with a 12-gauge bullet, such as are used in hunting deer in the open season. The young man telephoned to Deputy Fish and Game Commissioner Peter P. Monahan that he had shot the moose, and Mr. Monahan drove out to Granville and brought the animal to Westfield, where it was viewed this afternoon by several hundred people at a local beef house. The moose weighed about 750 pounds and was 2-1/2 years old. He had small horns.

Peterson, according to the deputy, said his father told him to shoot a buck deer if he ever found one on the premises. He is said to have mistaken the moose at first for a deer.

Deputy Monahan has consulted with the fish and game commissioners and said last night a complaint against Peterson would be sought. A law protecting moose at all seasons was passed in 1913 and the maximum fine is \$102.

DIED BEFORE WIFE ARRIVED

LAST HOPE OF DYING MAN DENIED F. E. BRADBURY OF BOSTON FATALLY INJURED

CHICAGO, Nov. 5.—The hope that he might survive until his wife and daughter could arrive from Boston before he died was denied Frank E. Bradbury, of the law firm of Bradbury & White of Boston, who expired yesterday at St. Luke's hospital as the result of injuries he suffered Tuesday when he was struck by a pair of wild horses and thrown under a street car here.

Mr. Bradbury's skull was fractured and he was injured internally. Telegrams were at once sent to his relatives, but physicians warned him that he might not survive until they arrived, so he made his will and set his affairs in order as far as possible. He was vice president of the International Mercantile and Bond company and had come here for a conference with Pres. S. L. Bright.

WHAT THE FRENCH MAID SAID

MARIE ON HOUSE PLANTS

"I want to have lots and lots of flowers in the house this winter, growing ones I mean," was Marie's enthusiastic response after her good morning to Marie. "Can you tell me what will grow best?"

"Geraniums I think should be the standby of the indoor garden, advised Marie. "Those that have been blooming in the garden can be brought in, but if they are they will not blossom for a month or so. Leave them in the garden until the first frost has touched them. This will make them bloom more readily when brought in. Then pot them, cut them back and give them plenty of sunshine and water."

"If you want quick blossoms, buy geraniums already potted for winter at the florist."

"There are many of the summer garden flowers that do well in the house, and if you find seedlings growing about your annuals or perennials in the garden, pot them and bring them in. They can do no more than full to live, and you will have the pleasure of experimenting with them."

"Sundragons do well in the house, if you give them rich soil, plenty of air and water and a moderate amount

LOGICAL DYSPEPSIA TREATMENTS

Importance of Eliminating Acidity and Food Fermentation

During the past two or three years reports have frequently appeared in the press concerning the remarkable value of a substance known as a "magnesia" in the ability to promote normal, healthy digestion by preventing food fermentation and neutralizing dangerous stomach acidity. Until recently druggists could supply bisulphated magnesia in powder form only, from one to two teaspoonfuls of which taken in little water after meals, almost instantly stops all fermentation and neutralizes acid, but suffers from stomach trouble will be glad to learn that a new and more effective preparation, a leading firm of manufacturing druggists has now succeeded in producing a grain tablet which combines all the advantages of the old powder with the convenience of the new tablet form. This new tablet of bisulphated magnesia can now be obtained in a variety of sizes and many physicians are already prescribing them instead of the powder form.

at a very small price, while the paper is sold to the mills to be made over again into cardboard. The rugs, mats, etc., are sold locally.

The following figures will show what has been accomplished with the help of generous friends in Lowell and vicinity and to whom the officials of the home extend their heartfelt thanks: Since January 1 to October 1, 1914, an average of 30 men per day have been given temporary employment and in return for their labor they were given 25,000 meals, 7,911 night lodgings, 1128 garments, 604 pairs of shoes and they also received in cash \$553.17.

The captain of the institution has the columns of "The Sun" as an appeal to all interested in the work to donate what they discard in the line of clothing, shoes, etc., and especially old paper so as to be able to supply work for the many men who are now out of the work and who are daily in need of such employment. A phone 1361 will bring the industrial wagon to your door.

AMUSEMENT NOTES

THE OPERA HOUSE

The Opera House announces the Vitaphone production of Hall Caine's superb love story, "The Christian," which will be produced for one week, beginning next Monday, Nov. 8th, with matinee daily.

"The Christian" is the best story ever written by Hall Caine. As a novel it gained international fame and as a drama, it brought fame to Miss Viola Allen, who appeared in its star part for eight consecutive years. It is a dramatic masterpiece even for the stage, where it is physically impossible to present many of the important scenes. These same scenes have been utilized in the picture and the useless dialogue all eliminated with the result that "The Christian" in its picture form is nothing less than the vital points of the exceptional literary masterpiece condensed into a motion picture.

Never before has the Vitaphone company or any other picture company used so many picture stars in one production. As a novel and later as a play "The Christian" became such a tremendous success that a recital of its superb story is a household word.

The seat sale opened today at 10 o'clock at the Gorham street box office.

B. P. KEITTS THEATRE

The Frikowsky troupe of Russian singers and dancers, who are appearing in the headline position at the B. P. Keitts theatre, this week are so good that they are certainly the most favorable impression and many friends in this city, who wish him well in the future. He is a live-wire all right, and had the district not been overwhelmingly republican he would have landed. Success to him in the future.

Sympathy for Brennan

Much sympathy is expressed for John V. Brennan, the popular town clerk of Dracut, who was defeated for a second term after having served his first with distinction. The results showed that though defeated he received a large republican vote as the district is several hundred republican ordinarily.

The Municipal Campaign

And now that the state election has gone by, it is up for the municipal campaign. Some of the municipal campaigners were too "kinky" to allow

To Free Your Skin of Hair or Fuzz

(Boudier Secrets)

No toilet table is complete without a small package of delatone, for with it hair or fuzz can be quickly banished from the skin. To remove hairs you merely mix into a paste enough of the powder and water to cover the objectionable hairs. This should be left on the skin about 2 minutes, then rubbed off and the skin washed, when you will be free from hair or fuzz. Be sure you get genuine delatone.

THE OWL THEATRE

Max Figma, the formidable comedian, is the next star attraction to be seen at the Paramount theatre, Thursday, Friday and Saturday. He is starred in "What's His Name," a comedy of a popular actress' return after being both sides of life, the gay and the sad. A little drama is running through the production, but comedy predominates. As the beau of Blakeville, Max Figma portrays the role of a town idiot, the lady-killer, by gum! who meets his match when he marries Nellie, the baker's daughter, who later becomes a famous foot-light star. Then comes the old story of being relegated amongst the dead ones, in the parlance of the city. The beau returns to his home, and the comedy narrows experiences in the city, and his little girl becomes stricken. He becomes tired of a life of sham, and he becomes tired of a life of sham, and he returns once more to his hands-on soda clerk, and a happy reunion takes place. Pathos is no strange element to this play, and the leading role is handled in a delightful way by Figma, who makes a capital part of a difficult role. "The Perils of Pauline," 17th episode, will be shown for Friday and Saturday as a special attraction.

THE SPELLBINDER

The state election is over and while the democrats have been sorely and severely bumped in some quarters, they must take their bumps philosophically for they did the best they could under the circumstances and there was no defection, the slump of the progressives doing the business.

Instead of feeling blue the democracy of Lowell has occasion to smile quite broadly over the success of Governor Walsh in this city for despite the terrible opposition to him that existed in the mind's eye of the editor of the Courier-Citizen, he carried Lowell by even a greater plurality than last year and while the editor called him "David Ignatius" and plain "Dave," and probably other names, under his breath, who knows, the electorate of Massachusetts will continue to call him "Governor" for another year, at least.

"Hard luck" was written all over the editorial page of the Courier-Citizen yesterday morning, for if you will recall the fact, the Courier-Citizen was strongly for Teddy Roosevelt and his party for the past few years, and though perhaps there would have been some consolation in their downfall, did it result in republican success in this state, of all others; this was the state in which it didn't, and hence these tears.

Helping Putnam Along

Candidate Newell H. Putnam has two good boosters in Commissioners Brown and Morse for their opposition appears to be gaining him votes every day. Chester H. Harris who has operated a steam-roller for the state and different cities and who is a resident of this city recently, it is said, applied to Commissioner Morse for a job and was promptly informed that he couldn't have a job because he was a friend of Putnam's. On steam-roller jobs as on all city jobs, it is hoped that citizens of Lowell get the preference regardless of whom their friends may be.

What Happened Him

Recently a local paper informed us that one of the park commissioners was very much vexed over something a week ago Sunday. Perhaps he discovered that he had left his badge in his other clothes.

Y. M. C. A. Football Schedules

The Y. M. C. A. has had printed and distributed at the high school a schedule of the football games to be played during the coming season, and on the back of the schedule is the following:

"We cannot all be athletes, but we can and should be athletic. If you become a member of the Y. M. C. A. and attend the gymnasium classes three times a week on Monday, Wednesday and Friday at 8:30 and swim for half an hour at 4:30 you will become strong and athletic and better able to serve yourself and others in all emergencies. It costs you \$5 a year. If you are interested in social life of the right kind you are invited whether or not a member of the association to attend the high school supper on Friday at 6:55. A good live speaker gives you a pointed talk. Afterwards if you are interested in getting inspiration to make this life of yours serve the world with its very best you may stay until seven o'clock with one of the Bible study clubs. This will cost you 15 minutes of time, but it may be one of the best investments of your life."

Who'd-A-Thought It

A "Pecunia Canadensis" (A French Canadian), Marchand, Marchand, comme senateur Vous comblera de faveurs."

If certain well known republicans in the eighth senatorial district could have looked into the future and foreseen the downfall of the progressive party, do you think for a moment that the senatorial nomination would have been handed to ex-Rep. George E. Marchand without a struggle? Not much. They would have had the battle of his life to get that nomination. But not even Vic Jewett saw any hope for a republican, and hence Vic contentedly has continued to accept the goods that the gods provide, while other ambitious republicans have bled a-weak, and now they must bide a couple of weeks for Marchand having been elected to the first term undoubtedly must have a second nomination without opposition. Mr. Marchand made a number of votes by his promises, if elected, to introduce a bill providing for the repair of the Lowell end of First street which it seems requires legislative action, and another bill to amend the Workmen's Compensation act so that injured employees will receive their pay from the time of the accident instead of two weeks later, as at present. There is no question about the popularity of these two measures and it is now up to the senator-elect to go through with them.

Dunn Made Fine Impression

While Henry P. Dunn of Lynn went down in defeat with many another good democrat, he certainly made a most favorable impression, and many friends in this city, who wish him well in the future. He is a live-wire all right, and had the district not been overwhelmingly republican he would have landed. Success to him in the future.

Candidate for Mayor

It is understood that Dr. Rodrigue Migneault has fully made up his mind to be a candidate for mayor one year hence. The doctor, it is said, figures that he came within a few votes of defeating Mayor Murphy for the nomination one year ago when the mayor was strong, and that now it will be an easy thing to defeat him if he runs again and win again. If he doesn't, he will be a reality to be a candidate for mayor he should start at once to "square" himself with his former colleagues of the park commission to whom he once referred as a "malignant appendix" to the municipal anatomy or some other equally frightful thing. But still, that was in the days before the commissioners got the idea of a more respectful opinion of them since they donned their tin shields.

The New Traffic Squad

Everybody wants to know what happened to "Gib" Sheridan that he was put out as a traffic officer on the cold, east corner side of the north pole, after enjoying a nice job as liquor inspector since the new administration.

IS YOUR HAIR RIGHT FOR THE NEW FALL STYLES?

You will delight in arranging your hair in the new and interesting modes of this season. You know it perfectly soft and fluffy so that it appears naturally heavy. This will be a simple matter if you use the right shampoo. It is not advisable to use a makeshift but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of catnip from your druggist, dissolve in case of shampoo in a cup of hot water and use the shampoo ready. After its use the hair dries rapidly with uniform color. Dandruff, excess of land dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.

BODY OF MAN FOUND FLOATING IN POND

FRAMINGHAM, Nov. 5.—The body of Marcus M. Fairbanks, 72 years old, of Concord street was found floating in two feet of water in Little Sucker pond, off Eastern avenue, about dusk last evening, and the police are holding his son, Clarence, aged 32.

For several years the father and son have been living apart, the older man in a house which he owned, about a half-mile from the pond, and the son in a rather ramshackle affair on an edge of the pond. Yesterday Clarence telephoned the police that his father was missing. Chief Holbrook detailed two men, who worked on the case all day. They questioned the son closely and he told them he had seen his father alive between 9 and 10 o'clock that morning. He also said his father went to Boston Monday, drew \$100 from a savings bank and gave him the money to keep for him. He then turned this money over to the police.

The officers, after a search of the son's home, found several bankbooks recording small sums on deposit. Clarence said these had been placed in his care by his father.

This morning, when Clarence again telephoned Chief Holbrook that his father was still missing, he was called to police headquarters and there put under a rigid examination. As a result state detectives were called into the case.

About 3 p. m. Chief Holbrook sent a detail of men to the pond to drag for the body. After a long search they found it just before dark, on the northerly side of the pond in about two feet of water. The police say they found that the bushes near the water's edge had been beaten down somewhat as if having been recently trampled on. The body was taken to the morgue here and was viewed by Medical Examiner Lewis M. Palmer. He said after a superficial external examination that he did not find any marks of violence, not even a scratch. He said he would make an autopsy tomorrow morning.

EPIDEMIC AMONG CATTLE

Federal Quarantine Threatens a Reduction of the Nation's Food Supply

WASHINGTON, Nov. 5.—The worst outbreak of the foot and mouth disease ever known in the United States is the department of agriculture's estimate of the livestock epidemic which has forced federal quarantine over six states and threatens a temporary reduction of the nation's food supply. An emergency appropriation by congress may be requested to finance the campaign to suppress the epidemic.

Officials said last night it would be a week before they could forecast the extent to which the food supply would be affected. They are inclined to believe, however, that the shrinkage will not be large in spite of the inconvenience to which stock growers and packers will be subjected until the disease is under control. Every possible effort will be made to remove handicaps upon the movement of livestock.

The quarantine does not prevent the shipment of stock from unaffected districts to slaughter houses within the quarantine area and there is no embargo against the shipment of dressed meat.

New York and Maryland Hit

New York and Maryland were added to the list of quarantined states yesterday. A department of agriculture statement announcing this said:

"The list of states now quarantined by federal authorities includes New York, Maryland, Indiana, Michigan, Illinois and Pennsylvania. In addition to these restrictions have been placed upon interstate shipments from Ohio, although no cases have as yet been found in that state. There is reason to fear, however, that infected stock may have been sent into Ohio. If this is found not to have been the case the embargo will be lifted.

"This outbreak, which is the first in the United States since 1908, is regarded as the most serious of any that the United States has yet experienced. Not only has it already spread over an extensive area, but its virulence seems to be above the average. Vigorous measures will be necessary to stamp it out. The cost of suppressing the last outbreak in 1908 was estimated at \$299,122.10. In addition, the loss to dairy and stock raisers was heavy.

"Interstate shipments of cattle, sheep and swine are absolutely prohibited from the states now quarantined. Stock cannot even be sent from one infected state into another. The federal authorities are at present engaged in endeavoring to ascertain the exact area over which the infection has spread, and as soon as this is known it will, it is hoped, be possible to lift the quarantine from sections now included in it."

600 Infected Cattle

The discovery of 600 infected cattle in the Chicago stockyards was regarded as the most serious development in the situation. Some of the disastrous effects of the outbreak there are believed to have been avoided by the embargo imposed last Saturday against the shipment of cattle from the Chicago yards into other states. Of somewhat less importance was the report that 11 cattle in the National Dairy show in Chicago had been infected.

The outbreak in New York state occurred among a half dozen herds in the Buffalo stockyards. The disease was brought here, it was believed, by a shipment of cattle from Ohio. The present epidemic, so far as known, is the first to have been introduced from outside the bounds already marked by it. Some three months will pass before most of the quarantine now imposed will be lifted, according to department officials. The falling of snow or severe frosts would be a great aid to stamping out the disease.

SUFFOLK STREET FIRE

PATROLMAN GOGGIN MADE A TIMELY DISCOVERY — TENANTS DRIVEN OUT BY SMOKE

Patrolman Richard J. Goggin discovered a fire in a building at 38 Suffolk street about 12:30 o'clock this morning and after ringing in an alarm from box 15, corner of Fletcher and Cushing streets, hustled himself in arousing the many tenants of the two upper stories, who were forced to flee from the building, partly clad, in order to escape the thick smoke which poured through the building.

The fire started in a variety store owned by Mike Ansata and had a good start when discovered by the policeman. A brisk blaze was in progress inside the building, and flames were shooting through the doors and windows, but the fire department promptly checked the fire. Considerable damage was done to the contents of the store while the building was also damaged, partly by smoke.

Ellen Lamb of 21 East Merrimack street is resting comfortably at St. John's hospital today with injuries to her wrist and leg as a result of being struck by a team in Merrimack square near Central street, about 6 o'clock yesterday afternoon.

The streets were crowded at that hour and it is said the injured woman was struck while hurrying from one side of the street to the other. Policemen rescued the name of Mrs. John H. Henderson of 155 Fletcher street as the owner of the Fletcher.

CAUSE OF FIRES

To the Voters, Eighth Senatorial District: I take this means of expressing to the voters of the eighth senatorial district my sincere thanks for the great honor conferred by them upon me by electing me as their senator, and of the best that is in me to prove worthy of their confidence.

(Signed) George E. Marchand.

ADMITS KILLING MAN

GILMORE A. HOWMAN PLEADED GUILTY TO A CHARGE OF MANSLAUGHTER

WISCONSSET, Me., Nov. 5.—A genuine surprise greeted the large crowd of spectators in the Lincoln county supreme court room yesterday when Gilmore A. Bowman of Somerville, Me., retracted his plea of not guilty to the charge of murdering Hugh A. Clark of Boston and pleaded guilty to a charge of manslaughter.

The maximum penalty is 30 years' imprisonment, but Justice Philbrick did not feel like pronouncing sentence until hearing some of the evidence. Although the special jury impaneled last night was dismissed, several witnesses for the prosecution and defense were placed on the stand during the day. Atty. Gen. Scott Wilson, assisted by County Atty. James R. Perkins, appeared for the state and Andrew C. Halpen and Weston M. Hilton for the respondent.

The general substance of most of the state's witnesses' testimony was that there was a row between Hugh and Walter Clark and Gilmore and George Bowman at a dancing pavilion in the adjoining town of Jefferson two weeks ago last night.

Walter Clark, a brother of the murdered man, said that as he and his brother were about to enter the pavilion Gilmore Bowman made a remark that Hugh Clark resented. There was a general squabble during the evening, in which Hugh Clark gave George Bowman a beating and later turned his attention to Gilmore, knocking him down. Suddenly, however, Hugh Clark stood up, witness said, and exclaimed: "My God, he's knifed me."

At this point the witness was so unnerved that it was only between sobs that he was able to describe how his brother staggered into the dance hall, fell on his face and died.

Medical Examiner George A. Gregory, who made the autopsy, described several knife wounds, among them one in which the knife had nearly severed the jugular vein and another in which two chambers of the heart had been penetrated.

Among the spectators were young Clark's mother, Mrs. Ida M. Clark, 133 Pembroke street, Boston; his two sisters, Mrs. Bernice H. Twomey and Miss Mary S. Clark, and Miss Lillian Greenleaf of Boston, the fiancée of the murdered man. The mother was deeply affected by the testimony. While Medical Examiner Gregory was on the stand she swooned, but quickly revived.

Yesterday afternoon the case ended without argument, Justice Philbrick stating that he would defer sentence until today.

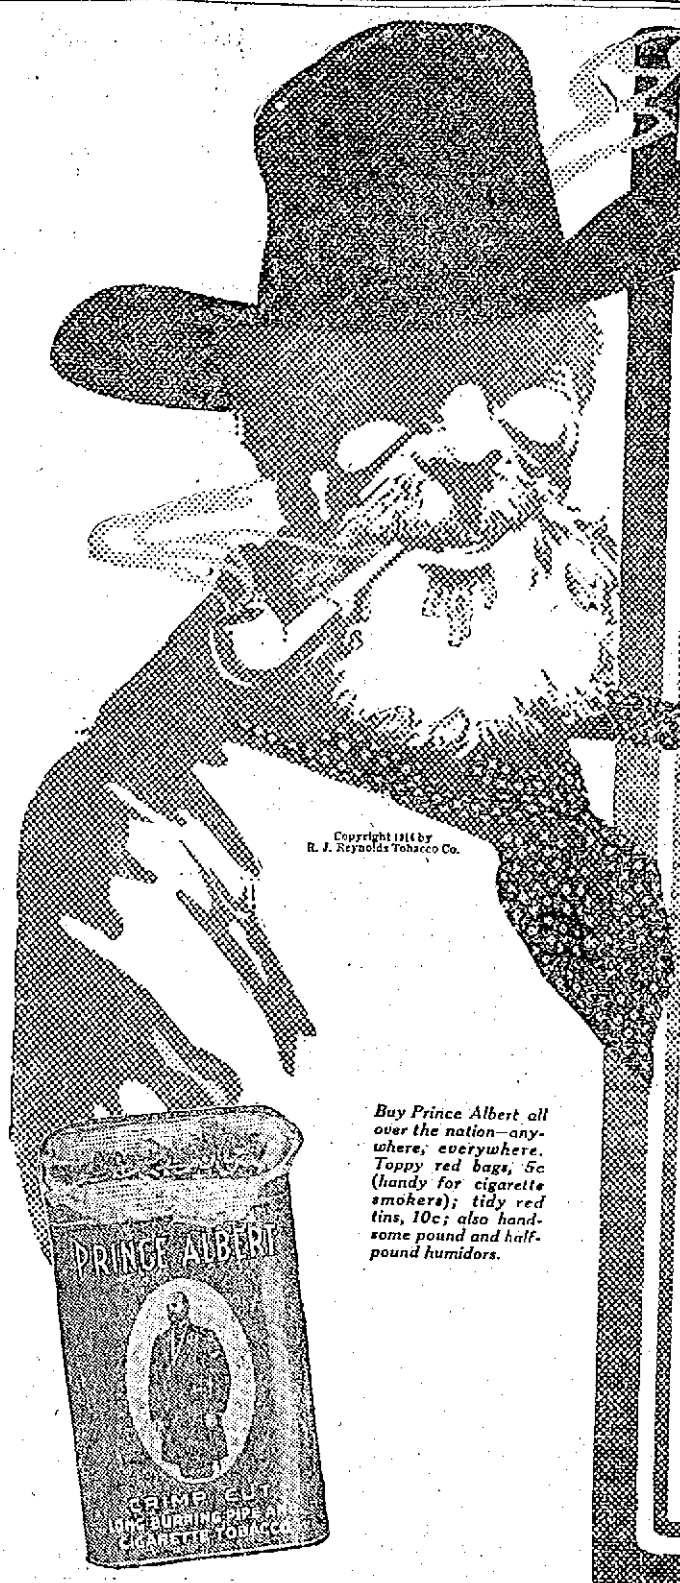

HINDS FREED ON PARDON

SERVED 22 MONTHS OF TERM FOR ARSON—WIFE SENT TO INSANE ASYLUM RECENTLY

BOSTON, Nov. 5.—Harry H. Hinds, who was granted a pardon yesterday afternoon by vote of the executive council, after serving nearly 22 months of a three-to-four-year sentence in state prison for arson, was released from prison at 4:45, shortly before which hour Ex-Mayor J. Edward Barry of Cambridge arrived at that institution with the pardon papers. Mr. Barry was accompanied to the prison by Timothy J. Buckley of the governor's council.

The conditions of the pardon were brought here by Chief Clerk Edward Darling in the clerk's office, after which he bade goodby to Mr. Darling and Warden S. D. Allen, and in company with attorneys Barry and Buckley left the prison.

Ex-Mayor Barry and Hinds went

Mighty like drawing aces

to jam a jimmy pipe brimful or roll up a makin' cigarette with Prince Albert, then make fire with a match! Such smokings! Yes, sir, the kind you can draw to all day and all night and have a lot of fun all the time!

Prince Albert came into the game five years ago a little stranger in a big land, but it was cut for a square deal, and today it is the one best bet of men everywhere who play fair with their tongues and want fair play—with all the cards on the mahogany! Catch the thought?

PRINCE ALBERT

the national joy smoke

is built like a thoroughbred. It won't kick, it won't bite, it won't parch! That's because it is made by the now world-famous patented process that cuts out the kick and the bite and the parch! No other tobacco ever was or can be today anywhere near like Prince Albert!

You can raise right here—and clean the table—that Prince Albert will win with you because it's true blue, any way you play it! Costs a dime to sit in and find out first-hand that all we claim for Prince Albert is case cards—signed, sealed, delivered—with the reputation of this great business right behind every grain of tobacco! Does that listen?

WITH THE BOWLERS

FEW GAMES ROLLED ON THE ALLEYS LAST NIGHT—MINOR AND R. A. LEAGUES REPRESENTED

The Fall Malls made easy work of the Glendales in the Minor league last night, capturing three strings and a total, although the game was very interesting. One game in the Royal Arcanum league resulted in a victory for Team 6 over Team 2. The employees of Chaffoux's store had it out, the shoe department winning a game from the Mifflins and the clothing salesmen putting one over on the rollers of the furnishing department. The scores were:

Minor League
Glendales—Fahy, 256; R. McDermott, 245; Healey, 270; Bryant, 278; Preston, 274; total, 1323.

Fall Malls—J. McDermott, 295; White, 278; Pantan, 274; Chris. Allen, 267; Buckley, 272; total, 1387.

Royal Arcanum League
Team 2—A. Gilbert, 228; Burrell, 252; Gurney, 258; Killpatrick, 288; Bell, 255; total, 1285.

Team 6—C. McElroy, 249; Buchanan, 255; Edwards, 284; Geo. McElroy, 233; Perrin, 231; total, 1302.

Chaffoux's Store
Mifflins—Walker, 263; Montague, 256; Allen, 232; Cookran, 275; Reno, 205; Normandin, 202; total, 1332.

Shoes—Gagnon, 241; Verville, 241; Lancet, 236; Frazer, 270; Sullivan, 223; Poirier, 210; total, 1431.

Clothing—Chaffoux, 221; Cote, 240; Smith, 220; Brown, 234; Cayer, 222; Eaton, 197; total, 1334.

Furnishing—Deerosler, 210; Mallet, 240; Brooks, 177; Louche, 258; Lamontagne, 226; Robarge, 217; total, 1293.

COMPARISON OF TEAMS

LAWRENCE HIGH FOOTBALL ELEVEN DEFEATED NASHUA, 14 TO 0—N. H. TEAM BEAT LOWELL

Nashua High beat the Lowell High eleven yesterday, 7 to 0.

Lawrence defeated the Nashua team several weeks ago by two touchdowns.

This affords the first direct comparison of the strength of both the Lawrence and Lowell aggregations which clash on Thanksgiving day in Lowell.

AM. LEAGUE MEETING

TRANSFER OF NEW YORK AMERICAN MAY TAKE PLACE IN CHICAGO TODAY

CHICAGO, Nov. 5.—Placing the ownership of the New York American League club into new hands was to be the principal issue to come before the club owners at the league here today.

Regarding the projected change in the ownership of the New York American, President B. B. Johnson would only say that the subject would come up for discussion before the meeting adjourned and that a transfer of the club into new hands might take place. President Johnson declined to discuss the identity of the probable new owners.

Discussing the probable attitude of the American league toward peace with the Federal organization, President Johnson was quoted as saying that the sentiment of the club owners toward the attempts being made to settle the existing tangles in baseball was favorable but indifferent.

"Efforts to make it appear that the American league is opposed to peace in baseball have not been based on fact," President Johnson said. "I certainly will not throw any obstacle into the way of those who are endeavoring to find a satisfactory remedy for conditions which everyone will admit are bad for the game."

WEATHER RECORD IN BOSTON
BOSTON, Nov. 5.—Another weather record was equaled in Boston yesterday. The maximum temperature, recorded at 2 p. m., was 74. On the date in 1902 Boston had exactly the same maximum, but in no other year in the history of the local bureau on Nov. 4 has the mercury climbed even to the 70 mark.

In Lowell the temperature yesterday was about the same as in Boston.

WITH THE BOWLERS

FEW GAMES ROLLED ON THE ALLEYS LAST NIGHT—MINOR AND R. A. LEAGUES REPRESENTED

The Fall Malls made easy work of the Glendales in the Minor league last night, capturing three strings and a total, although the game was very interesting. Furnishing—Deerosler, 210; Mallet, 240; Brooks, 177; Louche, 258; Lamontagne, 226; Robarge, 217; total, 1293.

GOOD SCORES MADE

LOCAL BOWLERS PARTICIPATED IN WEEKLY ROLL-OFF LAST NIGHT

The weekly roll-off of bowling enthusiasts and several high scores resulted. The winners follow: Hinds, first, 322; McDermott and Hoban, second and third, 216; Dooley, Wynne and T. Kelley, fourth, fifth and sixth, 314; Dwyer, seventh, 313; Hall, eighth, 311. The full scores are as follows:

Chabot 239, Busby 270, Shaughnessy 258, Nettel 267, Adams 256, Whalen 244, Bradbury 232, Benuregard 300, Leaver 261, G. Buckley 255, Foster 284, J. O'Neil 275, Dooley 314, Stewart 265, Chase 252, A. Chadwick 256, J. Durkin 232, Brennan 305, Brown 299, J. Murphy 276, B. McMahon 238, J. Mahan 250, McQuade 309, Arnold 290, W. Smith 237, Ramezand 261, Oullette 305, Hoban 316, McKenzie 294, McNeil 300, Flinders 208, Lybrand 272, O'Dea 238, McDermott 316, Brady 220, Hadzie 332, Myrick 305, J. Richardson 235, Mosher 205, T. Kelley 314, Cole 288, Keapton 267, Hall 311, T. McElroy 246, Simmet 288, Wynne 314, Dwyer 313, Clark 271, A. McMahon 277, Newman 232, Brigham 309, P. O'Brien 300, Burns 285, Holland 262, C. Martel 309, J. Grant 261.

WITH THE PADDED MITTS

AT SIBERN, THE NEW YORK MANAGER, IS THINKING OF TAKING TOMMY MOORE, THE PROVIDENCE LIGHTWEIGHT, AND TIMOTHY MALONEY, TWO PROMISING BOXERS, ON A TRIP TO THE WEST, AS HE STATES, THE BOXING GAME IS PRETTY DEAD IN GOTHAM.

Gilbert Gallant, the Chelsea boxer who boxed in this city several times, will tackle Leach Cross, the New York demitist, for the second time. They met in Boston during the recent world's series and Gallant scored a win after twelve rounds of terrific fighting. He dropped the New Yorker in the first round and then tore after him for the remainder of the battle and clinched the decision. They will meet in a ten-round no-decision contest Nov. 17th in the big city.

Tonight Battling Levinsky and Frank Mantell will hold the boards at the Thornton A. C. of Thornton for twelve rounds and each is confident of coping the decision. At the rate the "Battler" has been fighting for the past month Mantell ought to run second. Last week Levinsky won two fights in two nights, each time beating a tough customer.

Phinney Boyle is out after revenge tonight when he meets Johnny Munice, the Charlestown boxer, who boxed Philby McGovern and Al Delmont draws in this city a few seasons ago. Munice gained the two questionable decisions over Boyle. The Lowell boy ought to win easily tonight at Lawrence if he will fight and not cover up so much as he has done with Munice in the past.

Ed Williams will have a little jaunt for ten rounds in New York on Nov. 17 with Louisiana Lavigne, the Philadelphia bantam. Williams met and defeated Lavigne in Philadelphia last season and ought not to have much trouble doing it again.

"Al" "One-punch" McCoy is down on the hills to mingle with Soldier Bartfield on Nov. 10th at the Broadway Sporting club of Brooklyn. Bartfield spooled the aspirations of two Boston boys who went over to New York to make a reputation. They were Young Jasper and Pat DeLuca, both well known to Lowell fans.

Eddie Camp of California will battle Frankie Flumming of Canada, tonight in New York for ten rounds in a featherweight elimination contest. George Cheney meets Young Kansas in another bout at same club.

At a recent bout between Freddie Welsh and Ad Wolgast held in New York no one was allowed in without a ticket and the managers of would-be champs had to loosen up or remain outside the gate. Dan McKeltrick, a prominent manager, had to pay five dollars and Leach Cross was also taxed three dollars.

Next Thursday night the Lawrence fans will witness a bout between two of the best welters around these parts in the person of Joe Chick and Johnny "Kid" Alberts. They will meet in a 12-round affair. Matchmaker Crilly

is certainly giving the down-river fans a run for their money.

Frankie Brogan of Lawrence showed a big improvement when he defeated Tony Lorenzo last week and if he continues to show improvement he will be boxing the best in New England before the winter is over. He is handled by Jack Wagner, who also manages Phinney Boyle, Larry Burns, Kid Merder and Billy Brooks, the local boxer.

AQUATIC COMPETITION

WELL CONTESTED EVENTS HELD AT Y. M. C. A. SWIMMING POOL LAST NIGHT

The results of the aquatic competition held in the Y. M. C. A. pool last evening were as follows:

Class A—50 yard swim, M. Wrenn, time 36 1-5 seconds, 40 yard breast stroke, M. Wrenn, first; H. Osborn, second. Time, 25 4-5 seconds.

Class B—50 yard swim: C. A. Gendron, first; H. Osborn, second; N. Panoos, third. Time, 1 minute, 1 2-5 seconds; 40 yard breast stroke: J. B. Gray, first; C. A. Gendron, second; N. Panoos, third. Time, 33 seconds.

Class C—50 yard swim: J. B. Gray, first; Koroach, second; H. Madden, third. Time, 56 3-5 seconds. 40 yard breast stroke: L. Koroach, first; H. Madden, second. Time, 41 3-5 seconds. Standing in point scoring to date is as follows:

1—J. Gray 13
2—C. A. Gendron 11
3—N. Panoos 10
4—L. Koroach 10
5—J. Conillard 10
6—M. Wrenn 10
7—H. Osborn 6
8—H. Madden 6
9—J. E. Murphy 3
10—A. Trudeau 1

Events to be contested Wednesday, Nov. 11, in all classes: 100 yard swim and plunge for distance.

Senior Gym-Athletic competition starts Friday of this week in the following events:

1—Two lap run; 2—standing broad jump; 3—buck.

MRS. MABEN WAS MADE WELL

By Lydia E. Pinkham's Vegetable Compound and Wants Other Suffering Women To Know It.

Murfreesboro, Tenn. — "I have wanted to write to you for a long time to tell you what your wonderful remedies have done for me. I was a sufferer from female weakness and displacement and I would have such tired, worn out feelings, sick headaches and dizzy spells. Doctors did me no good so I tried the Lydia E. Pinkham Remedies—Vegetable Compound and Sensitive Wash. I am now well and strong and can do all my own work. I owe it all to Lydia E. Pinkham's Vegetable Compound and want other suffering women to know about it."

Mrs. H. E. Maben, 211 S. Spring, St., Murfreesboro, Tenn.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for nearly forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Why Lose Hope.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

For over thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

WAR AND BUSINESS AT BOARD OF TRADE

Both Subjects Discussed by Distinguished Speakers at Meeting in Colonial Hall—Addresses Applauded by About 300 Members

The first in a series of winter meetings for the members of the Lowell board of trade was held last night in Colonial hall. Palmer street, and about 500 men were in attendance. The speakers of the evening were Edwin D. Mead of Boston, director-in-chief of the World Peace Foundation, and Roger W. Babson of Boston, expert business statistician. The two men proved to be very interesting speakers, while their lectures were very instructive.

The assembly gathered at the hall at 6:30 o'clock at which time a buffet luncheon was served. At 7:45 o'clock the guests repaired to the lecture hall, where for over two hours they were highly entertained by the notable speakers. Previous to the addresses an orchestra furnished a very enjoyable concert. The meeting was so successful that it was planned to hold a similar one on Dec. 5.

President Marden opened the meeting with appropriate remarks, speaking in high terms of the two speakers who had taken places on the stage. He informed the members of the board that they were at liberty to ask whatever questions they saw fit to the speakers and he told them not to be backward if there was anything they wanted to know.

Edwin D. Mead
Mr. Mead introduced as the first speaker Edwin D. Mead, who took for his subject, "The Great European Conflict." Mr. Mead gave a vivid outline of the trouble now existing in Europe and the cause of it. He spoke of the efforts of the World Peace Foundation to prevent this war and the many conventions held in Europe in order to bring about a peaceful settlement of the difficulties.

GERMAN CRUISER BLOWN UP BY MINE

Paris Hears That Gen. Von Kluck of German Right Wing Died at Namur—Berlin Says Blocking of North Sea is Blow to Neutral Shipping—Naval News Looms Large in London

LONDON, Nov. 5.—Naval news looms large in London today. The British public is seeking further details for the action last Sunday off the coast of Chile but no continued efforts are being made to minimize this disaster. Great anxiety is felt concerning the fate of Rear Admiral Sir Christopher Cradock, which probably will not be known until it has definitely determined what has become of his flagship, the cruiser Good Hope.

The British public, however, is not left without some crumbs of comfort, as Berlin officially admits the loss of the cruiser York, blown up by a mine near Jade, one of the outlying defenses of Wilhelmshaven, while in shipping circles in London it is declared that the career of the German cruiser Koenigsberg in the Indian ocean has been ended.

Sir Percy Scott, England's greatest gun expert and a champion of the superiority of submarines over dreadnoughts has rejoined the admiralty. As he has been known in the past as a supporter of Baron Fisher, it is expected he will uphold the new policy already inaugurated by the new sea lord.

Further details from the scene of land fighting indicate that the forward movement of the Russians have become genuine. Even the Russian left wing which has been held stubbornly by the Austrians for weeks past has joined in the advance. This is admitted by a conservatively worded official report given out in Vienna which declares that the Austrians having maintained their positions on the Lysa river mountains, where the Teutonic allies pivoted in order to let the rest of the army complete its wheeling movement to a new line, are now retreating. At the same time Austria sets forth certain minor successes along the line from the river San to Jaroslavl.

Petrograd, however, makes positive assertion that the Austrian movement is a retreat. According to reports in the Russian capital, General Von Hindenburg, the German commander, is said to be continuing his retreating movement in Russian Poland, while desperate fighting along the frontier of East Prussia has enabled the Russians to cross the border at several points. A significant phase of the eastern campaign is indicated by a report from Rotterdam that the ninth German corps has been transferred from Belgium to East Prussia.

The Turkish ambassador left London today and Great Britain gave formal announcement of a state of war between the empire and Turkey. These events coupled with the action of British cruisers in bombarding Turkish ports constitute the extent of the known activities this morning in the Turkish situation.

ANNOUNCED THAT STATE OF WAR EXISTS BETWEEN ENGLAND AND TURKEY

LONDON, Nov. 5.—It was officially announced in London today that a state of war exists between Great Britain and Turkey.

The proclamation to this effect, which subsequently was gazetted, reads as follows: "Owing to hostile acts committed by Turkish forces under German officers a state of war exists between Great Britain and Turkey from today and all proclamations and orders in connection with reference to the state of war between Great Britain and Germany and Austria shall apply to the state of war between Great Britain and Turkey."

A privy council was held in Buckingham palace this morning to discuss the situation. At the conclusion King George signed the documents proclaiming the state of war and the announcement was made.

REPORTED THAT GEN. VON KLUCK DIED IN HOSPITAL AT NAMUR
PARIS, Nov. 5.—The correspondent of the Excelsior says he has from a source which he cannot designate, news of the death of General Von Kluck ten days ago in a hospital at Namur, where he was treated for a wound in the head. The news of the alleged death, the correspondent says, has been carefully concealed in Berlin and Germany.

Gen. Von Kluck, who led the dash of the German right wing which got to within a few miles of Paris in the first month of the fighting, has been reported, within the last few days, in official communications as directing his army in the fighting on the River Aisne. When the scene of severe fighting shifted to Belgium and the German right wing was extended into

that territory, Gen. Von Kluck, following his skillful retreat from the vicinity of Paris, remained in the position he had taken on the Aisne. The fighting there recently has been overshadowed by the operations in Belgium and Gen. Von Kluck and his army, according to reports have been given a much-needed rest.

BLOCKING OF NORTH SEA BLOW TO SHIPPING OF NEUTRAL POWERS

BERLIN, Nov. 5.—(By wireless)—Information was given out to the press in Berlin today from official quarters as follows: "The director of the Swedish Shipping association declares that the English blocking of the north sea by mines is a blow to shipping of neutral powers, especially Scandinavia."

DISMISSES SUFFRAGE SUIT

NEW HAVEN JUDGE CLAIMS INJURY TO FACTIONS IN CLUB ARE NOT WORTH CONSIDERING

NEW HAVEN, Conn., Nov. 5.—Judge William S. Case of the superior court yesterday dismissed the suit of the New Haven suffragists who claim sole use of the name "The New Haven Political Equality club." In his decision he says:

"The club is composed chiefly of women. There is a small male membership, apparently negligible, save for the unworthy function of stirring the women to great wrath over points of parliamentary procedure. The origin of the present disturbance, though somewhat obscure, seems traceable to this questionable interference, and two factions are in hopeless dispute over their respective rights to the exclusive use of the club's name."

"One faction has expelled the other by a resolution of withering contempt and the expelled group have retaliated by expelling the supporters of the resolution. It does not appear that any injury worth a court's consideration has occurred to either faction. It does appear, however, that neither party has observed the plainest principles of equity in dealing with the others."

POST 185, G. A. R.
The regular meeting of Ladd & Whitney post was held last evening, Commander Caverly in the chair. General orders from the national and department headquarters were read. Under the new business, the quarter post, for Capt. James B. Thompson, with a group picture of the "Four First Martyrs of the Civil War," Col. Ellsworth, Addison O. Whitney, Luther C. Ladd, Sumner H. Needham, Capt. Thompson was a Civil War veteran in Cos. G and D, 16th Mass. Vol.

A vote of thanks was extended to him, and when the post has to surrender its charter this picture, with others, will go to Memorial hall. The post accepted an invitation to attend Post 120, G. A. R., inspection, Wednesday evening, Nov. 11.

FRIDAY'S SUN FEATURES

The Old Timer Will Have an Interesting Review of Happenings of a Quarter Century Ago; Other Features

The Old Timer will recall the local celebration of the Catholic centenary in which many well known people appeared, and will relate how Commissioner Morse received a bump in Bridge street 25 years ago, together with other interesting reminiscences of quarter of a century ago. It is a safe bet that many Lowellians are at the present time in a state of uncertainty concerning their preference with regard to the style of a winter hat. Marjorie was in the same predicament, didn't know what style she wanted and went to Marie for advice. Whereupon the French Maid made some suggestions. These will be published in The Sun tomorrow and may help the readers just as they helped Marjorie.

The Chamorro Treatment is the newest and most effective local treatment for the complexion. Women who are troubled with skin troubles, etc., should give her skin the chamorro treatment. It is fully explained in "The Rabbit's Foot" in tomorrow's Sun. In Friday's Sun there will be printed an interesting suburban article with a discussion of various important suburban topics. "The Hands Family" is the story of a clock and the dreadful experience it had. Read this story to the kiddies at "Sleepytime."

If your teeth trouble you, see Dr. Gagnon, 466 Merrimack street.

"THE POLITIKEN," THE ORGAN OF THE DANISH GOVERNMENT, SAYS THIS ACTION ON THE PART OF GREAT BRITAIN, IS A HEAVY BLOW TO BRITISH SHIPPING

BOMBARDMENT OF TSING TAU CONTINUES, SAYS REPORT FROM TOKIO

TOKIO, Nov. 5.—It is officially announced that the bombardment of Tsing Tau continues. The Germans on the night of Nov. 3 made a counter attack which for a time hindered operations. The attacking forces, according to the statement, are now gradually closing in. Shells are falling in the streets of the town and the power-houses have been destroyed. On Nov. 4, the Japanese right captured some small forts and an officer and 20 soldiers.

BRITISH CASUALTY LIST

LONDON, Nov. 5.—A casualty list which was issued last night under date of Oct. 30 contains the names of 20 officers killed and 45 wounded. Those who met death at the front include:

Lieut. Richard Wellesley, second son of the fourth Duke of Wellington, of the Grenadier Guards; Lieut. Col. H. L. Anderson of the 9th Bhopal Infantry, and two native Indian officers. Among the wounded are: Lieut. Col. Maxwell Earle of the Grenadier Guards, a member of the general staff of the war office; Lieut. Col. L. W. B. Gray of the 15th Wildes Rifles; Capt. Hon. C. M. D. Ponsonby, of the Grenadier Guards, second son of the eighth Earl of Bessborough; Lieut. Col. L. L. Wood of the Border regiment; 2d Lieut. Hon. R. G. Wynne of the Coldstream Guards, eldest son and heir of the second Baron Stoswald.

AGED COUPLE INJURED

CLINTON, Nov. 5.—Mr. and Mrs. J. Henry Sawyer of West Berlin, aged about 70, were severely injured yesterday on Cameron street hill when their carriage was struck by a work car on the Hudson branch of the Worcester Consolidated Street Railway company. Both were thrown from the carriage. Mrs. Sawyer suffered a broken collarbone and multiple cuts and bruises. Mr. Sawyer was cut and bruised and his right side is paralyzed. Both are on the dangerous list at the Clinton hospital. Mr. Sawyer being considered the more seriously injured.

PUBLIC MARKET

JOHN STREET

HEADQUARTERS FOR NATIVE DRESSED, FRESH KILLED CHICKENS, FOWL AND BROILERS.

A great supply always on hand. Turkeys in stock all the year round. Notice some of our prices:

PANIC STRICKEN MEN TRAMPLED MOTORMAN

Fifty Passengers in Panic When Car in Which They Were Riding Crashed Into Auto Truck at Haverhill

HAVERHILL, Nov. 5.—Fifty laborers riding in a workmen's street car became panic-stricken early last evening when the car crashed into a two-ton truck near the end of the Haverhill bridge on Main street. Terrified, they rushed for the front and rear doors and the car was quickly emptied. Those who rushed out of the front door trampled upon Motorman Joseph Peters. He was taken to the Hale hospital, where he was found to have received serious internal injuries. Antonio Romano, one of the laborers, was slightly injured by being trampled on.

The laborers, who are employed on the reconstruction of the Bay State Street railway in Georgetown, were being conveyed to their homes on River street here. An auto truck of H. L. Taylor & Co. had broken down on Main street and another was towing it with a rope to the company's coal yard on water street. Near where the road meets the bridge the first truck crossed the track as the electric car approached. The car struck the second. Who was responsible for the accident is not as yet known, as Motorman Peters was unable to talk last night, but it is supposed that on seeing the first truck cross the track he believed the other would wait until he passed, not having seen the tow rope until too late to avoid the collision. The front vestibule of the car was crushed in, but the auto truck was not damaged.

UNIFORMED KNIGHTS OF PYTHIAS

Gave Fine Exhibition in Associate Hall With Large Attendance

Second Regiment U. R. K. P. of Boston Made Very Fine Showing

ROBERT J. FULLERTON, Chairman

Members of the order of Knights of Pythias from Lowell and vicinity assembled in Associate hall last evening to witness the patriotic exhibition and drill by members of the uniformed rank of the Pythian order. It was certainly a great Pythian night and the program was thoroughly enjoyed by the large attendance.

A feature of the evening was the presence of a solid company of the Second regiment, first battalion of Boston, which gave a sword and marching drill that has never been equalled in this city before. Witnessing the exhibition and drills were the members of the three local companies of the Sixth regiment, M. V. M.

Robert J. Fullerton was chairman of the evening and he introduced the various speakers and singers who participated in the patriotic entertainment given before Pythian members and the Sixth regiment. The first speaker presented to the audience was Col. A. F. Donnell, brigade mustering officer, of Boston who had for a subject "The Evolution of the Flag and Its Defense by Knights Pythians." The speaker brought out the fact that many of the members of the uniformed rank of his order are former soldiers who have served in the ranks and been at the front during war time. He also said that the government stands ready to accept the services of the uniform rank at any time, claiming that it is the only order in the country to receive such an honor.

"Under the Colors of Great Britain in the Boer War" was capably handled by Percy B. Dwyer of Boston company, second regiment, after a pleasing vocal selection had been given by Edward Burt of Boston. One of the most interesting talks of the evening was given by Lieut. Thompson, one of the six wounded survivors of the battleship Maine. Lieut. Thompson told in an interesting manner of the sinking of the ship and he was accorded a fine reception at the conclusion of his remarks. Another song was given by Mr. Burt.

Lieut. Col. Richard Skane, a veteran of the regular army, told of following the flag in the Philippines and in Cuba, and Captain Burt Remson, formerly a commissioned officer with Madero's army in Mexico, spoke on "Battling for the Right in Mexico." At 9:15 o'clock Captain Herbert Palmer of Boston went onto the floor with the Pythian company of the Second regiment, the prize company of the Massachusetts brigade. The evolutions were very good and brought round after round of applause from the audience. The sword drill was not only good to look upon, but it was carried through with surprising agility. The 32 men in the company made an excellent impression. Many visitors from the evening were present during the evening, most of them being connected with the uniformed rank. Among these were General Lewis J. McKensie, commanding the Massachusetts brigade, U. R. K. P., of Boston; Col. George W. Little, commissary department of Brooklyn; Col. A. F. Donnell, mustering officer of Boston; Col. A. J. Walton, chief of staff of Melrose; Col. Carleton H. Hutchinson, commander of the Second regiment, Massachusetts

brigade; Lieut. Col. H. S. Russell of North Chelmsford of the Second regiment; Percy B. Dwyer of Boston company; Lieut. Eugene Sleeper, of Boston company—formerly of this city; Capt. G. W. Rodway, past captain of Boston company; Capt. Herbert Palmer of Faulkner company, of Boston; Lieut. Maher, Boston company; Sir Knights Colpack and Remson, of Boston company; Serg. H. E. Halsey and Quartermaster Sergeant Perkins of Boston company; Capt. Edwin F. Lamson, First Lieut. Joseph Roberge and Second Lieut. Lester O. Mason of Butler Ames company of Lowell.

At the conclusion of the drill the Boston men partook of luncheon and then entered their special car and went home. The drill had been extremely successful from every standpoint, and the interesting addresses by members of the order gave a good insight into the patriotism of the order.

H. & M. ORDERED TO PAY \$58,194

BOSTON, Nov. 5.—Verdicts aggregating \$58,194 were returned yesterday in the superior court here against the Boston & Maine railroad by order of court.

The suits are based on the note issues of that road which could not be met when they fell due, and as a result some of the holders who did not agree to an extension brought suit.

Otto Belt received the Merrimack National bank note with a verdict of \$10,253.34, and Charles W. Arnold \$5125.67.

Interest begins Saturday, Nov. 7 at the Central Savings bank.

MT. VESUVIUS IN ACTION

RECENT ERUPTION AUGMENTED BY A NEW FISSURE—VILLAGES THREATENED

NAPLES, via Rome, Nov. 5.—The eruption of Mt. Vesuvius has been augmented because of the opening of a new fissure in the bottom of the old crater. From this new opening an extraordinary amount of smoke and a great quantity of ashes is being emitted.

This is blown by the wind toward the seashore, clouding the villages around the gulf and also the island of Capri, 20 miles south of Naples, which appears as if in a mist.

SEC. DONAHUE LEAVES HOSPITAL
Secretary of State Frank J. Donahue, who was injured in an automobile accident while campaigning last week, left St. Elizabeth's hospital yesterday afternoon for his home. He has been suffering from a fracture of the left elbow.

WOMEN TRAPPED IN FIRE NEW HAVEN DIRECTORS

RESCUED BY QUICK WORK OF BOSTON FIREMEN THROUGH THE FLAMES

BOSTON, Nov. 5.—With blazing kerosene trickling down the only stairs by which she could escape, Mrs. Ida General, with her friend, Mrs. Catherine Coyne, was trapped early last evening in the third story apartment at 1302 Dorchester avenue.

Mrs. Coyne rushed to the window and shrieked for help. Patrolman William Foley, the first to hear the cries, dashed up the burning stairway, and holding Mrs. General high above the burning liquid that scorched his feet and set fire to his trousers, he carried her out to safety.

In the meantime Laddier 7 had arrived, and Lieutenant O'Connell, with another fireman placed a ladder at the window and rescued the woman who had given the alarm. By this time the fire had got a good start and there was a lively battle to put it out. The fire started when Mrs. General, when "lighting up" to entertain her neighbor, tried to put a big kerosene lamp in a high rack at the head of the stairs and dropped it. The occupants of the lower floors got out without any trouble. The total loss was about \$1000.

Butlers, Brod., Flashlight, Lin., Frl.

KINDERGARTEN IN HOSPITAL

WORCESTER, Nov. 5.—The directors of the Memorial Hospital and society voted yesterday to take up a new line of work in establishing there a kindergarten for little children who may be confined to the hospital for any considerable time. The hospital makes a specialty of caring for children and many of the little ones are suffering from diseases that make their confinement for a long time necessary.

One teacher in the state normal school will have charge of the kindergarten and the children who are above the kindergarten age will be given a special class in industrial work.

REGARDLESS OF WEATHER CONDITIONS THE HIGHEST BONA FIDE BIDDERS SHALL BE THE ABSOLUTE PURCHASERS OF THE TWO HUNDRED AND FIFTY LOTS OF PROPERTY

MACHINERY—OTHER PERSONALTY—AND REALTY

FREE FROM ENCUMBRANCE

UPON RAILROAD AND TIDE WATER AND IN LOTS TO SUIT PURCHASERS

At Thomaston, Maine, on Thursday, the 12th day of November, 1914, commencing promptly at half past eleven o'clock in the forenoon upon the premises of the Thomaston Brick Company. Analysis and tests of the clays prove that the clays carry over 17% of alumina, are very high in silica, that brick made from them show from 30% to 60% greater crushing strength and from at least 30% to 50% less absorption, their fineness and freedom from saltiness of their products, they are also remarkably free from foreign matter in any way injurious to the manufacture of brick and pottery. There is not the remotest difficulty in drying and burning at a low temperature. Dry pressed brick from these clays have shown absorption as low as 20%; in wire-cut hard burned brick has not averaged 7%. It is equally good for fireproof hollow brick, tapestry and other fancy brick. The machinery and other personal property is practically new and of the very latest standard type. All the catalogues which may be had in detail in an illustrated and descriptive form, where all inquiries must be made. Freight rates average \$2 per thousand and less from Thomaston than from other sources of pressed face brick; all native brick labor 1750 ft. of spur track; this water frontage; naturally graded clay lands; a box of clay sent express paid upon proper request.

BRITISH WARSHIPS MISSING

90,000 Turks Rush to the Front
England Declares War on Turkey
Allies Make Progress, Says ParisTREMENDOUS RETREAT
OF GERMANS IN POLAND

Petrograd Claims Russians Have Driven Germans Out of Important Industrial Centers—Austrians Also Flee

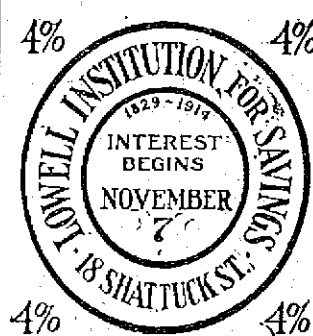

PETROGRAD, Nov. 5.—The new position of the German army front along the river Warthe over 75 miles west of the Vistula river, which they reached at the time of the attempted attack on Warsaw indicated the tremendous retreat of General Von Hindenburg's entire army in Poland during the past two weeks. This retreat is regarded as especially important since such noted industrial centers as Lodz, Plozow, Radom and Kielec are recaptured by the Russians. The strategic point at Sandomir at the junction of the San and Vistula rivers has also been re-taken.

There is particular elation over Russia's advance since there now seems little possibility of the Germans regaining the lost territory through any improvement of the roads, the condition of which was regarded as a large factor of the German failure. The improvement of the roads is considered more than counter-balanced by the enormous Russian reinforcements since received. While the population of that district, a month ago were vacillating in their sympathies, according

to the Petrograd reports, all are now enthusiastically with the victor.

On the East Prussian frontier, the Germans have met with no success in assuming the aggressive and at some points the Russians have even crossed into German territory. In this region, however, the German retreat was not marked by serious losses.

A GREAT DISCOVERY
Thirty-five years ago a young mechanic, thirty-two years old, bearing the name of Thomas A. Edison discovered the incandescent light. How he ever did it was all done so quietly, confidentially and surely. And how has he done so much in his peaceful way to bless the world? Only by working all the time, days and nights, and at some periods that he made into a day four days long, scarcely eating or sleeping for ninety-six hours at a stretch.

Of the Nine Vessels That Figured in Naval Battle Off Coast of Chile Only Three German Warships Have Been Accounted for — German Warships Blown up by Mines

PETROGRAD, Nov. 5.—A Turkish army, 90,000 strong, consisting of the 9th, 10th and 11th army corps, is massed along the Caucasian frontier, according to the Novoye Vremya. Many

villages have been occupied by the outposts of this army.

This Turkish army, the Novoye Vremya continues, would consist under normal conditions of 30 battalions of infantry, 60 batteries of artillery containing 230 guns and 40 squadrons of regular cavalry but to it has been added 50 regiments of Kurd cavalry amounting to 30,000 men.

Russia's sudden and energetic advance into Turkey is believed in Petrograd to have been meant to disband and overawe the Kurd tribes that are little interested in the success of Turkish arms and are more concerned in the safety of their own villages. Among the towns occupied by the Russians is Akhty, an important junction of the highways to the upper Euphrates river.

It is rumored in Petrograd that General Sanders Pasha will assume command of the Turkish troops on the Caucasian front.

THE FEATURES OF TODAY'S EUROPEAN WAR NEWS IN BRIEF FORM

No British warships are in Chilean ports. The fate of the three British cruisers that engaged five German warships off the coast of Chile and the transport that accompanied them remains a mystery.

On this mystery is based the British hope that one or more of their vessels survived the action. A despatch from Santiago today disposes of an earlier report that the British cruiser Glasgow and the transport Otranto, had gone and the transport Otranto, had been bottled up in Chilean waters by the German cruisers Leipzig and Bremen. The whereabouts of the two latter cruisers is also in doubt. Of the nine vessels that figured in the naval battle, only the German warship Scharnhorst Guelzenau and Neuenburg have been definitely accounted for. After coming into Valparaiso they again sailed.

Now was there any word today of the British battleship Canopus, which the admiral says had been sent to strengthen Rear-Admiral Craddock's squadron.

There is nothing to indicate that she arrived in time to participate in the fight.

Great Britain has declared war on Turkey and the Ottoman government, despite dissensions in the cabinet, is definitely committed to hostilities against Great Britain, Russia, France

and Servia. While Turkey becomes in effect an ally of the Teutonic allies she is, strictly speaking, waging an independent war upon Russia because of an alleged attack upon her by the Russian navy and upon the countries involved because of their espousal of the Russian cause.

The new drive for the seacoast of Belgium has been met by a counter offensive also augmented armies of the allies in the vicinity of Ypres. "The Franco-British lines have at no point drawn back," says the afternoon French official statement, "and our troops undertaking the offensive have made notable progress in several directions."

It is declared that the allies have made slight progress to the east of Neuport and that the German attacks from Dixmude to the Lys are being made with less energy. Renewed German activity is reported on the centre without notable change and on the right of the allies the situation remains deadlocked.

A despatch from Teheran reports that the Persians are much excited over the clash between Turkey and Russia. The pretender Salir of Dowlah has proclaimed himself as German candidate for the throne.

Great Britain has formally annexed the island of Cyprus in the Mediterranean, which has remained long under the suzerainty of the Turkish sultan, though with a British administration.

Berlin admits loss of Cruiser York blown up by a mine near Jade, one of the outlying defenses of Wilhelmshaven while in London it is declared that the German cruiser Koennigsberg has been destroyed.

The attitude of Bulgaria still is undetermined. Russia is said to be making diplomatic efforts to reconcile Bulgaria and Servia and prevent Bulgaria casting in her lot with Turkey. A despatch from Sofia says that the Greek government has assured Bulgaria that Greece will remain neutral. No definite word has come from Rumania.

The British and Japanese are still hammering away at Tsing Tau. Tokio announces that the attacking forces are gradually closing in but also states that the Germans on Tuesday night made a counter attack which delayed the operations of the allies.

Third Edition
AS ANGELS OF POOR
TWO SISTER NURSES

Marcella and Katherine McAdams Served at Chelmsford St. Hospital—Former Has Resigned After Nineteen Years' Service

Marcella McAdams has resigned her position as matron at the Chelmsford Street hospital after 19 years of as faithful service as it is possible for woman to render. She did not resign because she had tired of the work to which she had devoted the greater part of her life, but because of the fact she has arrived at an age far beyond the active stage of life. She has rounded out her three score and ten and while she feels that it is time for her to retire yet she admits she cannot do it gracefully because of her love for the work in which she has been engaged for so many years. She came to the Chelmsford Street hospital 19 years ago from the state hospital at Tewksbury, where she had spent many years as matron and attendant. Her kindly face, cheerful word, gentle touch and pleasant smile will be missed by those to whom she has administered during her long term of service at the Chelmsford Street hospital.

Ever untiring in her efforts to care for the unfortunate the place she will leave vacant at the local institution will be difficult to fill.

Marcella McAdams' sister, Katharine McAdams, is also a nurse at the Chelmsford Street hospital, and these two sisters have often been referred to by the inmates of that institution as "the visiting angels." They are the personification of kindness and the feelings of the inmates towards them approach adoration. They have given up their lives to the care of men and women mentally and physically infirm and never in their long time of service, at any hour of the night of day, have they hesitated when duty called them. Night after night they have sat at the bedside of those known to them only by name; men and women deserted by their own in their time of need. Marcella and Katharine McAdams didn't belong to any union. Their hours were regulated by the demand made upon their services and no superintendent or other officer ever heard them complain. Marcella McAdams' resignation will take effect on Saturday.

TRAFFIC IS BLOCKED

Traffic is somewhat blocked at the corner of Merrimack and Central streets today as a gang of Bay State street railway men is busy installing a new frog switch. In order to install the switch it was necessary to break up a part of the paving so that Traffic Officer Sheridan is busy keeping vehicles on the move in that section to prevent a blockade of the street.

COPPER KING IS DEAD

F. Augustus Heinze Taken Suddenly Ill at Saratoga After Voting—Stormy Career

SARATOGA, N. Y., Nov. 5.—F. Augustus Heinze, owner of immense copper interests in the west, died suddenly here last night.

Mr. Heinze, whose legal residence was Saratoga, came here yesterday from New York to vote. He became ill suddenly yesterday afternoon at the home of his cousin, Judge Nash Rockwood. His condition grew steadily worse and he expired early last evening.

Ill Since June

Mr. Heinze, who was 42 years old, had been ill since last June with cirrhosis of the liver. He came here against the advice of his physicians.

Mr. Heinze had made his home in Saratoga for the last six months and his son, F. Augustus H. Heinze, Jr., 21 years old, was the only relative he had here. His wife died about a year ago. A sister of Mr. Heinze, Mrs. William P. Fleitmann, and two brothers, Arthur P. and Otto Heinze of New York, are on their way here. No funeral arrangements will be made until they arrive.

During the half a year that he lived here Mr. Heinze seldom spent more than a few days at a time here, living

in New York and returning to Saratoga frequently to consult his attorney.

REMARKABLE CAREER

Heinze involved in litigation from beginning of career almost till time of his death.

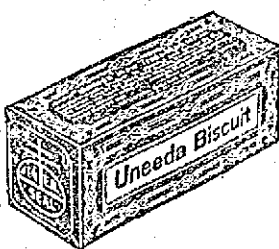

F. Augustus Heinze, one-time copper king and the most picturesque figure in the mining field for years, was born in Brooklyn, N. Y., Dec. 5, 1859. After completing his early education he entered the Columbia College School of Mines from which he was graduated just before reaching his 29th birthday. In the fall of 1889, after leaving college, he entered the employ of the Boston & Montana Mining company at Butte, Mont., for a salary of \$150 a month as a mining engineer.

A little later he was back in New York holding down a chair as a sub-editor on the staff of the Engineering and Mining Journal. The end of the mines was irresistible. Accompanied by Stanley Gifford—ever since his close associate—he went back to Butte. The young men each had \$5,000, borrowed money.

With this capital, Heinze and Gifford began leasing on the Ramsdell Parrot. Out of profits, they started a lease on

Always look for that Name

"SICK MAN OF EUROPE"

THE SULTAN OF TURKEY, AGED 65 YEARS, FACES CRISIS OF EMPIRE—REGARDED AS MAN OF PEACE

The sultan of Turkey, always referred to as the "Sick Man of Europe," is likely to become critically ill or else meet with a fine recovery as the result of throwing in his lot with the kaiser in the present war. Mohammed V. has been sultan for five years. He is called a good natured, pious old man of sixty-eight, obedient to the will of the Young Turks and of the Austro-German influence. After half a lifetime of palace imprisonment he was seized from his bondage and placed in power, while his brother, the erstwhile sultan, was relegated to political oblivion. The present ruler of the Ottoman empire has always been regarded as a man of peace and contentment.

ed, he financed himself for the big fight.

Would Not Be Licked

Only one thing was certain through all that bitter war—Heinze would not be licked. When the miners of the district rose en masse against him, and in support of Amalgamated, Heinze met them face to face, and after talking to them for 40 minutes from the steps of the Butte courthouse, won them over to his side. When the "dynamite and water" began between the miners employed by the opposing interests, Heinze was in shaft, drift and crosscut directing his men until the situation became so weighted with menace to human life that an agreement for amicable mining became a necessity.

Heinze played a higher card, took the lead and quickly exhausted his opponent's hand. When process-servers attempted to serve him with legal documents while he stood by the grave open to receive his mother's body, Heinze's hand went to his gun-pocket, and he told that process-server that the movement of a finger would cost him his life.

Loans Were Called

When the fight was at the hottest, the Amalgamated crowd got control of two New York city banks to which Heinze was heavily indebted. His loans were called. He agreed to reduce them at the rate of \$100,000 daily. A quarter of a million had been paid off in this manner when Heinze concluded that he must either sell out or pay of those loans and drop negotiations for good and all. He called on a friend to lend him \$250,000. The friend promised. Heinze went to H. H. Rogers' office that was when Amalgamated was offering \$5,000,000 and Heinze was asking \$5,000,000.

"I'm going back west," said Mr. Heinze to the Standard Oil magnate, "we can't come to an agreement."

"When are you leaving," asked Rogers.

"It is now Friday; I'm leaving Monday evening," replied Heinze.

"That being the case," began Rogers, by way of calling what he thought was a bluff, "drop in and see me next Tuesday afternoon at 2 o'clock."

That was Sept. 6, 1901.

Went Back to Mines

Disturbed as was the situation, the friend came through the next day with that quarter of a million; the loans were paid, and Heinze went back to the mines, leaving Amalgamated to accumulate that \$2,000,000 penalty for delay.

A little later Heinze went to Europe for a protracted visit. Then was the time, during his absence, when Amalgamated would surely get him. It didn't. Heinze's lieutenants were able to carry on affairs successfully, so well had they been trained; and it was this organization the strength of the organization which finally brought Amalgamated to its knees in settlement.

The last Heinze fight—his battle to clear himself of criminal charges brought in the federal courts—resulted in as clean a victory as did his fight against Amalgamated.

In 1905 Heinze came to New York willing to wager his last dollar, but within a few years his fortune dwindled and he was constantly embroiled in affairs that brought him into court again and again.

He established his brothers, Arthur and Otto, in the stock exchange firm of Otto C. Heinze & Co. He bought control of the Mercantile National bank from Edwin Gould and became its president.

Working through this bank and the stock exchange firm, he and his friends established a chain of banks. Things were breaking big in the financial world and Heinze and his name was heard wherever bankers and brokers got together. Then came the panicky days of 1907 and when every banker was husbanding his resources Heinze started to corner United Copper.

Beginning of End

That was the beginning of the end. Great quantities of stock were dumped into the market and were bought by firms commissioned to buy by Otto C. Heinze & Co. Debts came piling up and

ADVICE TO THE DEBUTANTE

The modern young girl of these days is a very strenuous person. Little debutantes in society are perhaps victims of late hours, indigestible foods and insufficient warm clothing in the chill night air, more than the average girl. But girls in any state of life should not fail to regard their health. Too often it happens that the debutante is not wise in this respect. Late hours, refreshments at all hours, a great amount of nervous excitement, all do their work and some one day our young lady awakes with a horrid start to the knowledge that her good complexion has vanished, and she is left with a skin dotted with blackheads, punctured here and there with small pimples, a generally sallow or pale appearance, lines around and under the eyes.

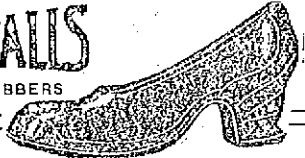

What an outcry is there, my countrymen! And straightaway heroic

measures are resorted to, to atone for past thoughtlessness and neglect.

The fact of the matter is such a loss need not have occurred. A little intelligence, a little forethought and that incomparable freshness which cannot be bought in any box, hailing from Paris or any other place, could have been retained and the girl possessed of such wisdom would have stood out among her less fortunate friends as the newly opened flower does among those about ready to fall from the stalk. Who would not achieve such a result, if it is within one's power to do so?

Simple enough are the rules whereby this can be done. Lost sleep—this is the traitor which so often depresses vitality and the next thing a cold is caught with all of its accompanying discomforts.

BEACON FALLS
TOP NOTCH RUBBERS

WHERE DO YOUR RUBBERS WEAR OUT FIRST?

The ladies who wear high heel shoes know from past experience that it is the heel.

Then why don't you buy a pair of Top Notch Rubbers with the patented, doubly-reinforced "Clincher Cushion" heel—the only real balanced rubbers sold in town. They won't break or split through at the heel before the rest of the rubber is worn. The heel is strengthened and reinforced to resist constant wear and tear.

Now is the time to buy these longer-wearing rubbers. You will find them just as stylish as they are serviceable.

THOMAS P. BOULGER

115 Central Street

LOWELL

C Otto Coke C

It's Hobson's choice as far as we are concerned. We handle both.

HORNE COAL CO.

the Glengarry, found high-grade and in a year bought the mine for \$25,000. Then they took up the Barus afterward included in the sale by United Copper to the Cole-Ryan syndicate.

The Barus was bought for \$100,000; it paid Heinze half a million yearly for years.

All this was in Mr. Heinze's "kid" years. He was only 22 years old when, in 1892, he organized the Montana Ore Purchasing company, and formed an alliance with the Lewisohns for the marketing of ores of the Butte district independently of the local smelters.

From the beginning Heinze was involved in litigation. It was claimed that ore bodies discovered in the Barus, one of his mines, ran into the property of other concerns. Suits were brought against him by the Boston & Montana and the Butte & Boston companies. Heinze had friends in office and in the courts and it was charged that legislation favorable to him was passed and upheld much according to his wishes. Anyway, he won these suits and others that steadily added to his fortune.

The late Marcus Daly had been chief owner of Heinze and rival companies and the stage was set for a copper war when Daly died, and when the Amalgamated Copper company organized. In April, 1901, with a capital of \$15,000,000, the stage was set for a great copper war.

Heinze soon was involved in litigation against Daly, the late Henry H. Rogers and other men representing Standard Oil interests as officials of Amalgamated.

Went to Canada

In 1892, while his first litigation was in progress, Mr. Heinze's attention was called to the LeRoy mine, in British Columbia, west of the Columbia river, and at a town now called Rossland, 25 miles by stage from the nearest railroad, and in the midst of a forest. When Mr. Heinze got there, all he found was a shaft about 500 feet deep, and a small house and three or four shacks.

Heinze immediately decided the mine would be a wonderful producer, and advanced \$60,000 to get control of the mine. He thereupon made a contract to smelt 100,000 tons of ore for the company, built a smelter at a cost of over \$600,000, and started the construction of a 41-mile railroad. In 12 months the community around the mine had grown into one of 30,000 people, and within two years the town of Rossland developed from the few shacks around the shaft into a town of 10,000 inhabitants.

Incidentally to this venture, Mr. Heinze undertook the construction of a 350-mile railroad, got an agreement for a government subsidy amounting to \$18,000,000, and took an option on the Crows Nest Pass coal fields, which recently passed to the ownership of the James J. Hill interest. Mr. Heinze was in British Columbia engaged in these ventures when, 1896, the Butte Copper war broke out.

There was treachery in his Butte camp, which had been previously busy from 1892 to 1896. Heinze suddenly jumped from British Columbia, made a lightning-like deal by which, in return for all his British Columbia possessions except one-half interest in 500,000 acres of timber land granted as subsidy for the 50 miles of railroad already construct-

on Oct. 18, 1907, the stock organization suspended Heinze and his brother, The State Savings bank of Butte, Mont., a Heinze institution, suspended payments. The clearing house committee compelled Heinze to resign from the Mercantile National bank presidency and began an investigation of its affairs.

also comparatively moneyless. He then went back to Butte.

Lost Suit for Million

During the last few years he has been in the public eye chiefly as a litigant in actions growing out of his Wall street career. His most recent appearance was as defendant in a suit brought by Edwin Gould to recover on promissory notes with which Heinze bought his way into the Mercantile National bank. The judgment for more than a million dollars went against Heinze.

During a previous action he had been reported dying and was unable to appear in court. He had hemorrhages of the stomach and cirrhosis of the liver. At the Gould trials his voice was weak and husky. He gave the out-

ward appearance of health, but his friends declared that he was very ill. In 1910 Heinze married Bernice Golden Henderson, an actress. Within two years Mrs. Heinze was given an interlocutory decree of divorce against her husband.

She was taken ill early last year, and when told she was going to die, she told the doctors she wanted to see her husband. Just before her death, in her husband's arms, she said to him, "Oh, Fritz, I want that divorce, set aside. I want it all wiped out for our boy's sake."

Her lawyer after her death began preparations to have the divorce set aside.

Made by the manufacturers of the famous

WRIGLEY'S SPEARMINT SPICY MINT LEAF JUICE

United Coupons now with both these WRIGLEY "twin mints."

NEW HARRISONIA HOTEL CANDIDATES SHY

FORMALLY DEDICATED BY MAYOR AND CITY OFFICIALS LAST EVENING

The Harrisonia hotel, Lowell's newest hotel, was formally dedicated last evening by a merry party of about 25, including Mayor Murphy, Councilmen Carmichael, Donnelly and Morse, City Solicitor Hennessy, Supt. of Police Redmond Welch, License Commissioner Hanson, Clerk J. Harry Phelan, State Building Inspector Carey, Sealer of Weights and Measures Warren Riddan, City Messenger Owen Monahan, Exalted Ruler John H. Farrell, of the Elks and others including the newspapermen.

While the hotel has been open for business for some time the little detail had not been completed until a few days ago and hence the delay in the formal opening. As Proprietor Frank Harris wanted everything complete before the exercises. The guests assembled shortly after 6 o'clock in the main dining-room and sat down to a sumptuous repast which was thoroughly in accordance with the high reputation which the hotel cuisine already has established. Mr. Emerson Robarge has charge of the splendidly equipped kitchen.

After the discussion of the menu City Solicitor Hennessy called to order, and after a few well chosen remarks introduced Mayor Murphy as the first speaker. The mayor congratulated Proprietor Harris upon the success of his undertaking.

City Solicitor Hennessy was never in better form as a toastmaster and that is saying something and his remarks introducing the speakers who followed were each a classic.

Among the speakers were Councilmen Carmichael and Morse, License Commissioner Hanson, Building Inspector Carey, who called attention to the fact that Mr. Harris had not only cheerfully met all the requirements of the law but had gone further toward making his building perfectly safe for his guests, City Messenger Monahan, Secretary John H. Cull, Lawrence Cummings, Robert C. Paradis and James Hanson.

After the speaking the guests were shown through the hotel by Mr. Harris and the inspection proved to be a revelation to the visitors who little dreamed that the Harrisonia had such elaborate and up-to-date appointments.

After the inspection the guests departed with best wishes for Mr. Harris' future success.

WALSH CONGRATULATED

MANY CALLERS AT HIS OFFICE AFTER ELECTION — HOGAN TO ASK FOR RECOUNT

Naturally the brightest spot at the state house yesterday was the governor's office, where the presence of interested callers who came to congratulate Gov. Walsh, on his reelection, a flood of telegrams and letters expressive of the same sentiment and several vases of American beauty roses, the gifts of friends, gave it an atmosphere that was thoroughly fitting to the occasion.

The meeting of the executive council at noon brought together many defeated candidates, all of whom took the results philosophically and joked Councilor Timothy J. Buckley for being the only democrat to win. Councilor John J. Hogan of Lowell stated that he believed a recount might substantially change the result in his district, in which returns show he was beaten by Judge Henry C. Mulligan of Natick, and that he would ask for one.

One of the earliest callers on the governor was ex-Mayor J. Edward Barry of Cambridge. The governor was receiving the attentions of a barber at the time.

"Come in, Mr. Mayor," said the governor, "don't mind the barber."

"I'm glad to see you're getting trimmed today instead of yesterday," said Mr. Barry, which felt the governor decided was one of the best of the campaign.

Another visitor at the governor's office was a Boston voter and old-time friend, who made a special journey from Texas in order to vote for the democratic gubernatorial candidate.

Considerable business received the governor's attention yesterday, and late in the afternoon he and Lieut. Gov. Edward P. Barry went out to inspect several sites for the proposed State Normal Art school building.

Gov. Walsh expects now to get a short vacation. He will attend the governors' conference next week at Madison, Wis., the dates of which are Nov. 10, 11, 12, 13 and 14.

TO PAY DEPOSITORS

STOCKHOLDERS OF ATLANTIC NATIONAL BANK OF PROVIDENCE

AGREE TO SETTLE ACCOUNTS

PROVIDENCE, Nov. 5.—Stockholders of the Atlantic National bank, now in the hands of a receiver, have submitted a proposition to take over the assets of the institution and pay any depositor dollar for dollar, it was announced yesterday. The offer was made through Patrick H. Quinn, chairman of a stockholders' committee and counsel for Edward P. Metcalf, former president of the bank, who awaits trial on charges in connection with the failure of the institution.

R. L. Curtis, the receiver, said he would submit the proposition to John Skelton Williams, controller of the treasury.

ENJOYABLE AFFAIR

Mr. and Mrs. Paul Kittredge Entertained Friends at Their Home Last Evening

Mr. and Mrs. Paul Kittredge entertained a number of their friends at their beautiful home, 95 Andover street, last evening, and all had a most enjoyable time. Mrs. Kittredge, before her marriage, was employed by the A. G. Pollard Co. and among those present last evening were many of her friends from this store. A very pleasing program was given, a feature of which was the contribution by Mr. W. Corby. He not only sang several delightful pieces but also gave a number of witty recitations, which were interspersed with his dedication to Miss Adelaide Doyle, a very clever and talented young lady who was highly enjoyed. Others who assisted in the program were: Mr. J. Macdonald, Mr. J. and Mrs. J. Linnahan and Mr. J. pleasant entertainment.

Mrs. Sproule the Only Woman Candidate for School Board

The time for filing nomination papers for the city election will expire Saturday afternoon at 5 o'clock and only four candidates have taken out papers for the school board. The four are: Dr. Lambert, present chairman of the board; Marion E. Sproule, 27 Hampshire street; J. Eugene Mullin, 6 Bleachery street; and Peter P. McMenamin, 1123 Lawrence street.

The candidates for alderman who have filed their papers are George H. Brown, Newell E. Putnam, Harry Clapp and Jeremiah P. Connors. Other candidates who have taken out nomination papers and who have not yet filed them are Frank Ricard, 420 Fletcher street; John W. O'Hara, 2 rear 104 High street; Henry P. Aubrey, 1 River road, off Andover street; John C. Kellher, 314 Memorial road; Joseph Mullin, 23 Burritt street; Andrew E. Barrett, 77 Mt. Vernon street; William W. Duncan, Stafford street; James F. McKella, 36 Hanks street; James E. Donnelly, 58 Albany street; Abel R. Campbell, 23 Harris avenue and James J. Gallagher, 165 Cumberland road.

The Pawtucket Sewer. If any job, either street or sewer, goes unfinished this year neither Commissioner Morse nor any other member of the municipal council can blame it on the weather. Weather conditions have been ideal for outside work and there will be no excuse for leaving any street or sewer job unfinished.

Two gangs of men employed on the Pawtucket sewer have been transferred to the Mt. Washington and Wilder street sewers. The work on these will be laid 165 feet of 10-inch glazed pipe and 669 feet of 10-inch Wilder street. Other sewer work will include Upham and Stevens streets, 20 1/2-inch pipe in Upham and 450 10-inch in Stevens street. Work on the trunk sewer between Woodward avenue and Hayes avenue will be finished this week.

The Park Commission. The park commission will meet Friday evening at 7:45 o'clock. The work of the park department has been pretty well cleaned up for the year, but there is considerable business to come before the board at its meeting. The question of sending money to the city will not enter in for the department hasn't any money to spend.

Building Permits Issued. Annie Elizabeth Matzen has been granted a permit for the erection of a bungalow at 311 Parker street. The building will be 25 by 35 feet, 5 rooms, reception hall, bath, etc., and the estimated cost is \$1700. Patrick Hickey has been granted a permit for additions and alterations to his house at 24 Cedar street. The improvements and alterations will include the addition of two rooms and a stairway to the ell. The addition will be 17 by 21 feet and the estimated cost is \$500.

Oats and Pig Lead. Purchasing Agent Foye has received from the street department a requisition for a car of oats and from the water department, a requisition for five tons of soft western pig lead. Mr. Foye announced today that bids on the oats would open Saturday morning and on the lead Monday morning.

FUNERAL NOTICES

LYNCH—The funeral of Mrs. John F. Lynch will take place Friday morning at 8 o'clock from her late home, in Andover street, North Tewksbury. Requiem mass will be sung at 9 in the Catholic church of St. Patrick's cemetery. Burial in St. Patrick's cemetery. Friends will kindly omit flowers. Undertakers Higgins Bros. are in charge of the funeral arrangements.

GRiffin—Died Nov. 4, in this city. Mrs. Harriet M. Griffin, aged 75 years, at 207 Liberty street. She is survived by one son, Mrs. Edna A. Neal, one granddaughter, Mrs. Oscar Merrill and a half-sister, Mrs. Elizabeth Healey of Raymond, N. H. Burial will be made at Auburn, N. H. The funeral arrangements are in charge of Undertaker George W. Healey.

WOGAN—Died, in this city, Nov. 4, at his late home, 202 Chatham street, John E. Wogander, at the age of 63 years, 8 months and 22 days. Funeral services will be held from his home, 302 Gorham street, Friday afternoon at 2:30 o'clock. Friends are respectfully invited to attend. The funeral arrangements are in charge of Undertaker William H. Smith.

EASTMAN—Died, in this city, at the Lowell hospital, Mrs. Carrie F. Eastman, aged 55 years. Funeral services will be held at 2 o'clock from her home, 18 May street. Friends are invited to attend. Funeral arrangements in charge of Undertaker John A. Weinbeck.

FUNERALS

ECKART—The funeral of Mr. David Eckart took place this morning at 8:50 o'clock from his late home, 753 Riverside street, Braintree, and was largely attended, including friends from Pittsfield, Mass. The cortege proceeded to St. Michael's church where, at 9 o'clock a mass of requiem was sung by the pastor, Rev. John J. Shaw. The deceased were Mrs. Fred Eckart, David Price, Joseph Price and Fred Roddy. The floral offerings were from the following: Family, Engle family, Edward L. Talbert, Agnes Bennett and G. S. and Mrs. Griffin. The interment was in the family lot in St. Patrick's cemetery where the consoling prayers were read by Rev. Shaw. The funeral arrangements were under the direction of Undertakers James P. O'Donnell and Sons.

HEFFERON—The funeral of the late Mrs. Catherine Hefferon took place this morning at eight o'clock from her home, 15 Concord street and was very largely attended by surviving relatives and friends. At the immaculate conception church at nine o'clock a high mass of requiem was sung by Rev. Owen McQuinn. Among the many beautiful floral offerings were: Mammoth pillow from the family of deceased and pieces from Patrick O'Loughlin and family, Mrs. William Mulloy, Mrs. James Poy and family, Mr. and Mrs. Clark, Mrs. Ward. The deceased were Patrick O'Loughlin, James Poy, John Poy, Michael O'Connell. The burial took place in the family lot in St. Patrick's cemetery, where the final prayers were read by Rev. Owen McQuinn. The funeral was in charge of Undertaker Charles H. Molloy.

Dean, duct; Miss H. Wilson, accompanist; Miss W. Hummersey, solo; Miss M. Hammett, piano selection; Mr. and Mrs. Paul Kittredge, songs and stories. Refreshments were served and all departed after wishing the happy couple continued to prosper and prosperity and thanking them for their hospitality and pleasant entertainment.

NOTICE

The Stock Yards at Chicago have been ordered closed and all killing of Beef and Hogs has been suspended.

This means that New England prices will be higher, but fortunately we have sufficient quantities of Beef and Pork bought ahead so we will continue to sell at even lower prices than usual. A glance at this list will convince you and just a tip in regard to flour, the war complications are fast increasing and when we say the price of flour is very soon to increase quite materially, we are telling you right, but for Friday and Saturday our prices on flour will remain the same. We advise you to take a chance and buy one to five barrels.

WRIGHT IS UNOPPOSED WILL FIGHT TO DEATH

WORCESTER MAYOR ONLY REPUBLICAN CANDIDATE FOR NOMINATION

WORCESTER, Nov. 5.—Time for filing nomination papers for the republican municipal caucuses expired yesterday and the papers filed show that Mayor Wright is unopposed for nomination for a third term.

Alderman Pehr G. Holmes, who now represents ward 6 in the upper board, is unopposed for the nomination as alderman-at-large. There are no contests in the aldermanic nominations, but for councilmen there are contests in wards 1, 2, 3, 7 and 9.

The candidates who filed papers are: For aldermen, ward 1, John G. Johnson; ward 2, Albert J. Johnson; ward 3, Alphonse Ducharme; wards 4 and 5, no nomination; ward 6, Christian Nelson; ward 7, Arthur T. Squires; ward 8, John P. Chase; ward 9, Alfred M. Van Dusen; ward 10, Daniel Waldo Lincoln.

For common council—Ward 1, Philip H. Duprey and Fred J. Daniels, Jr.; ward 2, Lester F. Clark and Michael J. O'Hara; ward 3, Theodore A. Buren and J. Simon Forques; ward 4 and 5, no nomination; ward 6, Walter W. Lacey and Carl J. Rolander; ward 7, John C. Ware, Wm. A. Kenney and Frederick C. Clark; ward 8, Frank L. Ham; ward 9, Albert H. Moss, Louis M. Friedman, Chas. B. Rugg; ward 10, Harry A. Cooke.

For School Committee—Ward 1, Emily F. Foster and Harry O. Anderson; ward 2, Edw. W. Wilder; ward 3, Joseph Vinciguerra; ward 4 and 5, no nomination; ward 6, Walter J. Cookson; ward 7, Louis B. Bragg; ward 8, Chas. H. Johnson; ward 9, Henry E. Dean; ward 10, Chas. H. Elder.

SUPPER AND ENTERTAINMENT

The regular monthly supper and entertainment of the Paxtucket Congregational church was held last evening in the church vestry. Mrs. G. C. Hatch was chairman of the supper committee and the entertainment was in charge of Mrs. M. L. A. Ayer. With Miss Marion Martin, director, the entertainment was furnished by several young women from the Grace Universalist church who presented: "Scenes from the Cabbage Patch," taken from the story, "Mrs. Wiggs of the Cabbage Patch," a Sunday school class of the Paxtucket church also participated in the program. Edith Miles, Charline Bartlett, John Weinbeck and Joseph Coburn, Jr. All the parts were well taken. The young women from the Grace church were: Mrs. Leslie Pullen, Hazel Weinbeck, Mildred Leeds, Dorothy Leeds and Doris Childs. Home made candy was sold at a table in charge of the Sunday school class of Miss Margaret Seaton.

MEN OF ROUND TABLE

The Men of the Round Table of the First Baptist church met last evening in the church vestry and, after discussing an excellent menu prepared by the Ladies' Benevolent society, assisted by the Sigma Sigma club, President Harry G. Pollard called to order and gave a very interesting talk on the proposed constitution and privileges of the organization. He appointed various committees on the reception to Rev. Mr. Archibald and family, to be held on a date to be selected. Five-minute speeches on the work of the organization were made by Messrs. P. A. Hower, P. J. Fleming, G. H. Taylor, W. T. Sheppard and A. G. Walsh.

"Personally Conducted" Trips to California Combine Comfort and Economy

Of course you have planned to take a California trip sometime, but possibly you have been waiting until you thought you could better afford it. If that is the case, I have some good news for you.

Our Personally Conducted Parties to California are especially planned to meet just such requirements. Our parties travel on Pullman fare tickets and have comfortable quarters in clean and attractive Pullman tourist sleeping cars. Your pleasure is looked after all the way by a cheerful representative of the "Burlington Route" whose first duty is to relieve you of care and point out and explain each of the thousand points of interest along the way.

The cost of it all is surprisingly low. If you will write, or drop in at the office and see me, I will be glad to explain every detail of the famous "Personally Conducted" parties. Agents: Stocks, New England Passenger Agent, C. B. & Q. R. 1, 284 Washington St.

LOWELL CO-OPERATIVE BANK

A special meeting of the shareholders of the Lowell Co-operative Bank will be held Friday evening, November 13, 1914, in room 39 Central Block, 33 Central street, Lowell, Mass., at 7:30 o'clock to consider proposed amendments to the by-laws which will be presented at the meeting.

WILLIAM D. BROWN, Clerk.

CARRANZA ASKS ONLY SUPPORT OF ANY PART OF ARMY—OTHERWISE HE WILL LEAVE MEXICO

SAN ANTONIO, Tex., Nov. 5.—"If all the chiefs of the constitutional army abandon me I will abandon my native land, but if on the other hand, any part of them sustain and uphold me, we will fight until death."

These are the distinct words with which Gen. Carranza is credited in a statement given out at the Mexican consulate here after the receipt of a telegram from Puebla late yesterday.

The statement said that Carranza issued the following relative to the action of the delegates at Aguascalientes: "These valiant generals have made effective a resignation that has never been presented or forwarded by me, and which I have never presented, and they have even gone so far as to appoint a president."

"By this last act they have fallen into a trap prepared for them by some of the Madero congressmen. It was these men who were responsible to a great extent for the overthrow of the Madero government. The Apostles of Madero and these same men are now causing more trouble for the nation through their intrigues and ambitions."

CARRANZA ARCHIVES AT PUEBLA
PUEBLA, Mex., Nov. 5.—The constitutional provisional government, with its cabinet members and archives, was moved yesterday to Puebla, where Gen. Carranza has been for several days. The archives were received yesterday from Mexico City. The cause of the change of the government seat was not given.

CITY ELECTION REGISTRATION

Yesterday was the first day of registration for the city elections and 32 men and 11 women registered at the registrar's office at city hall. The registration by wards was: ward 1, nine; ward 2, one; ward 3, four; ward 4, one; ward 5, one; ward 6, five; ward 7, four; ward 8, two; ward 9, five; ward 10, one; ward 11, one; ward 12, two; ward 13, one; ward 14, one; ward 15, one; ward 16, one; ward 17, one; ward 18, one; ward 19, one; ward 20, one.

CITY OF AMERICA

A largely attended meeting of the City of America club was held last night at the quarters of the club, 100 North Main street. President Maxine Lepina was in the chair. Four new members were initiated and considerable business was transacted.

A delegation from the Cercle Montcalm in Lawrence, consisting of J. L. Lamotte, Daniel Touchette, William St. Pierre was present and the men challenged the club in a whist tournament for a silver trophy. The challenge was accepted and it was decided to form a team composed of 36 of the best whist players in the city. The first game will be played on Friday night. The Lowell delegation will go to Lawrence and then a return visit will be paid by the Lawrence men.

OFFICERS ELECTED

At a recent meeting of the Women's Research club, the following officers were elected for the ensuing year: President, Mrs. Cyrus Barton; vice president, Mrs. Robert Fulton; treasurer, Mrs. Ernest Livingston; recording secretary, Mrs. John Simpson; Mrs. Herbert Grover will be in charge of the flower money. Mrs. John J. Cluin, retiring president and Mrs. Frank Hoyt, retiring vice president, were presented beautiful bouquets of pink.

ENTERTAINED SOLDIERS

The Lowell, Lawrence and Haverhill tents, Daughters of Veterans, presented the following program at the Soldiers' Home in Chelsea, Tuesday afternoon:

Piano selection, Mrs. Esterbrook of Haverhill; reading, Mrs. Nora Whelan of Chelsea; piano solo, Miss Mary Frances Carty of Lawrence; reading, Mrs. Mary Gayette of Lowell; piano solo, Miss Simpson of Lowell; reading, Miss Mary Frances Carty of Lawrence; chorus of patriotic songs, the veterans; piano selections, Miss Esterbrook of Haverhill.

BOARD OF TRADE

Continued

peace conference, and he said he returned immediately to London, where he remained until the end of August, keeping in touch with many important circles. When he saw he could not gain there he went to Germany to confer with the leading military and political thoughts in order to understand more clearly the German point of view. During the summer he was also in touch with leading international workers in France, Belgium and Holland.

Mr. Mead spoke of Serbia having been attacked by Austria for 20 years and said:

There has, therefore, rolled up in

INDUSTRIAL AND STORE NEWS

All up for the Woodblines' husking bee and dancing party tomorrow night.

The basketball team of giants managed by Michael Weir will play their second game Friday evening.

Miss Anna O'Donnell of the Ipswich history has returned from a visit to relatives in Natick.

The smoke talk held under the auspices of the Leather Workers' union was a very enjoyable affair.

Mr. Ernest Goehring of the Putnam & Son clothing store is having a new boiler installed in his residence.

Mrs. Katherine Haley of the Helms Electric Co. has returned from a delightful two weeks' sojourn at Lewiston, Me.

Benjamin Golden, president of Carpenters' union, local 12, is one of the hardest working union officials in the city.

It is said that municipal candidates who spoke at a local mill gate yesterday got a frosty reception despite the mild weather.

The dance held by the "Hicks" Tuesday evening was a complete success for the simple reason that gliding dancing was done nearly exclusively.

The A. G. Pollard Employees Mutual Benefit association will hold its annual banquet and theatre party tonight.

"Kid" Kneafsey of the F. & M. car shops has entered five contestants in the prize glide waits at the Butlers dance at Lincoln hall Friday evening.</

THREE DOLLARS PER YEAR TWENTY-FIVE CENTS PER MONTH

PROGRESSIVE SLUMP

The one fact that stands out prominently from the Massachusetts political situation, as revealed by the recent elections, is the total failure of the progressives as a political party. They are scattered beyond redemption and it is doubtful if they can hold together, even nominally, until the next state election. The pitiable 27,000 left from the 127,000 of last year will in all probability look around to see which party banner they may line up under, consistent with their once strongly-expressed political principles. Even the magic voice of their mighty founder, is silenced and resounding speeches will be powerless to effect a political resurrection.

To what has this disintegration been due? To many things, chief of which was the domination of the party by a few personalities, instead of by principles. Nationally it was the party of Roosevelt, locally it was the party of Bird, and with the growing suspicion of Roosevelt indifference and the elimination of Bird from the political arena, their following fell off. No man or group of men may hold a party to its allegiance. If the party be not greater than the individual it cannot long exist. Another factor that brought disorganization to the progressives was their proclivity to put vote-baiting before right else. Any and every reform that even remotely bore the imprint of reform or progress was seized upon and in the end the party was a jumble of unrelated and discordant elements. The stealing of the prohibition plank was the last enormity, which helped the avalanche along.

Most of the progressives who became "regular" during the last election went back under the republican banner, thus making light of all their former vehemence against republican machine rule and standpat policies. There is little progressiveness in the election of Cannon, or Penrose, or Wadsworth or of the other republicans who represent the things that the progressives were formed to fight. The battle of Armageddon has ended in an undignified retreat, and the progressive who voted for republican candidates, need not try to reconcile his desertion with his former declarations; he cannot make it appear logical.

Not so with those former progressives who voted for Walsh. Realizing the coming disintegration of their party they cast their vote for the party that has stood for progress in recent years, and that pledged itself to progress while in power. The democratic party has still two years to make good, and in that time a reaction may set in against renewed republican rule. That the influence of the progressives as a unit will count for little in future seems to be certain, but they may be yet heard from in another direction. Should the chief bull moose of them all issue a last despairing cry, there might be still a feeble rally to the appeal, but that is not likely. National circles will reveal in 1916 whether the progressives are as dead as they appear to be at present.

The loss of democratic seats in congress with some other defections noted in Tuesday's elections in various states is the result of the progressive slump and a sort of reaction that usually follows the party successful two years before in a presidential election. It is not in any sense a condemnation of the Wilson administration.

TENEMENT OWNERS BLAMED

There was no beating about the bush in the speech of Ralph Cram, an architect and member of the Boston city planning board, when he declared at a meeting of the Massachusetts Federation of Progressive Women on Tuesday that tenement owners are responsible for many of the unsanitary, immoral and generally undesirable conditions that exist in congested communities. "Bad tenements make bad citizens," he said. "They can make in six months the work of six years' public schooling. The conditions in the North, West and South ends preclude citizenship."

The ordinary critic who has little sympathy for the immigrant goes through the crowded sections of Boston or of Lowell and blames the dwellers therein for most of the evidences of carelessness and indifference. He does not generally stop to consider that the squalid surroundings offer little incentive for personal or civic cleanliness. Too often these surroundings are due to the almost criminal carelessness of some tenement owner who is getting good returns for the small amount of money invested and who has no interest in the buildings or those who live in them other than the interest of rent collecting. Yet the selfish profit of the individual is the loss of the community as well as of those who are compelled to live in unhealthy and unlovely surroundings.

As summed up by the member of the Boston board: "The average man can pay only one week's wages, perhaps under \$30 for a month's rent. Tenement owners are making 15 and 20 per cent profit on providing him with quarters crowded and unsanitary." He advocates a law to permit a city to acquire available land and to erect on it good tenements for its citizens. Washington has such a law, he says. A law to this effect is scarcely necessary as the public would demand better working conditions for the masses if the great need for them was appreciated. With more desirable tenements it would scarcely be necessary to have so many health conferences and regulations such as that started in this city recently to fight tuberculosis.

Tenement dwellers will not in all cases respond automatically to the efforts of those who would improve their condition, but many interests waste efforts to better their lot while ramshackle buildings without sufficient light, air or space are permitted to stand in the hearts of our cities. In all directions around Lowell are thriving little farms managed by immigrants who for a time lived the congested and filthy life of the slums. The change has meant wonders for them and the state is benefiting indi-

rectly. It is impossible that all who live in undesirable buildings should become farmers, but there is room for hundreds in some of the suburbs, away from the overcrowded alleys of the heart of the city. Meanwhile, the housing situation would be solved sooner if some of the well-meant energy directed to the tenement dwellers were directed to the tenement owners who permit human beings to live like bees in a hive, because the financial returns are so satisfactory. We need more public critics with the courage, intelligence and human sympathy of Ralph Cram of Boston.

NEW HAVEN INDICTMENTS

The indictment of a score of directors of the New Haven railroad, under the terms of the Sherman anti-trust law, may not amount to anything tangible, but it is the logical continuation of the attitude taken by the state and federal governments. If it is wrong, then the entire drive against past New Haven management was wrong from the start and the monopolistic corporation should be today exorcising itself from the self-sought quagmire of financial perplexity, without interference. That the Massachusetts public was averse to the management of the New Haven at that time was demonstrated over and over. If the public be consistent, then, how can it be averse to the latest move of the federal authorities?

Unfortunately the law under which so many notables have been brought to an accounting does not go far enough to demonstrate its effectiveness or to enable one to forecast the result. The point at issue will be merely to decide if the directors are personally responsible for forming a combination in restraint of trade, or whether they are innocent of the charge. That in bringing about this combination the money of the stockholders was wasted like water and that business was hurt as a consequence will not figure in the result. The trust or combination aspect of the matter is the all important one—and the government has never yet achieved a notable victory in trying cases where alleged trust activity is involved. It seems certain, therefore, despite the principle involved, that the indictment will come to naught.

If the government needed justification for its action it would find it in TRY THIS FOR YOUR COUGH. Thousands of people here coughing because unable to get the right remedy. Coughs are caused by inflammation of Throat and Bronchial Tubes. What you need is to soothe this inflammation. Take Dr. King's New Discovery. It penetrates the delicate mucous lining, raises the phlegm and quickly relieves the congested membranes. Get a free bottle from your druggist. "Dr. King's New Discovery" quickly and completely stopped my cough," writes J. R. Wadsworth, Lowell, Mass. Money back if not satisfied, but it nearly always helps.

the accusations of the public, in the finding of the Interstate Commerce commission, in the admissions of past President McLean and in the virtual confession of New Haven officials. It does not, however, need any justification; the errors of New Haven management have been long ago demonstrated fully. The public will watch the case with unusual interest, realizing that it establishes a new record for anti-trust activity. Needless to say, failure to convict may be due as much to the ineffectiveness of the law as to the innocence of the accused.

CHILD SAFETY

A review of accidents to children in Boston for the month of October shows that in spite of safety first campaigns and the constant agitation, there were 25 accidents within the first three weeks or so, eight of which were fatal. Many of the accidents were avoidable and most of them were due to the natural carelessness of children who played in the public streets. So common have such occurrences become that they arouse but little interest as news items, but were the eight white hearses placed in a row, followed by the maimed and seriously injured seventeen, the public would have some idea of the misery, lasting pain and heavy expense that follow accidents to children.

Five of the fatal accidents were due to the automobile, and one each was caused by the trolley, the railroad train and the wagon. Six of the eight children were less than 8 years old, one being only 4. Twenty-three out of the twenty-five were girls. Three of the accidents were due to the ride-stealing habit but most of them were due to carelessness on the part of children on the street or ignorance of the rules of traffic.

This list may be unusually large, even for Boston, but the observant citizen will not wonder, though his observation be confined to Lowell, for in this city children play commonly on the streets without any realization of the danger they incur. Over and over again The Sun has called the attention of parents and teachers to the necessity for instructing children in the elementary rules of juvenile safety but such instruction is not given, or, if given, is generally disregarded. So long as the tragedies that happen from time to time do not come home to us we are apt to be more or less indifferent, but a list such as that of Boston shows the appalling toll of dead and

maimed yearly as the result of childish ignorance.

RED CROSS NURSES

One of the inspiring results of the war is the readiness with which noble women of all nations have volunteered their services for the Red Cross, not in a burst of emotion but as a calm expression of what they considered their duty. The rules of the society bar any that are too young to realize the sacrifices involved or the efforts required and therefore practically all who respond to the call of the Red Cross are scientifically trained and well poised women who give their service without thought of material gain or selfishness. In the hospitals of Europe, Sisters of Charity work side by side with women of America, of England, of France, of Germany and of other nations, the inspiration of each being too lofty for any thought of narrow patriotism. The world of the suffering is their country and all who need their care receive it, be they on the side of the Germans or of the allies. In other wars the Red Cross nurse followed close on the battle, often going on the corpse-strewn field, but today but few of them see actual fighting. Scientific care of the wounded has advanced wonderfully and soldiers are treated in up-to-date hospitals with modern appliances. Still, the story of the Red Cross nurse has not dimmed, and she is entitled to all the honor that crowns unselfishness and devotion to duty in its highest sense.

Still England is tantalized by German naval tactics. Instead of coming out in the open and risking a drawn conflict, German ships and submarines stay under cover until they can steal out and give a telling blow in safety. In this way the naval story of the war seems to be on the side of Germany. The latest strokes near the English coast and in Pacific waters must make England look forward still anxiously to the day of vengeance on the seas.

The slaughter of the pheasants is slight indeed as compared with the disappearance of one hundred thousand bull moose from Massachusetts.

Among those who are glad that the state elections are over are our local notables who have been preparing street speeches for some time past.

Of course you had it figured out just right.

SEEN AND HEARD

You can't mend a broken word.

Luke McLean says: The old fashioned woman who used to have a dress that she put away because it was "too good to wear" now has a daughter who kicks because she can't find anything good enough to wear.

It always jars a man when he discovers how much corned beef and cabbage the ethereal and spiritual little thing he married can stow away.

Friend wife will wear an old raggedy skirt that came over in the Mayflower and a greasy waist that any soap factory would like to have, and she will tie a rag around her head and put an old pair of slippers on her feet. Then she will start in cleaning up this house. And she will run across a magazine and sit down to look it over and will laugh heartily at the pictures showing the funny costumes worn by

immigrants when they arrive in this country.

The fellow who couldn't find work because the porch climbing trusts had put the country on the toboggan hasn't time to hunt for a job these days because he has to fight the European war all day.

The kind of man who knows what big words really mean always uses small words.

CONSPICUOUS

A girl walked down our streets the other day and every man in sight turned to look at her. No, she did not resemble a living model of "September Morn." She was very decently dressed, her skirt was ample enough to balance herself like a parrot on a perch; her waist was modestly made, and did not expose any more neck and shoulders than was becoming, and you couldn't tell the complexion of her ankles because her hose were of sufficient thickness to hide them. In fact, she was so run a specimen of modestly attired femininity that the men just couldn't help staring. (Lexington (Kan.) News.)

UNPLEASANT RUMP

We oldest set for the youngsters

GAS ON THE STOMACH. Flatulence, or gas in the digestive tract is an annoying accompaniment of indigestion and constipation. As a rule it indicates that food is being retained in the stomach and intestines longer than nature intended.

When colicky pains accompany the presence of gas the need of a gentle laxative to clear away the offending food residue is imperative. If the condition of constipation is not quickly corrected a coated tongue, eruptions on the skin, headaches and backaches soon show that the poisons have found their way into the circulation.

The use of the gentle laxative pills Pinkettes will not only banish these unpleasant symptoms quickly but, if used regularly for a reasonable time, will really correct chronic constipation. Pinkettes are not like harsh purgatives that leave the bowels dry and in the end worse than before. Pinkettes gently assist nature, never gripe and are so small and easy to take that they are known as the "dainty laxative." Your own druggist can supply you with Pinkettes or they will be sent by mail postpaid, by the Dr. Williams Medicine Co., Schenectady, N. Y., at 25c per bottle. Send for the book "The Dainty Laxative," telling how to treat constipation.

DRY KINDLING WOOD

That is dry, \$2.00 per load, \$1.00 per half load.

"BLOOD WILL TELL"

The Heroes of the War.

"Blood will tell," is an axiom that in all the ages has never been gainsaid. Every man who does a brave, heroic act carries within his veins a quality of blood that urges and sustains him. No matter whether he inherits it from a long line of famous ancestors or from the sound and healthy constitution of his immediate parents, whose only distinction is honorable toil and a simple, virtuous life.

It matters little where or how you obtain it, but it matters all the world that by some means you possess good blood. Good blood is first, last and always the making of many men and womanly women. It is the source of all courage, virtue and happiness. A new man can be made out of one that's "used-up," bilious and dyspeptic. It's done by Dr. Pierce's Golden Medical Discovery. It starts the torpid liver into healthful action, purifies and enriches the blood, cleanses, repairs, and strengthens the system, and restores health and vigor. As an appetizing restorative tonic, it sets at work all the processes of digestion and nutrition, and builds up flesh and strength. It's the only Blood and Liver Remedy that's guaranteed. In every case, to benefit or cure. If it doesn't do all that's claimed for it, the money is promptly refunded. But it keeps its promises—that's the reason it can be sold in this way.

It is not a secret remedy for its ingredients are printed on wrapper. You only pay for the good you get. "Discovery" strengthens Weak Lungs, relieves Shortness of Breath, Bronchitis, Severe Coughs and kindred affections.

FREE—Dr. Pierce's Common Sense Medical Adviser, bound in cloth, is sent free on receipt of 31 orange stamps to pay expense of wrapping and mailing only. Address: Doctor Pierce, Invalids' Hotel, Buffalo, N. Y.

a higher standard than we get for ourselves. Forgetting that you can't make a silk purse out of a sow's ear, the stupidest and ugliest failures of parents expect their sons and daughters to grow up miracles of beauty, intelligence and success.

The speaker was Wilton Lackaye, the occasion the Lamb's gambol in New York. He continued:

"Sometimes, though, such parents are called sharply to themselves. The jolt is unpleasant. 'A father said to his pretty daughter one evening with a scornful, angry laugh: 'That young Jameson has the face to want to marry you. A mere book-keeper!' 'But, father,' said the girl, 'I love Mr. Jameson. What is your objection to our marriage?' 'Why?' asked the old man, 'why he couldn't support you decently.' 'But, father,' said the girl, 'neither can you.'—Exchange.

TAKING A LETTER TO JONES

Many a man who complains of the stupidity and lack of interest shown by his stenographers gives his dictation about like this:

"Take a letter to Jones. I'll give you the address later. John Jones—Dear Sir: Replying to your letter of the 10th, we think you are mistaken about this order. As you said in your previous letter—where in thunder is that letter? It's very funny nothing is ever around when I want it. I can't go to the file every time I want a letter. All right, I've got it—in your previous letter of the 6th, you said you wanted this order hurried at any cost. Therefore we shipped as you directed. If the order did not reach you in good condition—no, scratch that out—if the goods reached you as you say—scratch that out—we cannot be responsible for goods—scratch that out. What did I say last?—Having shipped the goods as you directed, we do not feel responsible for the condition in which they reached you. Paragraph. In a case like this, it hardly seems as if you could expect (long pause)—period. Read over what you have there. O Lord, I can't send any such mess as that. You don't seem to get my ideas at all. Here, add this on to the next to the last paragraph—We think you will see from this that your position is unreasonable. You have our final decision and we cannot alter it in any way. Trusting that this is plain to you, we are, making my caboose of that and send one to the Philadelphia office and don't mess it up any more than you can help.—Truth.

THE MISSUS

Who is it clears life's paths for me? The Missus.
Who's blind to faults that others see? The Missus.
Who always greets me at the door When each day's bit of work is o'er? Who laughs at jests she's heard before? The Missus.

Who puts the buttons in my shirts? The Missus.
Who smiles at disappointment's hurts? The Missus.
Who when the children wake at night Gets up to see that they're all right And leaves me snugly sleeping tight? The Missus.

Who fills the house with mirth and song? The Missus.
Who bravely smiles when things go wrong? The Missus.

Who knows the very worst of me At all my own good contrives to see? Who labors most unselfishly? The Missus.

Who makes the home a gracious spot? The Missus.
Who never whimpers at her lot? The Missus.
Who fills with sunshine every day, Drives all the clouds of care away? Who gets but very meagre pay? The Missus.

—Edgar A. Guest.

WHAT HIT HIM

Many queer things happen in war time. There is a story which is today repeated in Highland troops of a funny incident that befell one Johnny Ross of the 33d Sutherland Highlanders at Lucknow, in India, during the great mutiny.

Before falling in for the assault on the Begum's palace Johnny Ross and George Puller, with some others, had been playing cards in a sheltered corner, and in some way quarreled over the game. They were still arguing the point when a signal was given to fall in, and Puller told Ross to "shut up."

At that moment a spent bullet struck Ross in the mouth and knocked out four of his teeth. Johnny thought it was Puller who had struck him, and at once returned the blow. "It wasn't I that struck you. You've got a bullet in your mouth!" And so it was. Ross put his hand to his lips and spat into it four front teeth and a bullet. He at once apologized to Puller for having struck him,

and added: "How shall I manage to bite my cartridges now?" Those were the days of muzzle-loading cartridges, which had to be torn open with the teeth when loading—Washington Star.

POLICE SEEK ANTOSCIA

He is Charged by the Authorities of Olneyville, N. H., With the Murder of Rafael Ghiblerio
PROVIDENCE, Nov. 5.—Antonio Antoscia was sought yesterday by the police of Olneyville on a charge of slaying Rafael Ghiblerio. He lived with his wife and 11 children at 439 Union avenue.

After the slaying Antoscia got away through the aid of a friend, it is alleged. Patrolman W. J. Keenan was near and saw the men a few

minutes before the murder, but when Ghiblerio was stabbed the men in the party made no outcry and did not call the officer, who just passed them. It was not until the fatally-wounded man reached a saloon on Union avenue that the policeman learned of the trouble.

OLD-TIME REMEDY MAKES PURE BLOOD

Purify your blood by taking Hood's Sarsaparilla. This medicine has been and still is the people's medicine because of its reliable character and its wonderful success in the treatment of the common diseases and ailments—scrofula, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling, general debility. Hood's Sarsaparilla has been tested forty years. Get it today.

Business is often influenced by suggestion. Suggestion for any occasion in abundance here.

Frank Ricard

RUSSIANS ROUTED TURKISH TROOPS

PETROGRAD, Nov. 5.—The following official communication has been received from the Russian general staff:

"In Caucasasia one of our columns suddenly attacked the enemy near Argost, 15 miles south of Kars, near the boundary of Turkish Armenia. The Turks fled, abandoning their wounded. Having dislodged the Turks from the village of Id (about 50 miles west of Argost) over the line into Turkish Armenia, we took a great quantity of food. After a violent combat our troops seized Khorasan (in Turkish Armenia, 30 miles southeast of Id) and Col-Kasabent. One hundred Cossacks attacked the trenches of the enemy and captured the Turkish infantry. One of our columns having passed through difficult roads for a distance of 35 miles in 30 hours encountered the Turks at Mysoune and Dyudin (about 30 miles west of Bayazid, which is the capital of Sanjak of Bayazid) we dispersed a large body of Kurds and occupied Dyudin, where we took many prisoners. Nov. 3 we occupied Bayazid, where we routed the Turkish troops, who resisted strongly."

BRITISH AND JAPANESE FLEETS CHASE GERMAN—LAST NIGHT'S FEATURES
British and Japanese fleets start in

pursuit of the victorious Germans off Chile.

Russians claim decisive victory over Austrians along Kielev-Sandomir front with 15,000 Germans taken.

Eight Japanese warships reported at Easter Island, 2300 miles west of Chile. Paris announces the advance of allies east of Dixmude and south of Arras.

Berlin official statement claims successes at Ypres, north of Arras and east of Soissons.

German trawler destroyed by mine off Langeland, in the Great Belt. Turkey definitely breaks with the allies and recalls its diplomats.

Greece reported to be preparing to enter war on side of allies. Robert Bacon declares Germany has broken treaty with United States by violating Belgian neutrality.

LONDON REPORTS GERMAN CRUISER KOENIGSBERG PUT OUT OF ACTION
LONDON, Nov. 5.—The Times prints a report today that the German cruiser Koenigsberg has been put out of action in the Indian ocean.

The Koenigsberg was a protected cruiser of 3300 tons and had a speed of 23½ knots. Her main battery consists of ten 4-inch guns.

BERLIN DENIES THAT RUSSIAN TROOPS HAVE TAKEN PRISONERS
BERLIN, Nov. 5.—It is declared offi-

cially here today that the Russian troops on the eastern front have not recently been successful in taking prisoners. Nor have any German wounded fallen into their hands. Furthermore, the authorities have no knowledge of the loss of any German machine guns to the Russians.

GERMAN CRUISERS STEAMED AWAY FROM VALPARAISO YESTERDAY
LONDON, Nov. 5.—The German armored cruisers Scharnhorst and Gadesmau and the light cruiser Nuernberg steamed away from Valparaiso at noon on Wednesday, according to a despatch to the Reuter's Telegram Co. from Santiago, Chile.

SAYS TURKISH OFFICIALS IGNORED ANT OF FLEET'S ATTACK ON BLACK SEA
LONDON, Nov. 5.—A despatch to the Times from Dedeagach, a seaport of European Turkey, dated Monday, affirms that some members of the Turkish government were quite ignorant of the Turkish fleet's attack on Black sea ports two hours after foreigners were aware of it. On hearing the news the grand vizier, Prince Said Halim fell ill and resigned. On Friday morning last the Russian ambassador, unable to see the grand vizier owing to his illness, asked for his passports.

clerk district court of Central Middlesex.

Frederick H. Thompson of Fitchburg, medical examiner, Worcester county.

PAPE'S DIAPEPSIN FOR INDIGESTION OR BAD STOMACH

Relieves Sourness, Gas, Heartburn, Dyspepsia in Five Minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia, when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.

MURDERERS MUST DIE

PEOPLE OF ARIZONA DECIDE FATE OF IS BY VOTING AGAINST ABOLITION OF CAPITAL PUNISHMENT

PHOENIX, Ariz., While voting their state dry in the election yesterday, the men and women of Arizona sentenced to death 15 condemned murderers who have been held in the Florence penitentiary under reprobation, pending the vote on the proposal to abolish capital punishment.

The proposal to limit railroad passenger fares to three cents per mile was approved. All other propositions were defeated.

Fred C. Church held the insurance on the building at contents of Michael Ameron, 65100 Suffolk street, damaged by fire last night.

ENDORSEMENT OF WILSON

SEN. STONE SAYS HE WOULD PRESIDENT ELECTION SHOWS APPROVAL OF HIS POLICIES

ST. LOUIS, Nov. 5.—Senator William J. Stone of Missouri considers the result of the election an emphatic endorsement of the Wilson administration. He said today:

"The republicans have been saying that if they could become united, they could lick us.

"They were united everywhere and their contest generally was a clean-cut fight between the democrats standing by Wilson's administration and the republicans opposing it.

"Considering the fact that this is an off year; that the democrats have enacted a new tariff law and new currency legislation, that we have had to meet the hard times cry and

WHY EYESIGHT FAILS

BY A SPECIALIST

Failing eyesight is often caused by neglect and by forcing eyes to do work for which they are not fitted. Our eyes are ruined by the strain modern conditions put upon them, a strain opposed to Nature and destructive to perfect sight unless relieved by proper care.

Few people know what to do when their eyes begin to go wrong; therefore they do nothing at all until failing sight or actual agony forces them to act. Often, then, they are forced to resort to glasses for temporary relief.

A soothing, cleansing, healing, helpful lotion for eyes in trouble of these kind, which can be made from the following prescription:

Optima 5 grains. (one Tablet)
Water 2 ounces.

Mix at home and use from two to four times a day. This prescription is in daily use by thousands. It sharpens vision, allays irritation, relieves inflammation and gives a smooth, well-lubricated feeling to the eyes. It has enabled many to discard glasses they did not really need. It has restored many to perfect eye comfort. Its use is followed by a soothing sense of relief from strain and eye fatigue. The Riker-James stores and other druggists can fill this prescription. Any physician familiar with the formula will tell you it is perfectly harmless.

GOV. BALDWIN'S VIEW

SAYS PROGRESSIVES GOT TIRED OF FOLLOWING COLONEL ROOSEVELT

NEW HAVEN, Nov. 5.—Gov. Simeon E. Baldwin, democratic candidate for United States senator, who was defeated in yesterday's election by Frank B. Brandegee, republican, commenting on the outcome of the voting, said yesterday:

"The key to the election is very simple. The progressives of Connecticut got tired of following the vagaries of ex-President Roosevelt and most of them returned to the republican fold, from which they had gone out originally.

"I think also that the indictment of more than 20 of the New York, New Haven & Hartford company's directors and the labeling as conspirators of a good many highly esteemed citizens of Connecticut who are in their graves had an unfavorable effect on the democratic prospects."

TO REMOVE EVERY SIGN OF DANDRUFF

Try This Simple Home Treatment. It Surely Makes the Hair Soft, Fluffy and Lustrous.

If your hair is not pretty, if it is losing color, too dry, matted, falling out, or if your scalp itches, you can quickly overcome all of these conditions at a trifling cost and only a few moments time. Just get from any drug counter, some Parisian Sage's hair restorer, which is a most helpful and invigorating tonic that supplies every hair need. It is easily applied, absolutely harmless and is as inexpensive as it is beneficial. Improvement begins with the first application, for Parisian Sage not only nourishes the hair roots but stimulates your hair to grow long, thick, soft, fluffy and lustrous. It immediately removes every bit of dandruff and stops itching scalp.

Be sure to get Parisian Sage for there is no other so effective and this will surely give your hair new life and beauty.

If you want help at home or in your business, try The Sun "Want" column.

CLAIMS OF ST. RY. MEN WILL BE ARBITRATED

Decision Reached in Controversy Between Bay State Company and Its Employees Whose Working Agreement Has Expired

The Bay State street railway was notified of the plan today. The company has selected H. E. Reynolds, assistant general manager of the Bay State system, to represent the road at the arbitration hearings and the employees have picked Lawyer James H. Vahcy of Watertown to look after their interests. The third arbitrator will be chosen by Messrs. Reynolds and Vahcy.

Every division of the Bay State road is keenly interested in this move as the wage agreements all over the system have expired. There are over 4000 men connected with the road, which runs through three states, Massachusetts, New Hampshire and Rhode Island.

BEHIND CLOSED DOORS

DIRECTORS OF AMERICAN LEAGUE ARE NOW IN SESSION AT CHICAGO

CHICAGO, Nov. 5.—Behind closed doors, directors of the American league went into annual session here today with peace in the world of baseball and the possible change in ownership of the New York American league team their principal topics for discussion.

F. TRENCKMAN, PRINCETON HALFBACK, IS ONE OF SURPRISES OF THE YEAR

F. TRENCKMAN OF PRINCETON

PRINCETON, N. J., Nov. 5.—F. Trenckman, one of Princeton's halfbacks, has been a surprise of the year, though much was expected of him. He has shown more skill and speed than was expected, and he will undoubtedly be used in the coming big games.

STOLE JEWELRY LATEST RETURNS GOLD IN STREET

Two Young Men Robbed House and are Held for Trial

Walter Wilson and Alfred Roy, both of Lowell, were arraigned in court today charged with stealing enough jewelry to stock a small-sized jewelry store from a tenement house on Price street on the afternoon of Tuesday, Oct. 27. Wilson entered a plea of guilty and Roy pleaded not guilty. Both were held in the sum of \$500 for their appearance in court tomorrow morning.

OFFICIAL VOTE NOV. 13

ACCURACY OF UNOFFICIAL RETURNS ON STATE TICKET DOUBTED

BOSTON, Nov. 5.—There is a strong sentiment among democratic officeholders at the state house for waiting until there has been a complete collection of the returns of votes cast for secretary of state, state treasurer, state auditor and attorney-general before assuming the defeat of the entire democratic state ticket below governor.

CONCEDES BRITTS ELECTION

ASHEVILLE, N. C., Nov. 5.—Congressman Gude's campaign manager today formally conceded the election of J. J. Britt, republican candidate for congress, from the tenth district. Britt's majority probably will be 700.

FOOT AND MOUTH DISEASE

WASHINGTON, Nov. 5.—Definitive discovery of foot and mouth disease in Ohio and Wisconsin caused the department of agriculture to day to impose a quarantine against the shipment of livestock out of those states.

INCREASE PRICE OF HOGS

ST. JOSEPH, Mo., Nov. 5.—There was a large increase in the receipts of hogs at the St. Joseph stockyards today and prices were 35 cents higher due, dealers said, to the quarantine at Chicago.

MEXICANS ARRESTED

WASHINGTON, Nov. 5.—All of the prominent Mexicans who signed posters calling on the people to rise and drive the American force from Vera Cruz have been arrested according to a despatch from the Brazilian minister at Mexico City to the state department.

FIGHTING NEAR BORDER

DILL RIO, Tex., Nov. 5.—There was fighting yesterday near the American border between Carranza and Villa troops about 15 miles up the Rio Grande from here, according to American hunters arriving here today.

COURT ADJOURNED

Superior court was adjourned this noon until tomorrow morning at 10 o'clock, there being no cases ready for trial after the settlement of McEwan-Brown cases.

FEEL TO HIS DEATH

LONDON, Nov. 5.—Lieutenant Murray lost his life in an aeroplane accident at the Avon flying school this morning.

It is believed he miscalculated the distance while landing after making a flight over Russelldown. His machine crashed to the earth and he was killed.

Show That Democrats Elected to House 228, Republicans 194

WASHINGTON, Nov. 5.—With four congressional districts still uncertain, results of Tuesday's election show that the democrats elected to the house; 228; republicans, 194; progressives, 7; socialists, 1; independent, 1. This would give the democrats a majority in the lower house of 25. Republicans claim the election of James J. Britt over J. M. Gudeger in the tenth North Carolina district, N. M. McLean, republican-progressive, in the third district, North Carolina, and J. S. Timberlake in the second Colorado district. The democrats claim the election to G. T. Helvering in the fifth district of Kansas in that event there would be a democratic majority of 23. In the senate to return left still somewhat in doubt the elections in Colorado, Wisconsin, and Nevada. The election of Edward Johnson, democrat, over Charles H. Burke, republican, in South Dakota, was a gain for the democrats, which offset the defeat of Rogers Sullivan, democrat, in Illinois by Senator Sherman. Latest reports from Nevada showed Francis G. Newlands, democrat, leading Samuel Platt, republican, by a little more than 200 with about two-thirds of the precincts heard from. Democrats claimed the election of Senator Charles P. Thomas over Hubert Work, republican, in Colorado and the election of Senator Newlands. The republicans claimed the election of Francis E. McGovern over Paul A. Huston in Wisconsin. This result, it carried out, would make the representation in the next senate, 55 democrats, 40 republicans, and one progressive, a democratic majority of 14.

TEDDY QUOTES BIBLE

"PEOPLE SHALL TURN EARS FROM TRUTH"—EX-PRES. TAFT SAYS PROGRESSIVE PARTY IS DEAD

NEW YORK, Nov. 5.—When Theodore Roosevelt was asked for an expression of opinion on the outcome of the election in New York state, he said: "The Episcopal church lessons taken from the bible are appointed for every day of the year. The lesson for Nov. 3 includes the second Epistle of Paul to Timothy, Chapter IV, 3-4, which read as follows: 'For the time will come when they will not endure sound doctrine, but according to their own lusts shall they heap to themselves teachers having itching ears, and they shall turn away their ears from the truth and shall be turned unto fables.'"

TAFT PLEASED

Says Progressive Party and Leader Seem Relegated to 'Innocuous Desuetude'

NEW HAVEN, Nov. 5.—Ex-President Taft, in discussing the election returns, said: "I am glad to hear the good news of a republican victory. I hope that it will tend to assist business and restore confidence. Incidentally, the progressive party and its leader seems to be relegated to innocuous desuetude. I am thoroughly reconciled to this result."

INQUEST ON BECKER'S DEATH

An inquest was held before Associate Justice Pitman in the second session of court today on the death of Peter Becker, of 36 Flynn street, Lynn, who was found lying on the car tracks in Tyngsboro, near Mountain rock, with a hole in his head caused by a bullet from a 38 calibre revolver.

HALLOWEEN PARTY

A very pleasant evening was spent at the Pansy cottage at Silver Lake, where members of the club entertained their Lowell and Cambridge friends. The cottage was beautifully decorated with autumn leaves and jack-o'-lanterns. There was a musical program by the Misses Anna McEvoy and Flora Wilson and solos were rendered by Miss Alice Reddy and Rose Sullivan. Jack Sullivan, Joseph Cote, Arthur Hastings, Games were played and refreshments served. The party broke up at a late hour, all enjoying themselves. The party was chaperoned by Mrs. Wilmot.

JOHN KENNEY IMPROVING

John J. Kenney is slightly improved today at St. John's hospital where he is confined with injuries sustained in an explosion at the vocational school nearly two weeks ago.

WOMAN SUFFRAGE AHEAD

HELENA, Mont., Nov. 5.—Scattered returns from 70 per cent. of the state show that at a number of points with lessened energy with regard to the actions of their infantry.

INSPECT MASS. CATTLE

BOSTON, Nov. 5.—Rigid inspection by both state and federal officers of cattle entering Massachusetts together with the fumigation of all cattle cars began today as the result of the outbreak of the foot and mouth disease in the west. Cattle which have reached here within the past two days have been quarantined and cattle owners have been notified to immediately report any symptoms of the disease in their herds.

STATEMENT FROM BELGIUM

HAYRE, France, Nov. 5.—The Belgian government issued the following statement today: "The Belgian advanced detachment which progressed as far as Lombardzyde toward the Yser between St. George Capelle and Tervuren, could only advance with great difficulty owing to poor roads and the inundated country. They were also harassed constantly by the infantry and machine gun fire of the enemy."

SUNDAY BASEBALL

WASHINGTON, Nov. 5.—The court of appeals today reversed a ruling of a lower court that Sunday baseball in the national capital is illegal.

WESTFORD STREET CAR LINE

Next Monday the street railway company will start to run 10 minutes time on Westford street from 1.02 p. m. till 8.02 p. m. This will help make amends for the trouble on that line due to the smooth paving.

Truck With \$2,000,000 Shipment Breaks Through Planks

NEW YORK, Nov. 5.—Escorted by guards bearing Winchester rifles, an Adams Express auto truck loaded with \$2,000,000 in gold bars sank through the planking over the subway excavation at Broadway and Eighth street late last night. Two of ten safes containing the bullion were broken open and the contents scattered over the street.

BOMBARD TOMB OF EVE

BRITISH GUNS SHELL THE TOMB OF EVE IN THE GARDEN OF EDEN

Jiddah, bombarded yesterday by a British cruiser, is a town with narrow and irregular streets and houses of coralline limestone. From the sea the white minarets show plainly within the walls of the town and give it a picturesque appearance. The angles of the walls on the sea front are surmounted by forts. In the northwest part of the town is a tomb, said to be that of Eve. Nearly half the population is Arab. Large numbers of pilgrims pass through Jiddah each year on the way to Mecca.

BATTLE NOW IN PROGRESS

BETWEEN VILLA AND CARRANZA TROOPS SOUTH OF AGUAS CALIENTES

EL PASO, Texas, Nov. 5.—An official report received today by Villa officials in Juarez says that a battle was in progress between Villa and Carranza troops 20 miles south of Aguas Calientes where the convention of chiefs recently attempted to adjust their factional difficulties. It is said Villa has sent a force of 10,000 men and more than 100 cannon to meet the advance of the Carranza troops whose strength is not known.

REBELLION CRUSHED

LONDON, Nov. 5.—A Capetown despatch to the Reuter Telegram company declares that the rebellion of General Christian Frederick Beyers in the western Transvaal and the mutiny of Lieutenant Colonel Gerhardus appear to be completely crushed.

ALLIES ADVANCE TO EAST OF NEUFORT ON RIGHT BANK OF YSER

PARIS, Nov. 5.—The French official announcement given out in Paris this afternoon says that the allies have made slight progress to the east of Neufort on the right bank of the Yser.

WOMAN SUFFRAGE AHEAD

INDUSTRY COUNCIL, R. A.

INTERESTING SMOKE TALK IN
WHICH GRAND TREASURER WIL-
LIAMS WAS A SPEAKER

The meeting room of industry council in Odd Fellows hall last evening was the scene of much merriment, the regular meeting of the council being followed by one of the most enjoyable smoke talks in the annals of the organization. The attendance was large and the evening's program proved pleasing to all.

Under the direction of Hogent A. E. Pountney, routine business being transacted. The usual number of applications were received and referred to the proper authorities. A communication from the grand council requested that charter day be observed during the month of November. The communication also presented the list of supervising grand regents for the state district. A nominating committee was appointed to present a list of officers at the next meeting.

The doors were then opened and a smoke talk held in the council chamber. The entertainment included a piano solo by Harold Meehan; remarks, Grand Treasurer Horace G. Williams; songs, Charles A. Carey; remarks, Supreme Master John J. Gorman; a piano solo by James G. Gorman; remarks, Fred E. Jones. The affair concluded by all singing "Auld Lang Syne."

EUROPEAN INSECT

Trees in Eastern States Injured and Department Recommends Immediate Treatment for Control

WASHINGTON, Nov. 6.—The U. S. department of agriculture is calling attention to the introduction and establishment in America of the European pine shoot moth, which threatens to cause serious loss. This insect is a small orange-red moth, the larva of which hollows out new buds and kills or injures the ends of twigs and young trees. This injury causes a permanent withering, serious in ornamental trees, and in trees grown for lumber makes a crooked growth and a consequent waste when the tree is

In Europe the insect not only attacks all native pines but is equally injurious to American species cultivated there. The insect came into the country through the buds on imported seedlings which have come from France, England, Holland, Belgium or Germany. The department's investigators have discovered it in only ten localities, in six states from Massachusetts to California. It is likely that it may be found in other localities. It has not been found in any native trees in the forest, and with only one exception has always been on European pines in nurseries and private parks. There is no evidence that it has been introduced into this country more than a year except on Long Island, where it has existed for more than two years.

There are several native pine shoot borers, but none of them inflict the serious injury of the European species, and the department hopes that the new pest may be exterminated before it becomes too widespread to be controlled. At present the problem of its

limination is confined mainly to nurseries, but if it once gets into the native pine forests the experts think that it would be beyond control. In

larval stage the moth is so effectively protected in the buds and shoots that it cannot be reached by any pesticide, and the only method of control is to locate and cut and destroy the shoots which contain the insect. This should preferably be done during the fall and winter. Though it is easier to locate the injured tips and shoots after growth has started in the spring, it is safer if better for the tree to have it done in the fall. Measures for control to be effective, can not be accomplished without the co-operation of all who grow or plant European pines or deal in them.

Further information in regard to the insect may be obtained by application to the bureau of entomology, Washington, D. C.

CARD OF THANKS

With thanks to those friends who by their words of sympathy and floral tributes have endeavored to lighten the loss sustained by me in the recent death of my father.

(Signed) Thomas Pennington.

Best Treatment for All Complexion Ills

It tell you my patience for all complexion troubles. If the skin be colored, sallow, muddy, over-red, if it rough, chapped, blotchy, pimply, or if there be nothing that will so gently overcome and banish as our very mercerized wax. The wax literally takes off a bad complexion—discolor the dead and near-dead particles of surface skin—so gently, gradually, you experience no inconvenience at all. A new complexion is then in evidence, one so clear, spotless, delicately soft and beautiful, you look many years younger. One ounce of wax, procurable at any drug store, rejuvenate even the worst complexion. It is smeared on like cold cream before retiring and removed with warm water. One ounce of wax, procurable at any drug store, is a healthier and more economical one than the case-habit.

If the skin be wrinkled or creased, so it daily in a solution made by dissolving an ounce of powdered wax in a half pint with hazel. This immediately, affecting even the most wrinkled skin.

—Elsie Desmond, in City's Mirror.

BODY OF MAN FOUND FLOATING IN POND

FRAMINGHAM, Nov. 5.—The body of Marcus M. Fairbanks, 72 years old, of Concord street was found floating in two feet of water in Little Sucker pond, off Eastern avenue, about dusk last evening and the police are holding his son, Clarence, aged 52.

For several years the father and son have been living apart, the older man in a house which he owned, about a half-mile from the pond, and the son in a rather ramshackle affair on an edge of the pond. Yesterday Clarence telephoned the police that his father was missing. Chief Holbrook detailed two men, who worked on the case all day. They questioned the son closely and he told them he had seen his father alive between 9 and 10 o'clock that morning. He also said his father went to Boston Monday, drew \$500 from a savings bank and gave him the money to keep for him. He then turned this money over to the police.

The officers, after a search of the son's home, found several bankbooks recording small sums on deposit. Clarence said these had been placed in his care by his father.

This morning, when Clarence again telephoned Chief Holbrook that his father was still missing, he was called to police headquarters and there put under a rigid examination. As a result state detectives were called into the case.

About 3 p. m. Chief Holbrook sent a detail of men to the pond to drag for the body. After a long search they found it just before dark, on the northerly side of the pond in about two feet of water. The police say they found that the bushes near the water's edge had been broken down somewhat as if having been recently trampled on. The body was taken to the morgue here and was viewed by Medical Examiner Lewis M. Palmer. He said after a superficial external examination that he did not find any marks of violence, not even a scratch. He said he would make an autopsy tomorrow morning.

ADMITS KILLING MAN

GILMORE A. BOWMAN PLEADED GUILTY TO A CHARGE OF MANSLAUGHTER

WISCONSSET, Me., Nov. 5.—A genuine surprise greeted the large crowd of spectators in the Lincoln county supreme court room yesterday when Gilmore A. Bowman of Somerville, Me., retracted his plea of not guilty to the charge of murdering Hugh A. Clark of Boston and pleaded guilty to a charge of manslaughter.

The maximum penalty is 20 years imprisonment, but Justice Philbrick did not feel like pronouncing sentence until hearing some of the evidence. Although the special jury impaneled last night was dismissed, several witnesses for the prosecution and defense were placed on the stand during the day.

Atty. Gen. Scott Wilson, assisted by County Atty. James B. Perkins, appeared for the state and Andrew C. Halpin and Weston M. Hinton for the respondent.

The general substance of most of the state's witnesses' testimony was that there was a row between Hugh and Walter Clark and Gilmore and George Bowman at a dancing pavilion in the adjoining town of Jefferson two weeks ago last night.

Walter Clark, a brother of the murdered man, said that as he and his brother were about to enter the pavilion Gilmore Bowman made a remark that Hugh Clark resented. There was a general squabble during the evening, in which Hugh Clark gave George Bowman a beating and later turned his attention to Gilmore, knocking him down. Suddenly, however, Hugh Clark stood up, witness said, and exclaimed: "My God, he's knifed me!"

At this point the witness was so unnerved that it was only between sobs that he was able to describe how his brother staggered into the dance hall, fell on his face and died.

Medical Examiner George A. Gregory, who made the autopsy, described several knife wounds, among them one in which the knife had nearly severed the jugular vein and another in which two chambers of the heart had been penetrated.

Among the spectators were young Clark's mother, Mrs. Ida M. Clark of 133 Pembroke street, Boston; his two sisters, Mrs. Bernice H. Twomey and Miss Mary S. Clark, and Miss Lillian Greenleaf of Boston, the fiancée of the murdered man. The mother was deeply affected by the testimony. While Medical Examiner Gregory was on the stand she swooned, but quickly revived.

Yesterday afternoon the case ended without argument, Justice Philbrick stating that he would defer sentence until today.

EPIDEMIC AMONG CATTLE

Federal Quarantine Threatens a Reduction of the Nation's Food Supply

WASHINGTON, Nov. 5.—The worst outbreak of the foot and mouth disease ever known in the United States is the department of agriculture's estimate of the livestock epidemic which has forced federal quarantine over six states and threatens a temporary reduction of the nation's food supply. An emergency appropriation by congress may be requested to finance the campaign to suppress the epidemic.

Officials said last night it would be a week before they could forecast the extent to which the food supply would be affected. They are inclined to believe, however, that the shrinkage will not be large in spite of the inconvenience to which stock growers and packers will be subjected until the disease is under control. Every possible effort will be made to remove handicaps upon the movement of livestock.

The quarantine does not prevent the shipment of stock from unaffected districts to slaughter houses within the quarantine area and there is no embargo against the shipment of dressed meat.

New York and Maryland Hit

New York and Maryland were added to the list of quarantined states yesterday. A department of agriculture statement announcing this said:

"The list of states now quarantined by federal authorities includes New York, Maryland, Indiana, Michigan, Illinois and Pennsylvania. In addition to these restrictions have been placed upon interstate shipments from Ohio, although no cases have as yet been found in that state. There is reason to fear, however, that infected stock may have been sent into Ohio. If this is found not to have been the case the embargo will be lifted.

"This outbreak, which is the first in the United States since 1908, is regarded as the most serious of any that the United States has yet experienced. Not only has it already spread over an extensive area, but its virulence seems to be above the average. Vigorous measures will be necessary to stamp it out. The cost of suppressing the last outbreak in 1908 was estimated at \$239,112.10. In addition, the loss to dairy and stock raisers was heavy.

"Interstate shipments of cattle, sheep and swine are absolutely prohibited from the states now quarantined. Stock cannot even be sent from one infected state into another. The federal authorities are at present engaged in endeavoring to ascertain the exact area over which the infection has spread, and as soon as this is known it will, it is hoped, be possible to lift the quarantine from sections now included in it."

600 Infected Cattle

The discovery of 600 infected cattle in the Chicago stockyards was regarded as the most serious development in the situation. Some of the disastrous effects of the outbreak there are believed to have been avoided by the embargo imposed last Saturday against the shipment of cattle from the Chicago yards into other states. Of somewhat less importance was the report that 11 cattle in the National Dairy show in Chicago had been infected.

The outbreak in New York state occurred among a half dozen herds in the Buffalo stockyards. The disease was brought here, it was believed, by a shipment of nine carloads of cattle from Illinois, Mich., the place of origin of the present epidemic, so far as known.

Even should the epidemic not leap beyond the bounds already marked by it, some three months will pass before most of the quarantine now imposed will be lifted, according to department officials. The falling of snow or severe frosts would be a great aid to stamping out the disease.

HINDS FREED ON PARDON

SERVED 22 MONTHS OF TERM FOR ARSON—WIFE SENT TO INSANE ASYLUM RECENTLY

BOSTON, Nov. 5.—Harry H. Hinds, who was granted a pardon yesterday afternoon by vote of the executive council, after serving nearly 22 months of a three-to-four-year sentence in state prison for arson, was released from prison at 4:45, shortly before which hour Ex-Mayor J. Edward Barry of Cambridge arrived at that institution with the pardon papers. Mr. Barry was accompanied to the prison by Timothy J. Buckley of the governor's council.

The conditions of the pardon were that Hinds be confined to the care of his wife, who had been committed to the Worcester Insane hospital and his children were placed in an institution. Hinds will provide a home for himself and his children.

Ex-Mayor Barry became interested in Hinds' case. He has found employment for Hinds and through his efforts he secured Hinds' release six weeks earlier than he could seek parole.

It was brought out at the hearing yesterday that Hinds was intoxicated at the time he set the fire and that no damage was caused by it.

COMPARISON OF TEAMS

LAWRENCE HIGH FOOTBALL ELEVEN DEFEATED NASHUA, 14 TO 0—N. H. TEAM BEAT LOWELL

Nashua High beat the Lowell High eleven yesterday, 7 to 0.

Lawrence defeated the Nashua team several weeks ago by two touchdowns.

This affords the first direct comparison of the strength of both the Lawrence and Lowell aggregations which clash on Thanksgiving day in Lowell.

AM. LEAGUE MEETING

TRANSFER OF NEW YORK AMERICANS MAY TAKE PLACE IN CHICAGO TODAY

CHICAGO, Nov. 5.—Placing the ownership of the New York American league club into new hands was to be the principal issue to come before the club owners attending the annual fall meeting of the league here today.

Regarding the predicted change in the ownership of the New York Americans, President B. B. Johnson would only say that the subject would come up for discussion before the meeting adjourned and that a transfer of the club into new hands might take place.

President Johnson declined to disclose the identity of the probable new owners.

Discussing the probable attitude of the American league toward peace with the Federal organization, President Johnson was quoted as saying the club owners attending the annual fall meeting of the league here today, toward the attempts being made to settle the existing tangles in baseball was favorable but indifferent.

"Efforts to make it appear that the American league is opposed to peace in baseball have not been based on fact," President Johnson said. "I certainly will not throw any obstacle into the way of those who are endeavoring to find a satisfactory remedy for conditions which everyone will admit are bad for the game."

WEATHER RECORD IN BOSTON

BOSTON, Nov. 5.—Another weather record was equaled in Boston yesterday. The maximum temperature, recorded at 2 p. m., was 74. On the same date in 1903 Boston had exactly the same maximum, but in no other year in the history of the local bureau on Nov. 4 has the mercury climbed even to the 70 mark.

In Lowell the temperature yesterday was about the same as in Boston.

WITH THE BOWLERS

FEW GAMES ROLLED ON THE ALLEYS LAST NIGHT—MINOR AND U. A. LEAGUES REPRESENTED

The Fall Malls made easy work of the Glendales in the Minor league last night, capturing three strings and a total, although the game was very interesting. One game in the Royal Arcanum league resulted in a victory for Team 6 over Team 2. The employees of Chaffoux's store had it out, the shoe department winning a game from the Missits and the clothing salesmen putting one over on the rollers of the furnishing department. The scores were:

Minor League

Glendales—Fahay, 255; R. McDermott, 248; Healey, 270; Bryant, 275; Preston, 274; total, 1323.

Pall Mall—J. McDermott, 238; White, 267; Panton, 274; Chris. Allen, 267; Buckley, 272; total, 1387.

Royal Arcanum League

Team 2—A. Gilbert, 228; Burrell, 252; Gurney, 258; Kilpatrick, 259; Bell, 253; total, 1255.

Team 6—C. McElroy, 263; Buchanan, 255; Edwards, 261; Geo. McElroy, 233; Perrin, 281; total, 1302.

Chaffoux's Store

Missits—Walker, 263; Montague, 256; Allen, 228; Cockran, 225; Reno, 205; Normandin, 202; total, 1332.

Shoes—Gagnon, 241; Verville, 211; Lanetot, 236; Fraser, 270; Sullivan, 223; Poirot, 210; total, 1431.

Clothing—Chaffoux, 221; Cote, 210; Smith, 220; Brown, 234; Cayer, 202; Enson, 157; total, 1234.

Furnishing—Desrosier, 210; Matte, 204; Brooks, 177; Louels, 256; Lamontagne, 226; Robarge, 217; total, 1220.

GOOD SCORES MADE

LOCAL BOWLERS PARTICIPATED IN WEEKLY ROLL-OFF LAST NIGHT

The weekly roll-off last night drew a large crowd of bowling enthusiasts and several high scores resulted. The winners follow: Hinds, first, 332; McDermott and Hobbs, second and third, 316; Dooley, Wynne and T. Kelley, fourth, fifth and sixth, 314; Dwyer, seventh, 313; Hall, eighth, 311. The full scores are as follows:

Chubbott 293, Busby 270, Shaughnessy 255, Nottel 267, Adams 255, Whalen 244, Brandy 272, Beauregard 300, Leavey 261, G. Buckley 255, Foster 254, J. O'Neill 275, Dooley 314, Stewart 267, Chase 252, A. Chadwick 256, J. Durkin 232, Brennan 305, Brown 299, J. Murphy 276, B. McMahon 233, J. Mahan 250, McNamee 202, Arnold 200, W. Smith 257, Ramsden 261, Oullette 305, Hoban 316, McKenzie 294, McNeil 300, Planders 308, Lybrand 272, O'Dea 228, McDermott 316, Brady 220, Hinkle 332, Myrick 365, J. Richardson 233, Mosher 298, T. Kelley 244, Cole 258, Kempton 267, Hall 311, T. McElroy 240, Sinnott 285, Wynne 314, Dwyer 313, Clark 271, A. McMahon 277, Noonan 292, Brigham 300, P. O'Brien 300, Burns 259, Holland 262, C. Martel 302, J. Grant 261.

Mighty like drawing aces

to jam a jimmy pipe brimful or roll up a makin's cigarette with Prince Albert, then make fire with a match! Such smokings! Yes, sir, the kind you can draw to all day and all night and have a lot of fun all the time!

Prince Albert came into the game five years ago a little stranger in a big land, but it was cut for a square deal, and today it is the one best bet of men everywhere who play fair with their tongues and want fair play—with all the cards on the mahogany! Catch the thought?

PRINCE ALBERT

the national joy smoke

is built like a thoroughbred. It won't kick, it won't bite, it won't parch! That's because it is made by the now world-famous patented process that cuts out the kick and the bite and the parch! No other tobacco ever was or can be today anywhere near like Prince Albert!

You can raise right here—and clean the table—that Prince Albert will win with you because it's true blue, any way you play it! Costs a dime to sit in and find out first-hand that all we claim for Prince Albert is 'case cards—signed, sealed, delivered—with the reputation of this great business right behind every grain of tobacco! Does that listen?

MRS. MABEN WAS MADE WELL

By Lydia E. Pinkham's Vegetable Compound and Wants Other Suffering Women To Know It

Murfreesboro, Tenn. — "I have wanted to write to you for a long time to tell you what your wonderful remedies have done for me. I was a sufferer from female weakness and displacement and I would have such tired, worn out feelings, sick headaches and dizzy spells. Doctors did me no good so I tried the Lydia E. Pinkham Remedies—Vegetable Compound and Sensitive Wash. I am now well and strong and can do all my own work. I owe it all to Lydia E. Pinkham's Vegetable Compound and want other suffering women to know about it."

Mrs. U. E. MABEN, 211 S. Spring, St., Murfreesboro, Tenn.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for nearly forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Why Lose Hope.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

For over thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ill and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

SUFFOLK STREET FIRE

PATROLMAN GOGGIN MADE A TIMELY DISCOVERY — TENANTS DRIVEN OUT BY SMOKE

Patrolman Richard J. Goggin discovered a fire in a building at 28 Suffolk street about 12:30 o'clock this morning and after ringing in an alarm from box 15, corner of Fletcher and Cushing streets, rushed himself in arousing the many tenants of the two-story building, who were forced to flee from the burning, nearly closed, in order to escape the thick smoke which poured through the building.

The fire started in a variety store owned by Mike Anzara and had a rapid start when discovered by the policeman. A brisk blaze was in progress inside the building and flames were shooting through the doors and windows, but the fire department promptly checked the fire. Considerable damage was done to the contents of the store while the building was also damaged, partly by smoke.

WOMAN KNOCKED DOWN

STRUCK BY WAGON IN MERRIMACK SQUARE AND SUSTAINED BROKEN ARM

Ellen Lamb of 21 East Merrimack street is resting comfortably at St. John's hospital today with injuries to her wrist and leg as a result of being struck by a team in Merrimack square near Central street, about 5 o'clock yesterday afternoon.

The streets were crowded at that hour and it is said the injured woman was struck while hurrying from one side of the street to the other. Policemen secured the name of Mrs. John H. Henderson of 145 Fletcher street as the owner of the team.

CARD OF THANKS

To the Voters, Eighth Senatorial District:

I take this means of expressing to a voters of the eighth senatorial district my sincere thanks for the great honor conferred by them upon me by electing me as their senator, and of assuring them that I shall put forth every effort to do what I can to prove worthy of their confidence.

(Signed) George H. Marchand.

If you want help at home or in your business, try The Sun "Want" column.

WITH THE PADDED MITTS

is certainly giving the down-river fans a run for their money.

Frankie Brogan of Lawrence showed a big improvement when he defeated Tony Lorenzo last week and if he continues to show improvement he will be boxing the best in New England before the winter is over. He is handled by Jack Wagner, who also manages Philney Boyle, Larry Burns, Kid Mercier and Billy Brooks, the local boxer.

AQUATIC COMPETITION

WELL CONTESTED EVENTS HELD AT Y. M. C. A. SWIMMING POOL LAST NIGHT

The results of the aquatic competition held in the Y. M. C. A. pool last evening were as follows:

Class C—50 yard swim: J. B. Gray, first; Koroach, second; H. Madden, third, time 56 3-5 seconds. 40 yard breast stroke: L. Koroach, first; H. Madden, second, time 44 3-5 seconds.

Standing in point scoring to date is as follows:

1—J. Gray 13
2—C. A. Gendron 11
3—N. Panoos 10
4—L. Koroach 10
5—J. Couillard 10
6—M. Wrenn 10
7—H. Osborn 6
8—H. Madden 3
9—L. Murphy 3
10—A. Trudeau 1

Events to be contested Wednesday, Nov. 11, in all classes: 100 yard swim and plunge for distance.

Senior Gymnastic competition starts Friday of this week in the following events:

1—Two lap run; 2—standing broad jump; 3—buck.

MITCHELL BOYS WON

In a closely contested and well played game the Mitchell Boys' school football team defeated the Winchester high freshmen yesterday, 6 to 0. The lineup follows:

MITCHELL BOYS

Northrop, ls
Grant, ls
Dorby, ls
Wells, c
Barnard, rw
Wells, c
Fisher, rw
White, capt, qb
Crockett, qb
Hickey, rb
Gram, lb

WINCHESTER FRESHMEN

ls, F. Buggy
ls, C. Cowell
ls, Black
c, Brown
rw, Hinton
rw, Wells
rw, Skinner
qb, Cobb
qb, Tony
rb, B. Buggy
lb, Capt. Smith

Referee: Mr. Gaskins; umpire, Mr. Leighton; head linesman and field judge, A. Crane; timekeeper, Nims; Gragin, Timers: Swan and Linette. Four 10-minute periods. Touchdown: Crane.

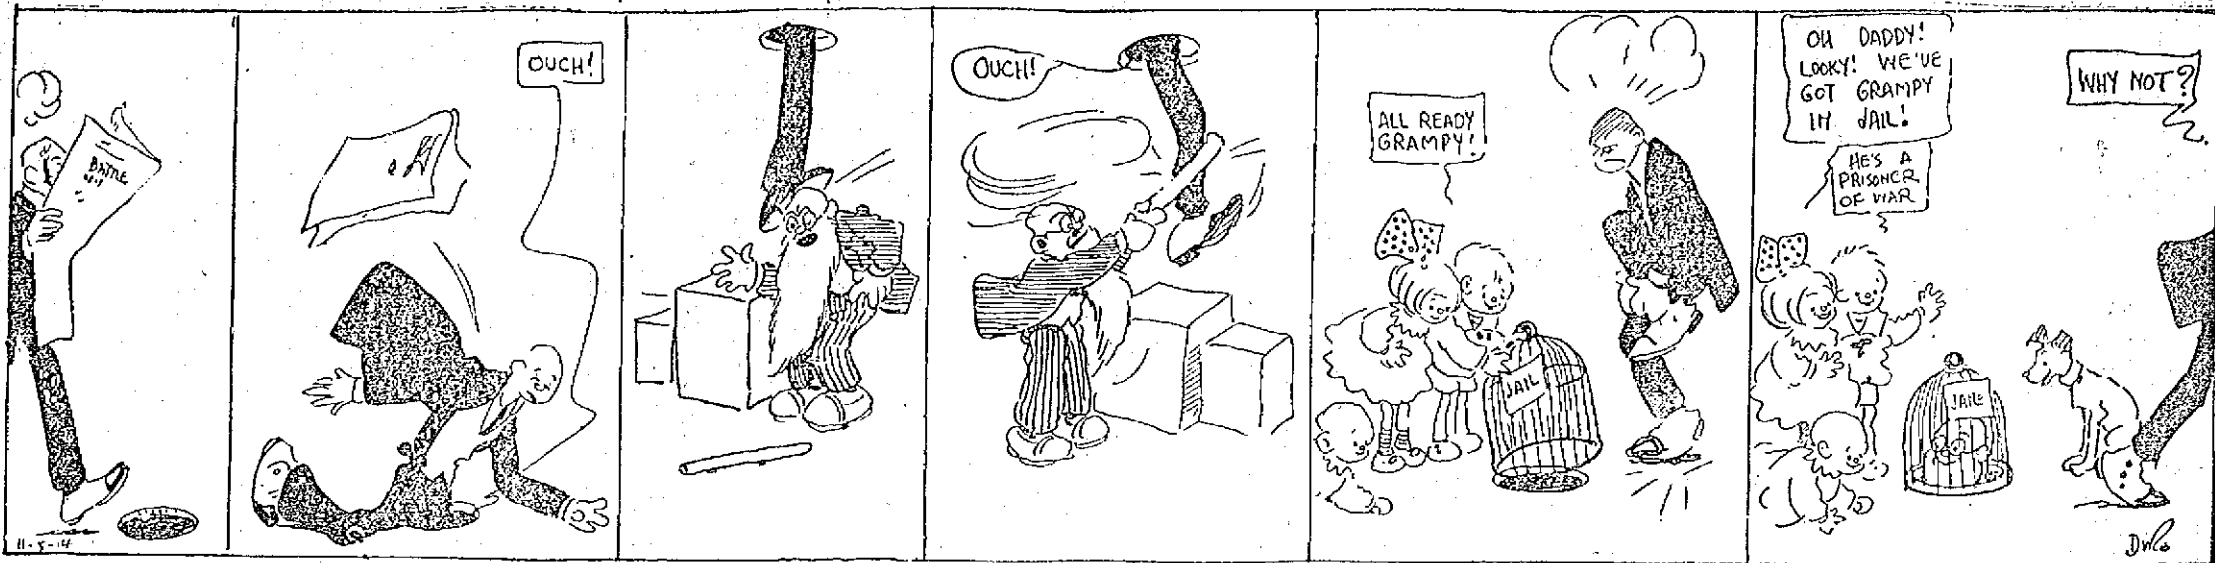

Broderick's, Butlers, Lincoln, Fri.

At a recent bout between Freddie Welsh and Ad Wolgast held in New York no one was allowed in without a ticket and the managers of would-be champs had to loosen up or remain outside the gate. Dan McKettick, a prominent manager, had to pay five dollars and Leach Cross was also taxed three dollars.

Next Thursday night the Lawrence fans will witness a bout between two of the best winners around these parts in the person of Joe Chick and Johnny "Kid" Alberts. They will meet in a 12-round affair. Matchmaker Crilly

DAY BY DAY—Grampy is Finally Overtaken by His Errors—

BY CLARE VICTOR DWIGGINS

SLEEPYTIME TALES

BY VIRGINIA VALE

FOR THE LITTLE READERS OF THE SUN

THE SPARROWS' SWING

Once upon a time three little sparrows used to go every morning out to play. They liked best to go to a tall house that was quite near and play among the leaves and vines. One morning the littlest one flew on a swinging vine to pick at a red berry that was hanging from a branch. As he lighted on the vine, it began to swing back and forth and the bird with it.

"Oh, see," he called to the others, "I have a swing just like the swing that we saw when the children were here the other day. Look at me," and he swung way out and then back again.

The others flew to see and in a few minutes some were swinging as fast as they could and the others hopping about waiting for their turn.

What a fine time they had all of that day and they were so busy playing that they forgot to come home to supper so father sparrow had to come and find them. He was going to be a little cross at first but one of them said to him: "Try the swing," and he forgot to be cross to them. Father seemed to enjoy it as much as the rest and he too forgot to come home with his family to supper.

Mother sparrow waited, and waited and as her family did not come she began to get quite worried and to think that something must have happened to them all and she started to find them.

When she came in sight of all of them swinging together she called out: "Well I declare, I have been worrying all of this time for I thought something had happened and here you have been just having fun." Father said that was too bad and asked her to try the swing.

At first she didn't want to for she was quite put out to think her supper had been kept waiting, but at last she tried and after she had swung a little she thought it as much fun as did the others and they all flew on the vine and began to swing and I don't know but they are swinging there yet.

G. O. P. CONTROL

Make Gains in Mass. Legislature—No Bull Moose in Senate

BOSTON, Nov. 5.—The revised returns from the election in Massachusetts indicate that the legislature next year will be made up as follows: Senate, 33 republicans, 7 democrats, 1 house, 130 republicans, 57 democrats, 3 progressives, 1 socialist.

The legislature of 1914 was divided as follows on political lines: Senate, 21 republicans, 11 democrats, 3 progressives; house, 115 republicans, 104 democrats, 17 progressives, 1 socialist.

Thus, the republicans will control both branches of the legislature next year, and can elect the president of the senate and the speaker of the house without "dickering" with the progressives and democrats, as the republicans had to at the beginning of the session of this year in order to keep Mr. Cushing in the speaker's chair.

Calvin Coolidge of Northampton will, of course, be re-elected president of the senate, and it is taken for granted that Channing H. Cox of Boston will be elected speaker of the house.

TO RAISE \$5000 A DAY

Wellesley College Girls and Alumnae Plan a Whitehead Restoration Fund Campaign

WELLESLEY, Nov. 5.—It was announced at Wellesley college last night that from now until after Christmas, undergraduate girls and alumnae plan to raise \$5000 a day in aid of the Wellesley restoration fund. Allowing eight hours a day to the work, this means raising \$1000 an hour for about six weeks.

To receive a promised gift of \$750,000 from the Rockefeller Foundation, Wellesley must have \$1,250,000 available for its restoration fund by Jan. 4. Of two feet of water. The police say they think this amount only about \$750,000 remains to be raised. It was announced last night that John Philip Sousa will give a concert in aid of the fund in Boston, Nov. 17.

RIFLES ORDERED RETURNED

To Be Used on Aeroplanes It Occurred Should Arise—Oxford Post to Receive Orders in Return

OXFORD, Nov. 5.—Two naval rifles, which were placed on the lawn at the town hall about two years ago for ornamental purposes, have been ordered shipped back to the navy yard at Annapolis. The orders were read at a meeting of Charles Devereux Post, G. A. R., to which the guns were given. The guns are of a comparatively recent model and the dispatch says they are to be used as defense against aeroplanes should this ever become necessary. Guns of an obsolete model are promised in replacement. The rifles being returned have a range of six miles and can be elevated or fired in any direction.

THINKS STEFANSSON SAFE

Capt. Bartlett of the Lost Karluk Feels Eight Missing Will Never Be Found Alive

OTTAWA, Nov. 5.—Capt. Robert Bartlett, commander of the Stefansson

ship Karluk, which was lost in the Arctic, arrived here yesterday. He said there was little prospect that the eight missing members of the expedition, who left the main party soon after the ship sank, would ever be found alive. Stefansson, Capt. Bartlett said, "There is no reason," said Capt. Bartlett, "why Stefansson should fall to reach Banks Land by crossing the ice of Coronation Gulf. As he planned, Capt. Bartlett will go from here to New York."

PERSONALS

Among the prize winners at the recent Brockton fair was Mrs. Lester L. Willis, 1253 Middlesex street, who won first, second and third prizes on her exhibit of braided rugs.

Miss Harriet Boutelle, general secretary of the Young Women's Christian association was tendered a birthday party last night at the rooms of the association and she was presented a handsome leather traveling bag, the presentation being made by Miss Washburn, physical director. A pleasant social hour was spent and the party broke up with all present extending their best wishes to their guest.

YOUR BOYS AND GIRLS

Junket is a predestined custard, frequently prescribed for teething babies from fourteen months on, also for delicate children. It is prepared with essence of pepton or a junket tablet which can be bought at any good grocery.

Pour one cup of sweet milk into a clean enamel steamer. Dissolve a junket tablet in one tablespoon of cold water. Turn this lightly into the warm milk, stir just enough to mix. Add a very little sugar and flavoring. Turn into cups or small bowls to cool. When cool it looks like a milk jelly.

When the baby is exhausted by heat and teething, add a thoroughly beaten egg along with the sugar and flavoring. This dish is said to be even more easily digested than plain or modified milk.

The first essential for a child's beauty and health is oxygen—plenty of pure and sunshine. If children have plenty of light air and properly regulated diet, they will grow like the flowers and be as lovely as they are.

But in this effort to give them light and air do not allow the little girls to frolic, for frolics once attained are very difficult to get rid of; they manifest themselves very early in life.

Shading the child's face with an ordinary cotton sunbonnet is a worse precaution. At any rate, if frolics should make their appearance the sunbonnet will have given sufficient protection so that they will not be deep-seated, and it will be an easy matter to get rid of them by applying a freckle lotion.

All babies are lovely—at least, most mothers think so. Their features may not be perfect, but their complexion, when healthy, is always beautiful; skin clear, eyes bright and limpid with an expression of innocence and purity.

How to preserve that lovely complexion is a question often asked after it has been destroyed. Children are often confined in ill ventilated homes; this should not be, for oxygen is an

FOR WAR RELIEF LOST HIS GOLD

The Salvationists Send Chinaman Fails to Find His Fortune Hidden in Bandages and Pads to the Wounded

BOSTON, Nov. 5.—Significant scenes being enacted today in almost every village and town in the war-torn countries of Europe and in our New England villages a half-century ago, during the Civil war is a group of young women at the People's Palace of the Salvation army, at East Brookline and Washington streets, engaged in making bandages and pads for use on the European battlefields.

In furtherance of the idea suggested by Harold Bigbee, the author, who has just returned from the war zone, the Salvation army in the United States has engaged to send 1,000,000 bandages across the Atlantic, and of this number Boston and the New England district is to supply 100,000.

Contributions of old linen and soft cotton have been solicited and the response has been generous. The local station now has more stock on hand than can be made up and some of it will be sent to New York. But there is no limit to the amount that can be used.

The work in Boston is being done under the direction of Mrs. Col. A. Gifford. About fifteen young women are engaged in making the bandages, under the supervision of Dr. A. E. Sherburne and W. C. Emery, assisted by Adjt. Eckert and Ensign Shaffer of the Salvation army hospital at Dorchester, both graduate nurses; Mrs. Dr. Atkinson, Mrs. Adjt. Bray, Mrs. Edna, Mrs. Adjt. Tyler and several local helpers.

Capt. William Sulzer, superintendent of the People's Palace, said that the amount of work in the war zone is a strictly non-partisan manner. The effort of the army in Europe are much devoted to the soldiers and sailors, time of peace, and now this work is greatly enlarged. The Army workers have been allowed to pass to and fro in the war zone and have greatly assisted in the work of the Red Cross and also in caring for refugees in Holland.

134 FROM BAY STATE

HANOVER, N. H., Nov. 5.—Statistics recently available of Dartmouth's freshman class show the geographical distribution of students as quite different from that of last year. Instead of the customary increase in enrollment from New England, there is a decrease of five men. The number coming from the Southern and Western states is considerably increased, however. New York state has 77 as against 41 last year, an addition of 36. A year ago Ohio contributed 5, against 13 this fall. Iowa has jumped from one to 15 representatives.

Massachusetts, as usual, leads the New England states in the number of students at Dartmouth. She has 131 men, while New Hampshire comes second with 64; then Vermont, Maine, Connecticut and Rhode Island, in the order named.

FOR WAR RELIEF LOST HIS GOLD

The Salvationists Send Chinaman Fails to Find His Fortune Hidden in Bandages and Pads to the Wounded

BOISE, Idaho, Nov. 5.—About a year ago Wong Fong, a Chinaman who lives on the south side of Ninth street bridge, put seventy-one \$20 gold pieces in an old iron pot and buried it on the land which he had leased. When he went to get it the other day it was gone.

Poor old Wong Fong is feeble; his 62 years of age sit heavily upon his shoulders. He had worked hard for his gold pieces, and, being suspicious of Americans and ignorant of banking customs, he made a bank of his own and thought he had his money secure. Recently he and his four associates sold their lease to another quarter of Chinamen—it seems they work in companies—for \$3200. Wong Fong got his portion of that sum, and with his old iron pot of gold decided he would have enough to take him back to the land of cherry blossoms and keep him in comfort the rest of his days.

He went out, when not observed, to dig up his buried treasure. The soft earth yielded easily to his spade as he worked so eagerly, his joy at going home giving him added strength. But the loosened earth revealed no iron kettle, and when Fong had dug far beyond the original depth of the hole, he realized his small fortune was gone.

Fong says he told no one of his secret, but that he was sure a fellow-countryman he had working for him knew about it. And just a year ago this same fellow, whose name Fong

PRICE ONE CENT

WAR AND BUSINESS AT BOARD OF TRADE

Both Subjects Discussed by Distinguished Speakers at Meeting in Colonial Hall—Addresses Applauded by About 300 Members

The first in a series of winter meetings for the members of the Lowell board of trade was held last night in Colonial hall, Palmer street, and about 300 men were in attendance. The speakers of the evening were Edwin D. Mead of Boston, director-in-chief of the World Peace Foundation, and Roger W. Babson of Boston, expert business statistician. The two men proved to be very interesting speakers, while their lectures were very instructive.

The assembly gathered at the hall at 6:30 o'clock at which time a buffet luncheon was served. At 7:45 o'clock the guests repaired to the lecture hall, where for over two hours they were highly entertained by the notable speakers. Previous to the addresses an orchestra furnished a very enjoyable concert. The meeting was so successful that it was planned to hold a similar one on Dec. 3.

President Macdon opened the meeting with appropriate remarks, speaking in high terms of the two speakers who had taken place on the stage. He informed the members of the board that they were at liberty to ask whatever question they saw fit to the speakers and he told them not to be backward if there was anything they wanted to know.

Edwin D. Mead

Mr. Mead introduced as the first speaker Edwin D. Mead, who took for his subject, "The Great European Conflict." Mr. Mead gave a vivid outline of the trouble now existing in Europe and the cause of it. He spoke of the

EDWIN D. MEAD

efforts of the World Peace Foundation to prevent this war and the many conventions this great organization held in Europe in order to bring about a peaceful settlement of the difficulties. In opening the speaker told about being in Constantinople when the war broke out, attending the international conference of the World Peace Foundation.

WOMEN TRAPPED IN FIRE NEW HAVEN DIRECTORS

RESCUED BY QUICK WORK OF BOSTON FIREFIGHTERS THROUGH THE FLAMES

BOSTON, Nov. 5.—With blazing kerosene trickling down the only stairs by which she could escape, Mrs. Ida General, with her friend, Mrs. Catherine Coyne, was trapped early last evening in the third story apartment at 1302 Dorchester avenue.

Mrs. Coyne rushed to the window and shrieked for help. Patrolman William Foley, the first to hear the cries, dashed up the burning stairway, and holding Mrs. General high above the burning liquid that scorched his feet and set fire to his trousers, he carried her out to safety.

In the meantime Ladder 7 had arrived, and Lieutenant O'Connell with another fireman placed a ladder at the window and rescued the woman who had given the alarm. By this time the fire had got a good start and there was a lively battle to put it out. The fire started when Mrs. General, when "lighting up" to enter her neighbor's room to put a big kerosene lamp in a high rack at the head of the stairs and dropped it. The occupants of the lower floors got out without any trouble. The total loss was about \$1000.

KINDERGARTEN IN HOSPITAL

WORCESTER, Nov. 5.—The directors of the Memorial Hospital society voted yesterday to take up a new line of work in establishing there a kindergarten for little children who may be confined to the hospital for any considerable time. The hospital makes a specialty of caring for children and many of the little ones who are suffering from diseases that make their confinement for a long time necessary.

One teacher in the state normal school will have charge of the kindergarten and the children who are above the kindergarten age will be given a special line in industrial work.

By J. E. CONANT & CO., Auctioneers

OFFICE, LOWELL, MASSACHUSETTS

REGARDLESS OF WEATHER CONDITIONS THE HIGHEST BONA FIDE BIDDERS SHALL BE THE ABSOLUTE PURCHASERS OF THE TWO HUNDRED AND FIFTY LOTS OF PROPERTY

MACHINERY—OTHER PERSONALTY—AND REALTY

FREE FROM ENCUMBRANCE

UPON RAILROAD AND TIDE WATER AND IN LOTS TO SUIT PURCHASERS

At Thomaston, Maine, on Thursday, the 12th day of November, 1914, commencing promptly at half-past eleven o'clock in the forenoon upon the premises of the Thomaston Brick Company, analysis and tests of the clays prove that the clays carry over 17% of alumina, and tests of the clays prove that the clays carry over 30% of greater crushing strength and from at least 30% to 60% less absorption, their fineness and freedom from salt-petre and lime are a guarantee against discoloration or changes in appearance of their products; they are also remarkably free from foreign matter in any way injurious to the manufacture of brick and pottery; there is not the remotest difficulty in drying and burning at a low temperature. Dry-pressed brick from these clays have shown absorption as low as 10%; in wire-cut hard burned brick has not averaged 15%. It is equally good for fireproof hollow brick, tapestry and other fancy brick. The machinery and other personal property is practically new and of the very latest standard type. All the catalogues which may be had upon application at the auctioneers' office, where all inquiries must be made. Freight rates averaged \$2 per thousand less from Thomaston than from other sources of pressed face brick; all native brick about \$1.75 a thousand. The water frontage; naturally drained clay lands; a box of clay sand express paid upon proper request.

GERMAN CRUISER BLOWN UP BY MINE

Paris Hears That Gen. Von Kluck of German Right Wing Died at Namur—Berlin Says Blocking of North Sea is Blow to Neutral Shipping—Naval News Looms Large in London

LONDON, Nov. 5.—Naval news looms large in London today. The British public is seeking further details for the action last Sunday off the coast of Chile but no confirmed reports are being made to minimize this disaster. Great anxiety is felt concerning the fate of Rear Admiral Sir Christopher Craddock, which probably will not be known until it has definitely determined what has become of his flagship, the cruiser Good Hope.

The British public, however, is not left without some crumbs of comfort, as Berlin officially admits the loss of the cruiser York, blown up by a mine near Zeebrugge, one of the outlying defenses of Wilhelmshaven, while in shipping circles in London it is declared that the career of the German cruiser Koenigsberg in the Indian ocean has been ended.

Sir Percy Scott, England's greatest gun expert and a champion of the superiority of submarines over dreadnoughts has rejoined the admiralty. As he has been known in the past as a supporter of Baron Fisher, it is expected he will uphold the new policies already inaugurated by the new sea lord.

Further details from the scene of land fighting indicate that the forward movement of the Russians have become genuine. From the Russian left wing which has been held stubbornly by the Austrians for weeks past has joined in the advance. This is admitted by a conservatively worded official report given out in Vienna which declares that the Austrians having maintained their positions on the East Gora mountains, where the Teutonic allies pivoted in order to let the rest of the army complete its wheeling movement to a new line, are now retreating. At the same time the Austrians forth certain minor successes along the line from the river San to Jaroslavl.

Petrograd, however, makes positive assertion that the Russian movement is a retreat. According to reports in the Russian capital, General Von Hindenburg, the German commander, is said to be continuing his retreating movement in Russian Poland, while desperate fighting along the frontier of East Prussia has enabled the Russians to cross the border at several points. A significant phase of the eastern campaign is indicated by a report from Rotterdam that the ninth German corps has been transferred from Belgium to East Prussia.

The Turkish ambassador left London today and Great Britain gave formal announcement of a state of war between the empire and Turkey. These events coupled with the action of British cruisers in bombarding Turkish ports constitute the extent of the known activities this morning in the Turkish situation.

ANNOUNCED THAT STATE OF WAR EXISTS BETWEEN ENGLAND AND TURKEY

LONDON, Nov. 5.—It was officially announced in London today that a state of war exists between Great Britain and Turkey.

The proclamation to this effect, which subsequently was gazetted, reads as follows:

"Owing to hostile acts committed by Turkish forces under German officers a state of war exists between Great Britain and Turkey from today and all proclamations and orders in council issued with reference to the state of war between Great Britain and Germany and Austria shall apply to the state of war between Great Britain and Turkey."

A privy council was held in Buckingham palace this morning to discuss this question. At its conclusion, King George signed the documents proclaiming the state of war and the announcement was made.

REPORTED THAT GEN. VON KLUCK DIED IN HOSPITAL AT NAMUR

PARIS, Nov. 5.—The correspondent of the Excelsior says he has from a source which he cannot designate, news of the death of General Von Kluck ten days ago in a hospital at Namur, where he was treated for a wound in the head. The news of the alleged death, the correspondent says, has been carefully concealed in Belgium and Germany.

Gen. Von Kluck, who led the dash of the German right wing which got to within a few miles of Paris in the first month of the fighting, has been reported, within the last few days, in official communications as directing his army in the fighting on the River Meuse. When the scene of severe fighting shifted to Belgium and the German right wing was extended into

that territory, Gen. Von Kluck, following his retreat from the vicinity of Paris, remained in the position he had taken on the Meuse. The fighting there recently has been overshadowed by the operations in Belgium and Gen. Von Kluck and his army, according to reports have been given a much-needed rest.

BLOCKING OF NORTH SEA BLOW TO SHIPPING OF NEUTRAL POWERS

BERLIN, Nov. 5.—(By wireless)—Information was given out to the press in Berlin today from official quarters as follows:

"The director of the Swedish Shipping association declares that the English blocking of the North sea by mines is a blow to shipping of neutral powers, especially Scandinavia."

DISMISSES SUFFRAGE SUIT NEW HAVEN JUDGE CLAIMS INJURIES TO FACTIONS IN CLUB ARE NOT WORTH CONSIDERING

NEW HAVEN, Conn., Nov. 5.—Judge William S. Case of the superior court yesterday dismissed the suit of 29 officers of the New Haven Political Equality club. In his decision he said:

"The club is composed chiefly of women. There is a small male membership, apparently negligible, save for the unworthy function of stirring the women to great wrath over points of parliamentary procedure. The original purpose of the club, though somewhat obscure, seems traceable to this questionable interference, and two factions are in hopeless dispute over their respective rights to the exclusive use of the club's name."

"One faction has expelled the other by a resolution of withering contempt and the expelled group have retaliated by suspending the supporters of the resolution. It does not appear that any injury worth a court's consideration had occurred to either faction. It is a case of a civil war, and the principles of equity in dealing with the others."

POST 185, G. A. R.

The regular meeting of Ladd & Whitney post was held last evening. Commander Caverly in the chair. General orders from the national and department headquarters were read. Under the new business, the quartermaster, W. A. Arnold, presented the post, Capt. James B. Thompson, with a group picture of the "Four First Marries of the Civil War," Col. Ellsworth, Addison G. Whitney, Luther C. Ladd, Sumner H. Needham, Capt. Thompson was a Civil war veteran in Cos. G and D, 16th Mass. Vols.

A vote of thanks was extended to him, and when the post was to surrender its charter this picture, with others, will go to Memorial hall.

The post accepted an invitation to attend Post 129, G. A. R., inspection, Wednesday evening, Nov. 11.

FRIDAY'S SUN FEATURES

The Old Timer Will Have an Interesting Review of Happenings of a Quarter Century Ago; Other Features

The Old Timer will recall the local celebration of the Catholic centenary in which many well known people appeared, and will relate how Commissioner Morse received a bump in Bridge street 25 years ago, together with other interesting reminiscences of a quarter of a century ago.

It is a sad lot that many Lowell ladies are at the present time in a state of uncertainty concerning their preference with regard to the style of a winter hat. Marjorie was in the same predicament, didn't know what style she wanted and went to Marie for advice. Whereupon the French Maid made some suggestions. These will be published in The Sun tomorrow and may help the readers just as they helped Marjorie.

The Chamotte Treatment is the newest and most effective local treatment for the complexion. Women who are troubled with skin troubles, etc., should give her skin the chamotte treatment. It is fully explained in "The Ribbitt's Foot" in tomorrow's Sun.

In Friday's Sun there will be printed an interesting suburban article with a discussion of various important suburban topics.

"The Hands Family" is the story of a clock and the dreadful experience it had. Read this story to the kiddies at "Sleepytime."

If your teeth trouble you, see Dr. Gagnon, 465 Merrimack street.

BOMBARDMENT OF TSING TAU CONTINUES, SAYS REPORT FROM TOKIO

TOKIO, Nov. 5.—It is officially announced that the bombardment of Tsing Tau continues. The Germans on the night of Nov. 3 made a counter attack which for a time hindered operations.

The attacking forces, according to the statement, are now gradually closing in. Shells are falling in the streets of the town and the power-house has been destroyed.

On Nov. 4, the Japanese right captured some small forts and an officer and 20 soldiers.

SON OF DUKE OF WELLINGTON KILLED AND CAPT. PONSONBY WOUNDED

LONDON, Nov. 5.—A casualty list which was issued last night under date of Oct. 30 contains the names of 29 officers killed and 45 wounded. Those who met death at the front include Lord Richard Wellesley, second son of the fourth Duke of Wellington, of the Grenadier Guards; Lieut. Col. H. L. Anderson of the 9th Bhopal Infantry; and two native Indian officers.

Among the wounded were: Lieut. Col. Maxwell Earle of the Grenadier Guards, a member of the general staff of the war office; Lieut. Col. L. W. B. Gray of the 45th Willes Hill; Capt. Hun. C. M. B. Ponsonby, of the Grenadier Guards, second son of the eighth Earl of Bessborough; Lieut. Col. L. Wood of the Border regiment; 2d Lieut. Hon. R. G. Wynne of the Coldstream Guards, eldest son and heir of the second Baron Stovell.

AGED COUPLE INJURED

CLINTON, Nov. 5.—Mr. and Mrs. J. Henry Sawyer of West Berlin, aged about 70, were severely injured yesterday on Cameron street hill when their carriage was struck by a work car on the Hudson branch of the Worcester Consolidated Street Railway company. Both were thrown from the carriage. Mrs. Sawyer suffered a broken collarbone and multiple cuts and bruises. Mr. Sawyer was cut and bruised and his right side is paralyzed. Both are on the dangerous list at the Clinton hospital. Mr. Sawyer being considered the more seriously injured.

PANIC STRICKEN MEN TRAMPLED MOTORMAN

Fifty Passengers in Panic When Car in Which They Were Riding Crashed Into Auto Truck at Haverhill

HAVERHILL, Nov. 5.—Fifty laborers riding in a workmen's street car became panic-stricken early last evening when the car crashed into a two-ton truck near the end of the Haverhill bridge on Main street. Terrified, they rushed for the front and rear doors and the car was quickly emptied. Those who rushed out of the front door trampled upon Motorman Joseph Peters. He was taken to the Hale hospital, where he was found to have received serious internal injuries. Antonio Romano, one of the laborers, was slightly injured by being trampled on.

The laborers, who are employed on the reconstruction of the Bay State

Street railway in Georgetown, were being conveyed to their homes on River street here.

An auto truck of H. L. Taylor & Co. had broken down on Main street and another was towing it with a rope to the company's coal yard on water street. Near where the road meets the bridge the first truck crossed the track as the electric car approached. The car struck the second.

Who was responsible for the accident is not as yet known, as Motorman Peters was unable to talk last night, but it is supposed that on seeing the first truck cross the track he believed the other would wait until he passed, not having seen the tow rope until too late to avoid the collision.

The front vestibule of the car was crushed in, but the auto truck was not damaged.

UNIFORMED KNIGHTS OF PYTHIAS

Gave Fine Exhibition in Associate Hall With Large Attendance

Second Regiment U. R. K. P. of Boston Made Very Fine Showing

Members of the order of Knights of Pythias from Lowell and vicinity assembled in Associate hall last evening to witness the patriotic exhibition and drill by members of the uniformed rank of the Pythian order. It was certainly a great Pythian night and the program was thoroughly enjoyed by the large attendance.

A feature of the evening was the presence of a solid company of the Second regiment, first battalion of Boston, which gave a sword and marching drill that has never been equaled in this city before. Witnessing the exhibition and drills were the members of the three local companies of the Sixth regiment, M. V. M.

Robert J. Fullerton was chairman of the evening and he introduced the various speakers and singers who participated in the patriotic entertainment given before Pythian members and the Sixth regiment. The first speaker presented to the audience was Col. A. F. Donnell, brigade master of the order of Boston who had for a subject "The Evolution of the Flag and its Defense by Knights of Pythias." The speaker brought out the fact that many of the soldiers of the uniformed rank of his order are former soldiers who have served in the ranks and been at the front during war time. He also said that the government stands ready to accept the services of the uniform rank at any time, claiming that it is the only order in the country to receive such an honor.

"Under the Colors of Great Britain in the Boer War" was capably handled by Percy B. Dakyn, of Boston company, second regiment, after a pleasing vocal selection had been given by Edward Burt of Boston.

One of the most interesting talks of the evening was given by Lieut. Edward Thompson, of the six wounded survivors of the battleship Maine. Lieut. Thompson told in an interesting manner of the sinking of the ship and he was accorded a fine reception at the conclusion of his remarks. Another song was given by Mr. Burt.

Lieut. Col. Richard Skane, a veteran of the regular army, told of following the flag in the Philippines and in Cuba, and Captain Bert Hemen, formerly a commissioned officer with Madero's army in Mexico, spoke of "Battling for the Right in Mexico."

At 8:15 o'clock Captain Herbert Palmer of Boston went onto the floor with Pauline's company of the Second regiment, the prize company of the Massachusetts brigade. The evolutions were very good and brought round after round of applause from the audience. The sword drill was not only good to look upon, but it was carried through with surprising agility.

The 32 men in the company made an excellent impression. Many visitors from nearby cities were present during the evening, most of them being connected with the uniformed rank. Among those were General Lewis J. McKenzie, commanding the Massachusetts brigade, U. R. K. P., of Boston; Col. George W. Little, commissary, department of Brookline; Col. A. J. Donnell, master of the order of Boston; Col. J. J. Walton, chief of staff of Melrose; Col. Carleton H. Hutchinson, commander of the Second regiment, Massachusetts

ROBERT J. FULLERTON Chairman

brigade; Lieut. Col. H. S. Russell of North Chelmsford of the Second regiment; Capt. Percy Dakyn of Boston company; Lieut. Eugene Sleeper, of Boston company; formerly of this city; Capt. G. W. Rodway, past captain of Boston company; Capt. Herbert Palmer of Pauline's company, of Boston; Lieut. Maher, Boston company; Sir Knights Colpeck and Hemen, of Boston company; Sergt. H. E. Healey and Quartermaster Sergeant Perkins of Boston company; Capt. Edwin F. Lamson, First Lieut. Joseph Robarge and Second Lieut. Lester O. Mason of Butler Ames company of Lowell.

At the conclusion of the drill the Boston men partook of luncheon and then entered their special car and went home. The drill had been eminently successful from every standpoint, and the interesting addresses by members of the order gave a good insight into the patriotism of the order.

H. & M. ORDERED TO PAY \$63,184

BOSTON, Nov. 5.—Verdicts aggregating \$63,184 were returned yesterday in the superior court here against the Boston & Maine railroad by order of court.

The suits are based on the note issues of that road which could not be met when they fell due, and as a result some of the holders who did not agree to an extension brought suit.

Otto Bell received the largest amount, \$22,801.67, with the Merrimack National bank next with a verdict of \$10,253.34, and Charles W. Arnold \$12,667.

Interest begins Saturday, Nov. 7 at the Central Savings bank.

MT. VESUVIUS IN ACTION

RECENT ERUPTION AUGMENTED BY A NEW FISSURE—VILLAGES THREATENED

NAPLES, via Rome, Nov. 5.—The eruption of Mt. Vesuvius has been augmented because of the opening of a new fissure in the bottom of the old crater. From this new opening an extraordinary amount of smoke and a great quantity of ashes is being emitted.

This is blown by the wind toward the seashore, clouding the villages around the gulf and also the island of Capri, 20 miles south of Naples, which appears as if in a mist.

SEC. DONAHUE LEAVES HOSPITAL

Secretary of State Frank J. Donahue, who was injured in an automobile accident while campaigning last week, left St. Elizabeth's hospital yesterday afternoon for his home. He has been suffering from a fracture of the left elbow.

Best printing; Tobin's, Asso. bldg.
